

CA HINGED DOOR TYPE KDG-1010

[Home](#) » [Products](#) » [CA doors and windows](#) » [KDG-1010](#)

Door leaf constructed of a core of 100mm insulation material, covered on both sides with polyester and finished all round with anodized aluminium profiles, thermal bridgefree. Equipped with a 'lift and drop' hinge.

- Especially for small, compact CA rooms.
- Accessibility to total width of room.
- 100% gas-tight due to unique inflatable profile system. Even in case of any wall and floor distortions and irregularities.
- Seamless, foodsafe polyester covering.
Choice of three standard colours.
Because polyester is used, the doors are light and easy to handle
- By utilising the 'lift and drop' hinge, wear and tear of the rubber bottom sealing is prevented.
- Optional CA window in door.
- Slight damage to the polyester top can be easily touched-up.
- 30 years worldwide experience.

Technical specifications CA hinged door type KDG-1010

Construction	: door leaf constructed of a core of insulation material, covered on both sides with 1,5mm impact resistant glass-fibre reinforced foodsafe polyester.
Thickness door leaf	: 100mm.
R-value	: approx. 3,7 (m ² .K/W).
Framing	: anodized aluminium profiles, thermal bridge-free.
Colour of door leaf	: standard colours RAL 6010 (green), RAL 9016 (white) or RAL 5005 (blue). Door leaf finished in colour to be specified at additional price.
Sealing	: 100% gas-tight by means of inflatable profiles.
Door frame	: anodized aluminium profiles with a complete thermal bridge-free fit to the wall.
Hinges	: block hinges and a Salco patented 'lift and drop' that raises the door a few millimetres. Wear and tear of the rubber bottom sealing, due to opening and closing, is therefor prevented.
Handles/bars	: three rotation bars included. Internal handle excluded.
Locks	: not included. Available at additional price.
Additional options	: threshold, finish of the clear opening, CA window and more.
