# BGI THE BUILDERS

When we launched the seeds of what was to become BGI, back in 2010, we did not grasp fully what we were about to create.

Our mentor, Prof. Cooney - head of the Deshpande Centre at MIT and co-founder of Genzyme (exited to Sanofi-Aventis in 2012 for \$US 21B), told us: "there is no point in launching an endeavor in technology-based innovation if you are not patient – you will be lucky if you have any meaningful results in less than 7 or 8 years".

Technology-based ventures (as opposed to market-based or technology-enabled) require far more than just a viable business opportunity and funding in order to take off the ground. BGI is a transnational accelerator, based jointly in Lisbon, with operations in Cambridge, MA. It is precisely 9 years from when we launched BGI in the remit of the MIT Portugal Program.

It is time to take stock of what we accomplished.

Ventures that are selected to join the BGI accelerator have access to significant resources in BGI and the opportunities it provides for mentoring by sector experts (over 200), training and entrepreneurial development.

In 10 batches BGI accelerated 154 new ventures, with a survival rate to date of 60.4%. Alumni created 756 high tech jobs, and raised over €206 Million.

These results have led Hot Topics to designate BGI as one of the most influential accelerators in the world (2015), Fundacity to pick BGI as one of the top 20 in Europe (2016) and Valuer.ai to award BGI as one of the top 50 accelerators in the world (2019).

More recently, BGI has been strengthening its ties with the European Institute of Technology, in 4 KIC's, namely, Digital, Climate, Food and Health of which we are very proud to be part of.

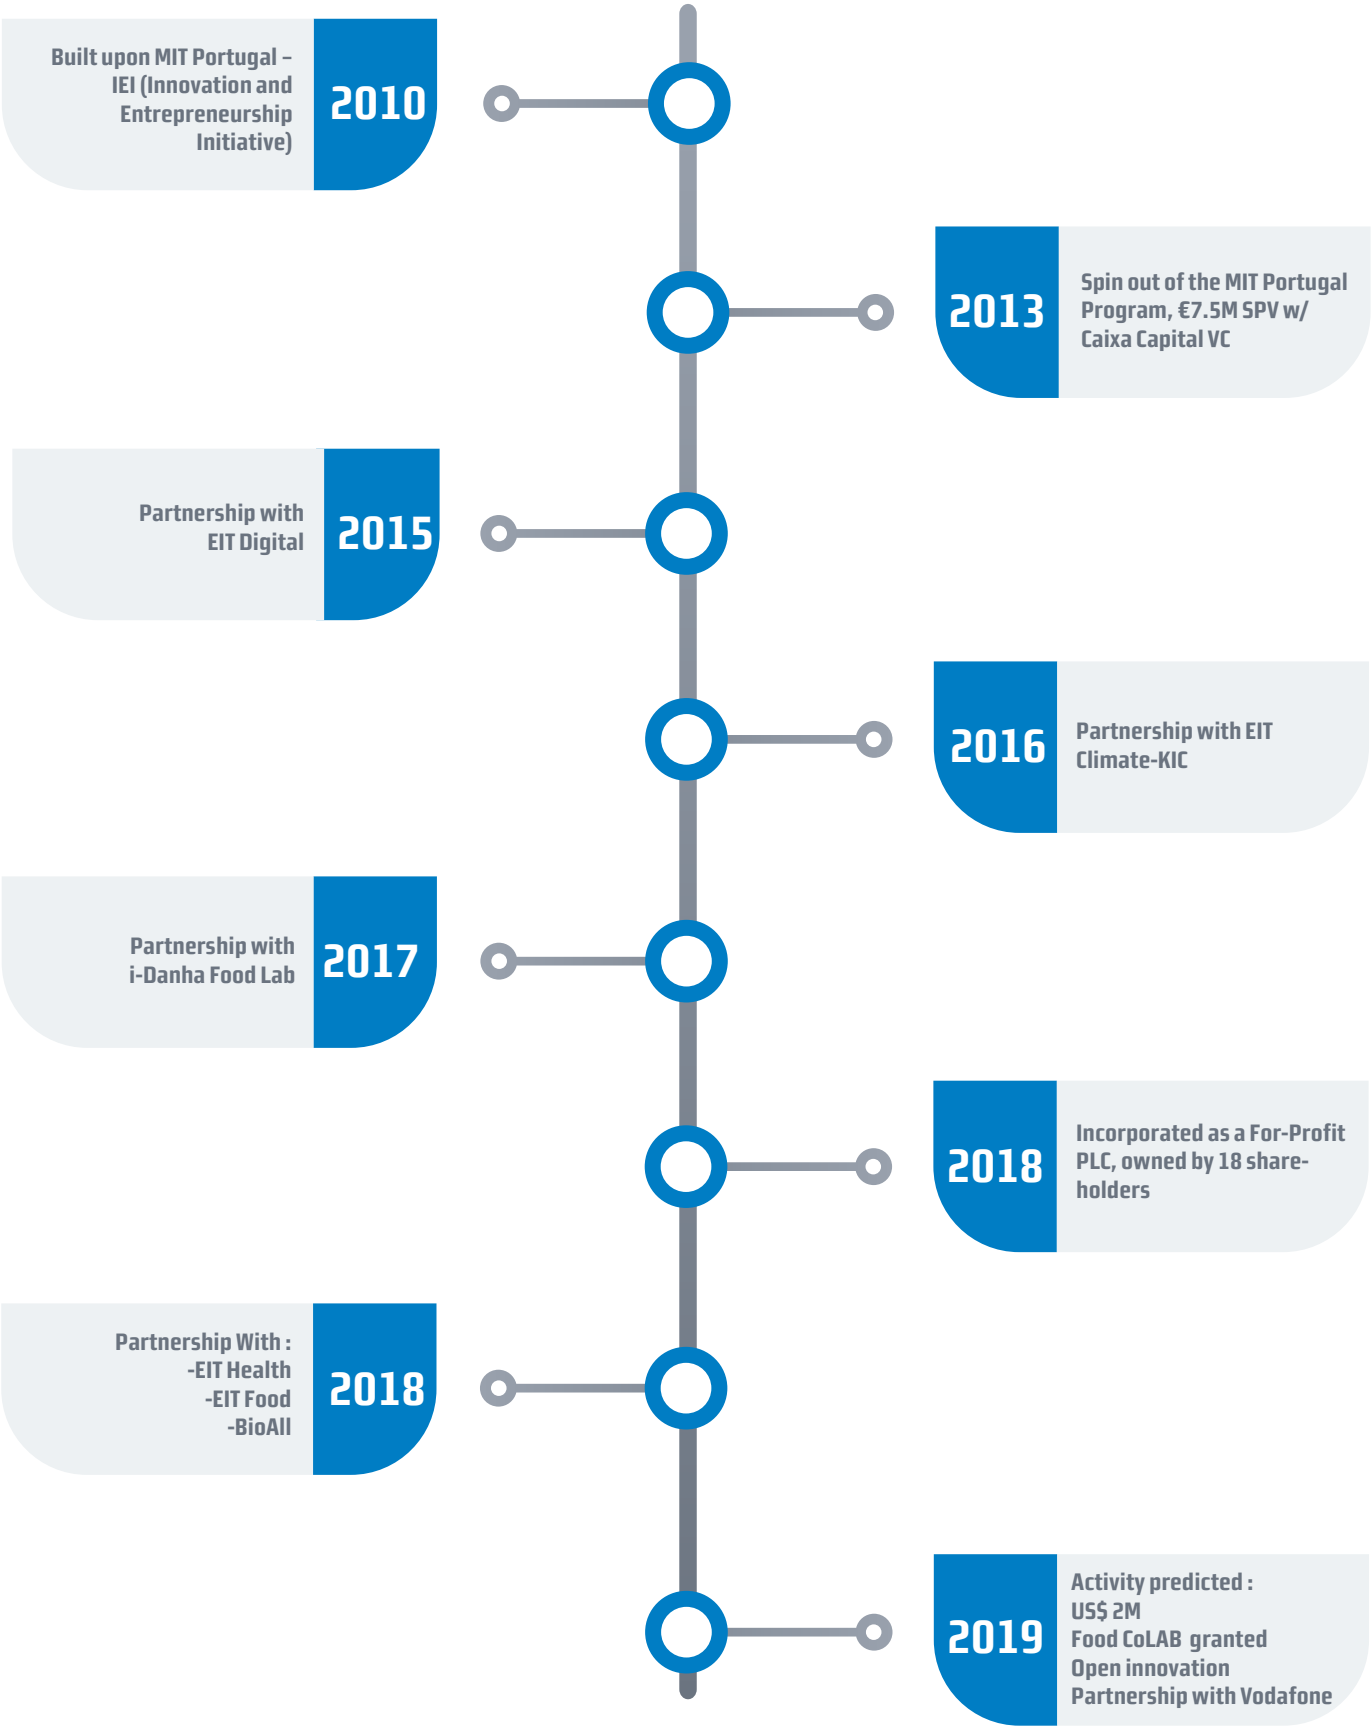

Some of our alumni are now valued in several hundreds of million of euros. BGI has 4 exits and more will follow soon. The sustainability of the Portuguese ecosystem has never been so promising. In the wake of the Web Summit, Portugal is now re-appearing on the map of global innovation.

It is with great pleasure that we share via this brief report the latest information on our activity and active alumni.

We hope you will be as excited as we are about these ventures' future!

“It is amazing, this environment is contagious, everybody has a lot of potential. They are teaching us so many things, so its tiring, YES, because it is so many hours. But in the end of the week you feel you have your heart full and that you have learned a lot”

**Pedro Carreira, COO Planetiers**

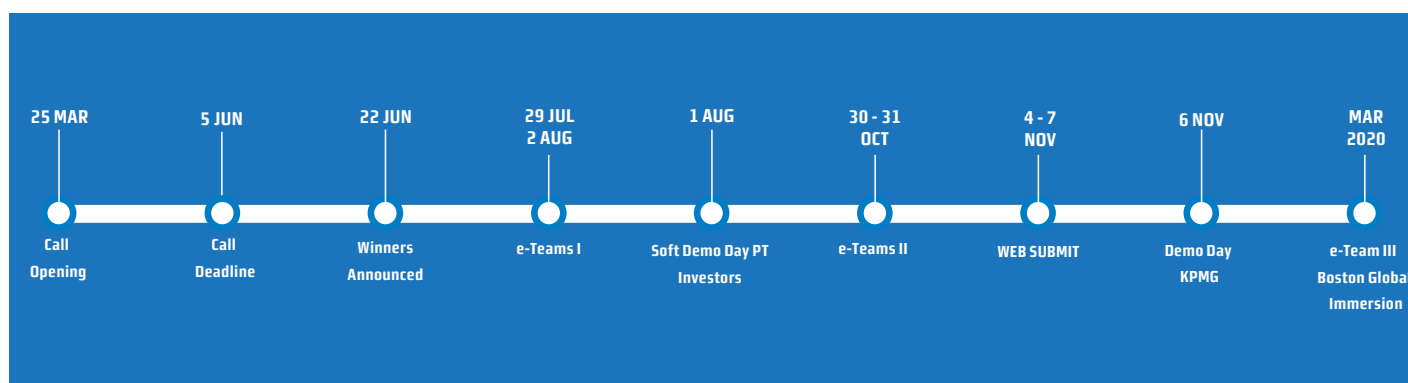

## WHAT

We provide opportunities to scale up via venture financing, connecting innovators with global investors. BGI takes a 6% equity in a pre-money valuation over €3M. BGI may provide €15,000-30,000 initial investment on a case by case basis. the acceleration Program offers 8 months support, followed by ad-hoc support for a further 5 years.

[www.bgi.pt/bgiacceleration](http://www.bgi.pt/bgiacceleration)

## WHO?

- ✓ Tech-based solutions solving global challenges
- ✓ Startups with less than 5 years
- ✓ Revenue < €2.5M
- ✓ At least with a working MVP in one of the 4 verticals:
  - Medical Devices & Health Care
  - Smart Cities & Industrial 4.0
  - Blockchain Applications & AI
  - Water Economy

## WHY?

This program was built based on MIT's methodology, therefore we provide expert weekly mentorship program for 2 months, 3 boot-camps with professional coaching, 2 in Lisbon, Portugal and 1 in Boston, USA. Access to a global network of investors, corporate, partners through invitation only events. We look for the most suitable sources of "dilutive and non dilutive financing" for each of our startups.

## ABOUT EIT

The European Institute of Innovation & Technology (EIT) is an independent body of the European Union set up in 2008 to deliver innovation across Europe. The EIT brings together leading business, education and research organisations to form dynamic cross-border partnerships. These are called Innovation Communities and each is dedicated to finding solutions to a specific global challenge. EIT Innovation Communities develop innovative products and services, start new companies, and train a new generation of entrepreneurs. Together, we power innovators and entrepreneurs across Europe to turn their best ideas into products, services, jobs and growth.

**At the moment BGI is involved with EIT with 4 main verticals:**

**Food**

**Digital**

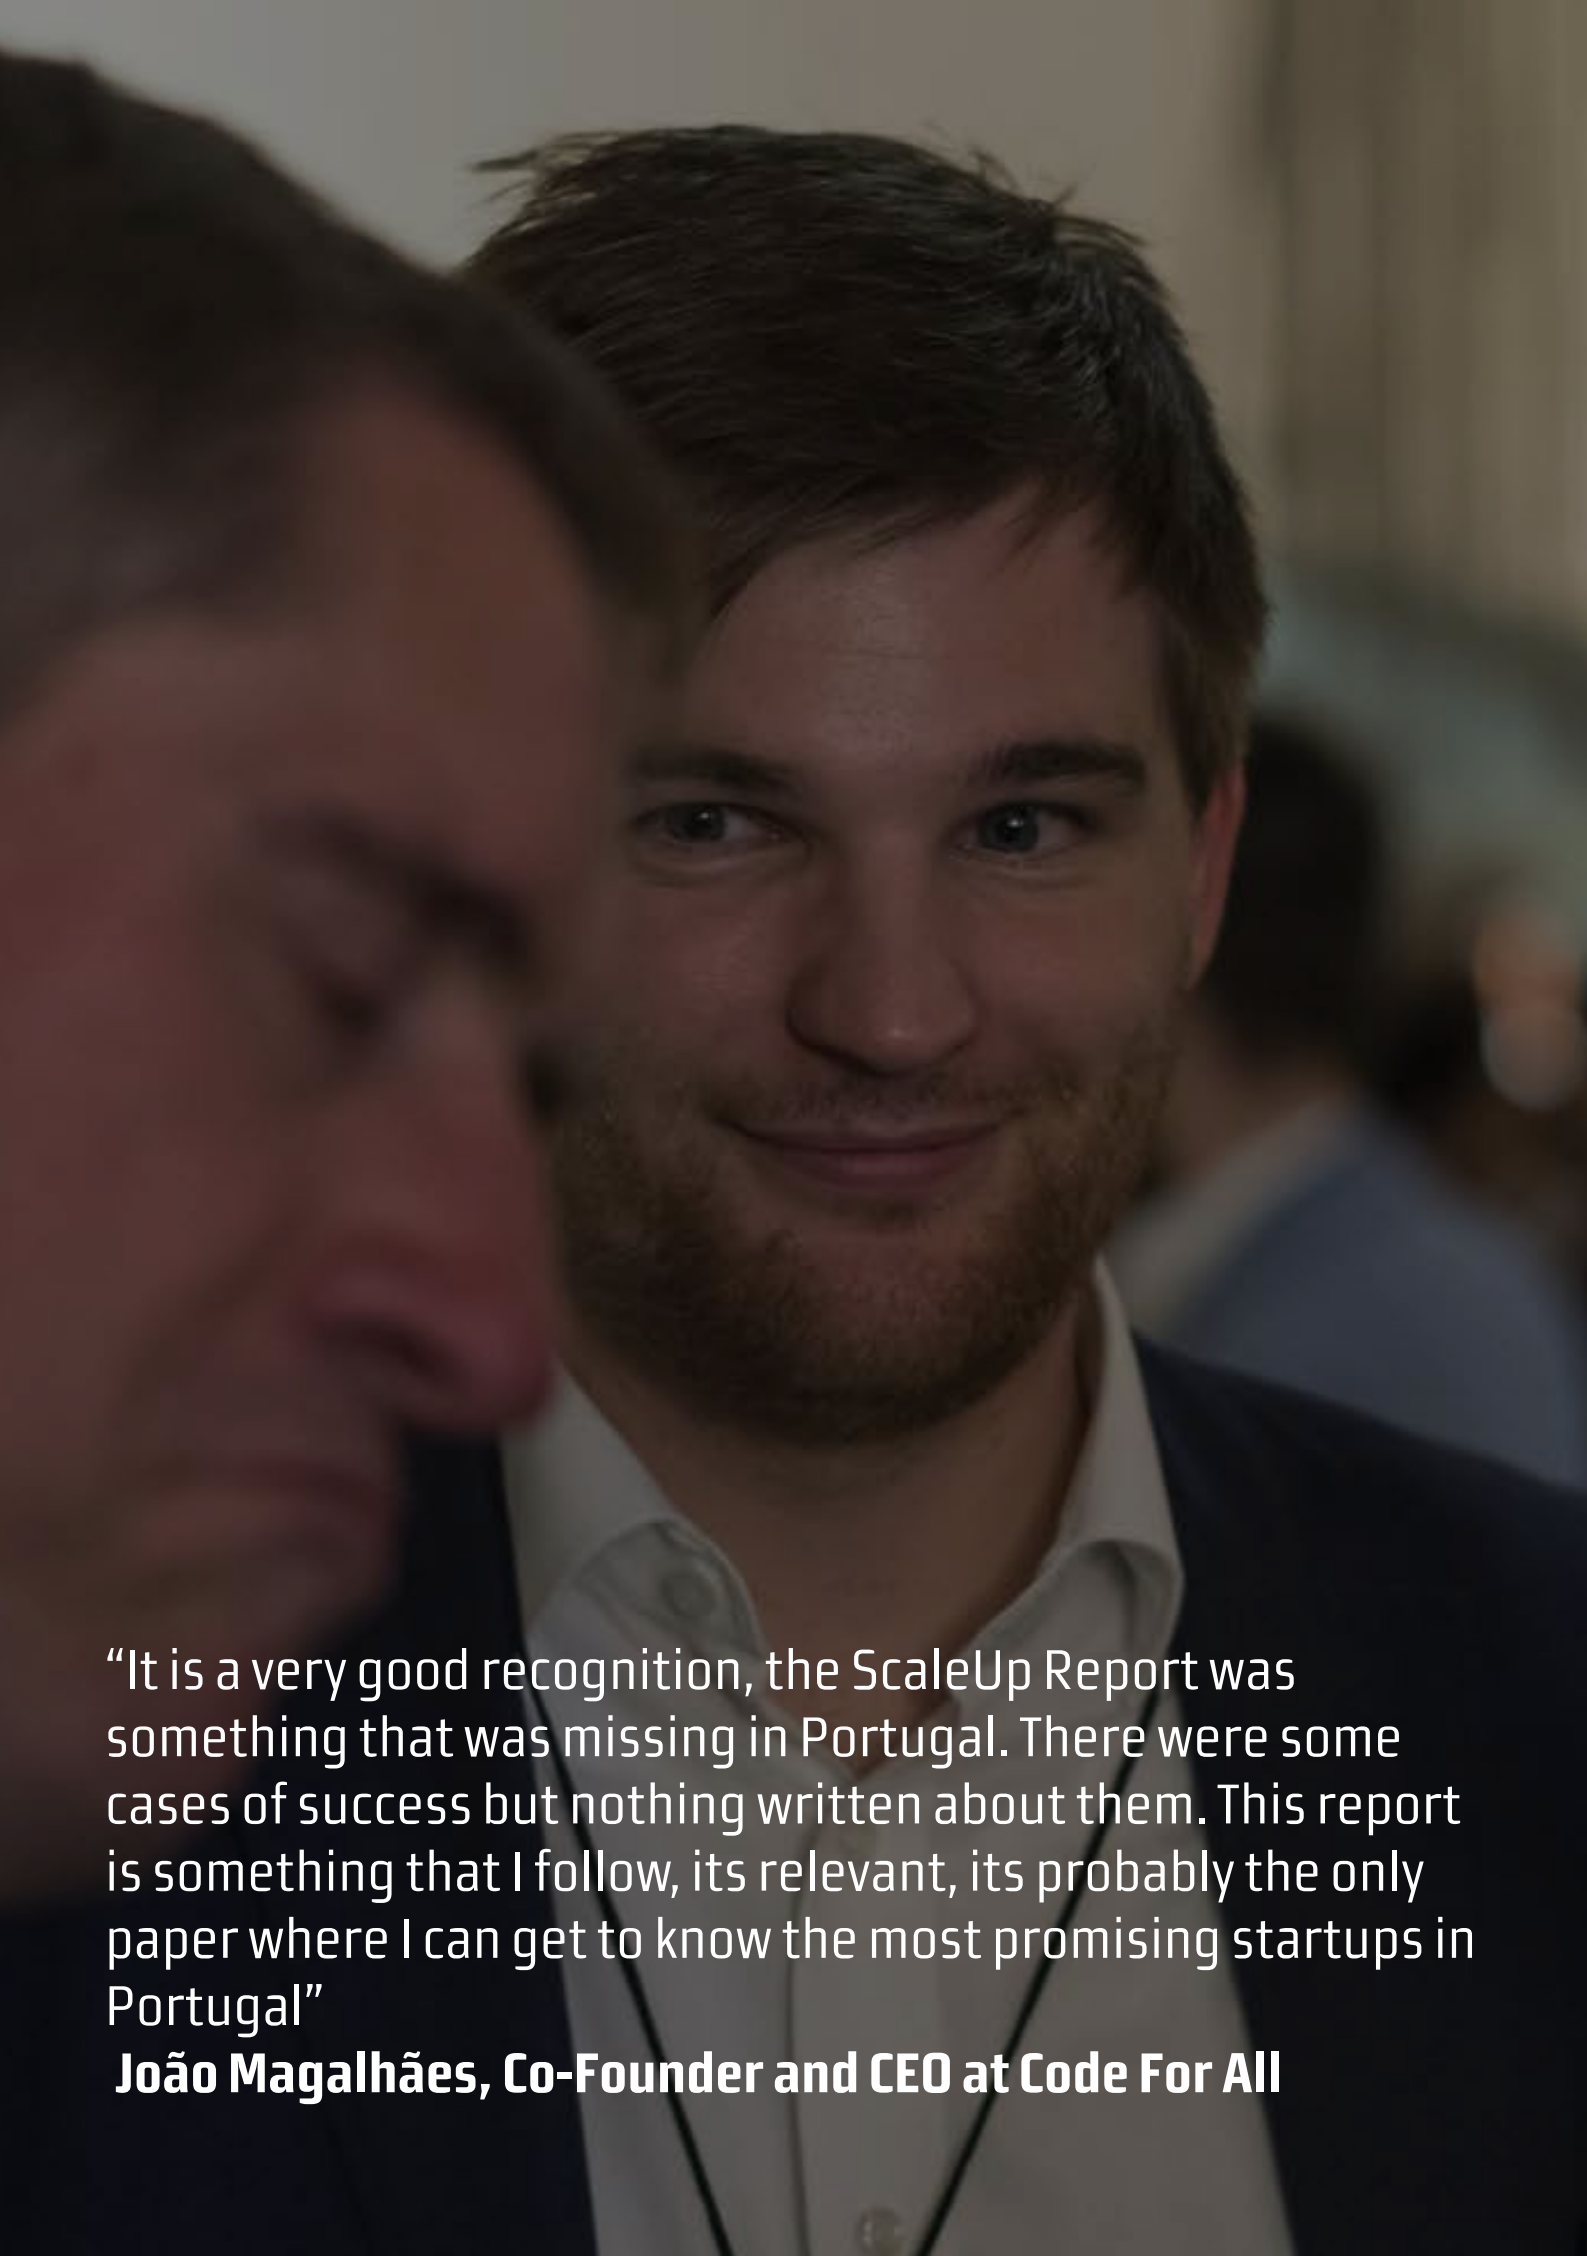

**Climate**

**Health**

“It is a very good recognition, the ScaleUp Report was something that was missing in Portugal. There were some cases of success but nothing written about them. This report is something that I follow, its relevant, its probably the only paper where I can get to know the most promising startups in Portugal”

**João Magalhães, Co-Founder and CEO at Code For All**

## WHAT

EIT Digital is driving Europe's digital transformation by delivering breakthrough digital innovations to the market and breeding entrepreneurial talent for economic growth and improved quality of life.

[www.bgi.pt/eit-digital](http://www.bgi.pt/eit-digital)

	Summer School	Open Innovation	Venture Program	ScaleUp Portugal
WHAT & WHO?	Master School students' attend a two-week long summer school and are immersed in real business cases. In the process the participants learn relevant skills to become the future digital entrepreneurs	One day event with 10 corporates and SMEs that present challenges for startups and research to solve - Reverse Pitch.	The EIT Digital Venture Program supports early-stage teams from 19 countries in finalizing an MVP and starting a company. With investment up to 15,000 € and a 6-weeks pre-acceleration to help launching digital tech businesses in Portugal.	This is the most comprehensive and data driven report on the top 25 Portuguese emerging technology start-ups from the last 5 years. Additionally honorable mentions of the best historically startups and exits are mentioned. The uniqueness of the data is that we go through depth interviews with TOP 25, and key actors of the ecosystem such as investors.
WHY?	<ul style="list-style-type: none"> <li>- Participation of 96 students on the last 3 Editions</li> <li>- Ranked #2 in all EIT Digital Summer Schools</li> </ul>	<ul style="list-style-type: none"> <li>- over 80 participants</li> <li>- 10 corporates</li> <li>- 10 startups</li> </ul>	<ul style="list-style-type: none"> <li>- 6 startups</li> <li>- 49 Applications</li> </ul>	<ul style="list-style-type: none"> <li>-2 editions</li> <li>-1000 Organic Downloads</li> <li>- 11 Press Mentions</li> <li>- 16 Social Media Mentions</li> <li>- 1 Exit - GuestU</li> <li>- Audience reach of 10,000</li> <li>- 27 Partners</li> <li>- Impact - Deal of 10Million</li> </ul>

### WHAT & WHO

EIT Health is a consortium of over 140 partners from leading businesses, research centres and universities from across fifteen EU countries. The goal of EIT Health is to contribute to increasing the competitiveness of European industry, improve the quality of life of Europe's citizens and the sustainability of healthcare systems.

### Main Activities Developed:

- ✓ **Bridgehead:** The European Bridgehead programme provides European start-ups and scale-ups with individualised support in expanding beyond their home market.
- ✓ **EIT Health InnoSTARS MINI MBA :** Mobility program within the European Union. The aim of these intense Bootcamp is to train Startups on their pitch and business model for the final EIT Health prize.

### WHY?

EIT Health is a network of best-in-class health innovators backed by the EU. We deliver solutions to enable European citizens to live longer, healthier lives by promoting innovation. We connect the right people and the right topics across European borders, so that innovation can happen at the intersection of research, education and business – for the benefit of citizens.

“The debate to be had is if all the technology and Innovation in the space of food production is enough to save the planet in time?  
At the moment the food production system is  
The single biggest threat to the biosphere.”  
**Tristram Stuart, Food waste activist, BGI Speaker**

## WHAT

EIT Food main mission is to support innovative and economically sustainable initiatives which improve our health, our access to quality food and our environment.

<https://www.bgi.pt/eit-food>

	EIT Food Innovation Prize	RIS Fellowships	RIS Talents	EIT Food Government Executive Academy
WHAT & WHO?	RIS Innovation Prize is a business creation activity in the framework of EIT Food RIS. Grants are awarded to support agri-food innovators that plan to transform the agri-food sector making it more transparent, more sustainable and better for the health of the European consumers.	This program is dedicated to students and graduates of Msc. who want to join an internship in a host company outside the region of study or origin for 3 to 6 month.	This program is dedicated to doctoral students and young postdocs representing scientific disciplines other than food science from Portugal. You will participate in innovation projects of EIT Food as well as R&D projects by becoming involved in dedicated internships in the EIT Food partner organizations.	EIT Food GEA is a week-long training programme that offers insights into challenges related to food system innovations and regulations. It is also an opportunity to exchange best practices that will contribute to further improvements of Research & Innovation Smart Specialisation Strategies and inspire the future development of operational programs based on the EU Structural and Investment Funds.
WHY?	<b>Awards :</b> - 1st prize is 10,000€ - 2nd prize is 5,000€.	RIS Fellowships interns will be provided with 1,350 € scholarship/per month.	RIS Talents interns will be provided with 2,000 € scholarship/per month.	GEA provides: workshops, lectures and highly interactive learning programme based on case-studies and real-life examples; opportunity to work with European experts and to build an international network; and participants do not pay tuition fee and have travel and personal costs reimbursed (up to the level of EUR 1,000 gross refunded in accordance with EIT/Horizon 2020 rules)

## WHAT & WHO

BIO-ALL is an international project held in Portugal, Italy and Spain, that is designed to increase competence in health-related entrepreneurship. This program is led by the University of Beira Interior (UBI).

This innovative project is funded by the European Commission under the Erasmus + program. It aims to develop entrepreneurial skills that are not yet structured and embedded in school and university curricula, although they are especially needed in sectors where entrepreneurs and businesses find more obstacles to accelerating marketing, such as biotechnology and health related industries. BGI is responsible for the accelerator work package, managing 3 other members.

## VODAFONE POWER LAB

### WHAT

Vodafone Power Lab is a program that aims to find business needs and opportunities through internal mentoring and BGI support. BGI helps Vodafone to cultivate innovation for the development of new products inside this company.

### WHO?

- ✓ Technology based startups
- ✓ Maturity Level: MVP and higher  
TRL Higher 5/6  
Validated product / service

### WHY?

The selected startups (10 to 12 per year) enters a mentoring program, with bi-monthly meetings with experts (Vodafone & BGI) and a continuous engagement by the community manager; Mentor pairing (2 mentors per team; 1 VODAFONE + 1 BGI).

**Financed Pilots and Testing :** 10,000€ financed by VODAFONE for each pilot (Unique Selling Proposition).

**Startups not financed :** Continue the support and management of other startups, with alternative supported models.
