

ROGA UK has a very clear vision to support Reagan Memorial Baptist Girls Secondary School in its contribution to the effective education of the Nigerian child.

A great school is reflected,
not only, in the exam pass
rates but also by how long it
is remembered by its
students, and by how many.

Our core vision and objectives are:

- “ To support the Alma Mater particularly in the areas of educational needs.
- “ To provide a form of social network for members and to support each other.
- “ To provide ongoing educational support in Lagos and Nigeria as a whole.
