

# LET'S TALK NATURAL GAS

First Nations and Community Workshops and Presentations

C3 Alliance has the expertise to facilitate and deliver First Nations and community outreach on the natural gas cycle. Participants will learn in everyday language about natural gas exploration, production, and distribution to better understand the many interests and demands of this sector.

We use experienced, independent presenters who know the challenges often faced by small isolated communities.

## LET us:

- Increase your community's understanding of the natural gas cycle from exploration to reclamation;
- Explain and answer questions about natural gas;
- Outline the potential benefits and challenges of the natural gas sector;
- Profile the facts about modern natural gas production and transportation methods;
- Help communities appreciate the potential economic opportunities of natural gas development;
- Outline government regulations and sector best practices;
- Help communities better understand natural gas development, distribution and use.

**CALL US to discuss!**

## "Let's Talk Natural Gas" Workshop

The Let's Talk Natural Gas™ Workshop helps First Nations and communities better understand the complete life cycle of the natural gas sector. People will learn how natural gas is extracted, processed and transported. A strong emphasis is placed on factual information that is designed to dispel misconceptions about the sector. The workshops are interactive and are delivered using non-technical terms in a relaxed, innovative manner using numerous photographs, real life examples and humour to enhance the learning experience. The material is presented by skilled and knowledgeable instructors who deliver informative and engaging presentations.

## Workshop Leaders

### Phillip "Jerry" Asp

President, C3 Alliance Corp

Jerry is one of western Canada's most prominent Aboriginal leaders. He is committed to enhancing the quality of life for Aboriginal people through the creation of new business opportunities and development of skills and capacity in the community. In 2010, Jerry was awarded the Prospectors and Developers Association of Canada Skookum Jim award which recognizes Aboriginal achievements in the mineral industry.

### Vic Levson, Ph.D., P.Geo.

C3 Alliance Corp Associate

Vic has over 30 years of experience working with government, industry (mineral, gas, pipeline and energy companies) and universities. Vic worked in various positions with the British Columbia Ministry of Energy and Mines for 20 years culminating in the position of Executive Director of Resource Development and Geosciences in the Oil and Gas Division. He has worked on a number of gas exploration proposals in British Columbia and several major proposed gas pipeline projects and also has extensive experience in mineral exploration. He is an Adjunct Professor in the Department of Earth and Ocean Sciences at the University of Victoria. He also teaches courses in Environmental Technology and Geology at Camosun College. He has given numerous presentations and workshops in a wide variety of public settings.
