Reverse Engineering Challenge

Your team (2-3 members total, only one group of 3) will be assessed on the quality of each component, so don’t take the easiest/minimal route. Each task should reflect on your work over several days.

- **Select an Item- get item approved by Mrs. Snyder by September 6**
  - Minimum of 4 parts
  - Able to measure with calipers, rulers, measuring tape, etc.

- **CAD Model-**
  - Each part modeled
  - Assembly fully constrained
  - Exploded Presentation

- **Working Drawings**
  - Cover Page with Assembly view
  - Exploded view with balloons & parts list
  - Each part fully dimensioned

*LATE submissions will result in -10% for each day.*
