

Customise your brand protection

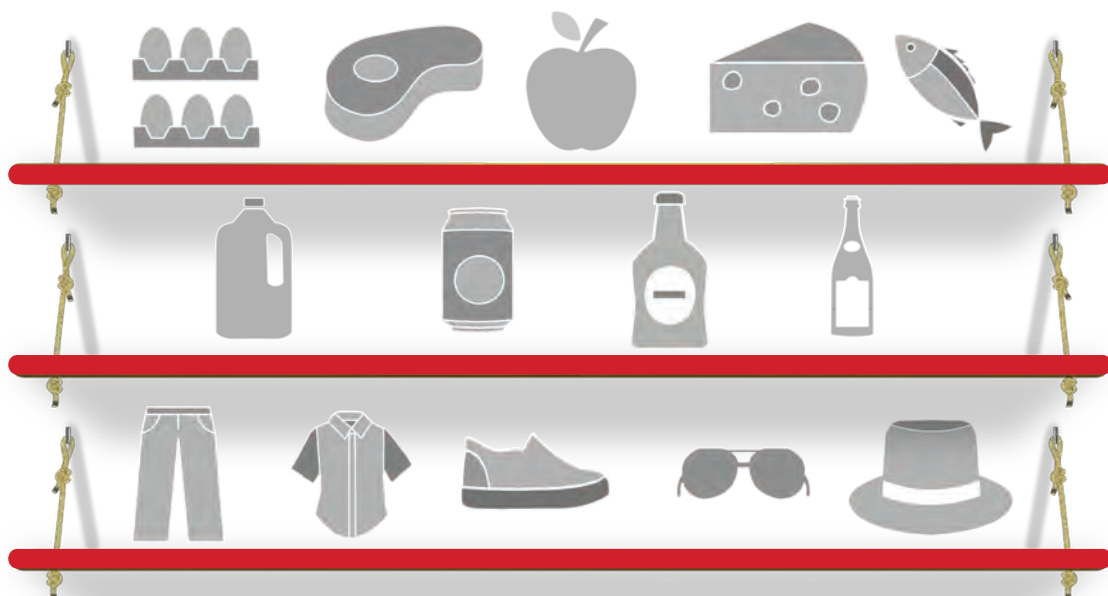

Digital Ink Technologies Pty Ltd, an innovator in thermal inkjet technology, now offers HP thermal inkjet printers & inks focused purely on providing exporters with globally unique solutions that protect the company brands from counterfeit, substitution and other fraudulent actions

A COMPLETE SOLUTION:

- **Polytij®** HP thermal ink printers
- Covert invisible non porous & HACCP foodgrade inks
- HD barcode integrated in QR code for marketing & security
- "Closed loop" custom UV lens smartphone & Apps
- Custom Website & IT Validation

We utilise innovative HP thermal POLYtij® UV invisible non porous & HACCP food grade inks, combined with our encrypted barcode technology, real time smartphone & website authentication. POLYtrust® offers the ability to protect food, packaging & luxury items such as clothing, shoes and sunglasses.

FOOD - PACKAGING - LUXURY ITEMS

Customise your brand protection

Polytij® S3 HP Thermal Inkjet Printers

POLYtij® HP thermal inkjet printers offer the ability to print directly onto food, glass, metal and most plastics used in the global packaging industry.

Combined with a complete range of non porous porous & HACCP food grade inks, POLYtij® HP thermal inkjet printers offer exceptional value for money and performance.
