LUPUS

I was introduced to healthy chocolate in August of 2008. I have had Systemic Lupus (SLE) which is an auto-immune disease for 12 years.

I tried all kinds of holistic methods to feel better and nothing worked. I could not go a day without napping, joint pain or dizziness.

I was encouraged to add more medications to find relief.

I am happy to say that consuming the healthy chocolate daily has changed my life completely. I am now off of five medications, and I feel better than I have in 12 years.

I am able to keep up with life better than when I was in my 20's!
