

# HPHT Rig Coach

Stuart Wright can provide a HPHT Rig Coach to deliver training and coaching directly to rig crew as part of HPHT best practices implementation by going through different training modules, providing guidance on HPHT procedures, tripping and well control among others.

The HPHT Rig Coach typical roles and responsibilities, listed below, can be tailored to meet your specific requirements:

- Provides guidance to the rig crew on HPHT procedures.
- Supervises fingerprinting exercises.
- Monitoring of flow checks.
- Participates in the HPHT Drilling awareness meetings on the rig
- General instruction to the crew as necessary on basic HPHT materials, in accordance with HESS-UMW policies and standards.
