Vitalacy Staff Rounding

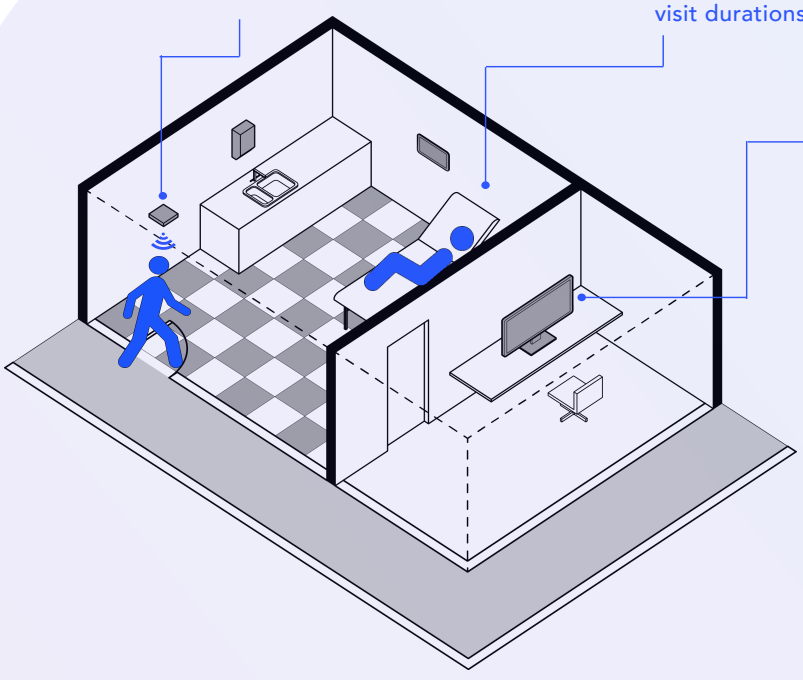
Improve patient safety and satisfaction with the Vitalacy purposeful rounding solution. Through hourly rounding and proactively addressing patient needs, you can improve nursing responsiveness, reduce patient falls, and increase HCAHP scores.

Features:

- See which patient rooms were visited and when
- Identify which staff member completed rounding, at what time, and for how long
- View activity by staff, by room, or through a convenient map view
- Identify high and low performing staff to target education and training
- Get alerts when patients have not been visited when necessary

View every patient room visit occurance tracked by Vitalacy location beacons.

Ensure that your patients get the care they need when visited through monitoring each visit durations.



The web platform provides insights on rounding data and staff performance. Analyze room visit trends in detail by location, by staff member, or by room number.
