

I CAN SEE MY FUTURE

Career Training Opportunities

Did you know that South County is home to many eyeglass manufacturers and dozens of optical stores?

Are you interested in working in the optical industry? There is a great need for opticians and others working in the eye care and eyeglass manufacturing fields in the South County area.

Chula Vista residents, join the NO COST "I Can See My Future" training program to begin your career pathway to a job that starts at \$14/hour.

Discover a career that combines technology and fashion - and is in demand! Employment of opticians is expected to grow by as much as 18.2% from 2014 to 2024, much faster than average.

"I Can See My Future" is a 75 hour training program that starts in November 2018 and ends in May 2019. Participants will attend one time a week for 3.5 hours on either Thursday mornings at South County EDC/South County Career Center or Thursday evenings at Southwestern Community College.
