Post 16
Supporting teaching the New GCSE Mathematics Re-sit

First session: Friday 23rd February 2018

MathsHUBS Enigma

Cost: FREE

NCP17-18

Supporting teaching the New GCSE Mathematics Re-sit

This is aimed at Post 16 and Secondary teachers of Mathematics

Intended outcomes of the workgroup are:

- Increased awareness and understanding of the new GCSE's content and how to use resources effectively as part of teaching.
- Increased confidence (over the course of the academic year) in teaching the new GCSE to re-sit students.
- Increased collaboration and exchange of experiences in the re-sit territory between schools and colleges participating in the Work Group.
- Increased engagement among GCSE re-sit students, leading, in time, to more secure learning.

Dates and venue:

- **First session Friday 23rd February 2018 - (1.00pm to 4.00pm)**
  Focus is building resilience and doing maths differently from Year 10 & 11
- **Remaining sessions, dates to be confirmed.**

Venue: Milton Keynes College, Chaffron Way Campus, Chaffron Way, Leadenhall, MK6 5LP .

Course leader: Michelle Moore is the curriculum innovation leader for maths at Milton Keynes College and has more than 30 years experience teaching in secondary schools and Further Education in Milton Keynes and Buckinghamshire up to A-level. Michelle has led CPD sessions to specialist and non-specialist maths staff and for the NCETM, of which she has been a member since the 2000's.
In her current role Michelle also teaches GCSE (resit) and works closely on an individual and group basis with all of the maths staff. She is developing and supporting a team of vibrant and enthusiastic maths teachers to teach GCSE maths. This includes a number who have not taught GCSE maths before. This interaction with staff puts her in an excellent position to be aware of the difficulties faced in understanding mathematical ideas. This has helped inform the planning and delivery of lessons for students and some of these ideas will be incorporated into the forthcoming sessions.
