

The diagram illustrates a curved banner template with four distinct zones. The outermost boundary is a solid orange line representing the 'Template' size (74x251cm). Inside it is a dashed magenta line for 'Production size' (77x256cm). A dashed red line indicates the 'Visible area' (64x244cm), and a dashed green line marks the 'Safe zone' (61x235cm). A gray shaded area is located at the top of the banner, with a red exclamation mark icon pointing to it from a warning box. The bottom of the banner is also gray shaded. The left side of the banner is curved, while the right side is straight.

Template

(Size job after confection)

Size: 74x251cm

Production size

(File size for printing)

Size: 77x256cm

Visible area

(All elements of graphics will be visible on this zone)

Size: 64x244cm

Safe zone

(Important elements like texts or logos should be included within this zone)

Size: 61x235

Elements placed on gray area could be barely visible
