I support reforms that will increase citizen participation in our elections!

Citizen participation is the cornerstone to a healthy democracy. That's why it's crucial that we expand opportunities for citizens from all over Kansas to participate in our elections.

We can make sure every Kansas citizen has a vote and a voice, by:

- **Repealing Kris Kobach's Failed Elections Policies**
Kansas citizens should be able to participate without having to overcome bureaucratic hurdles and red tape.
- **Allowing Voters to Register up to or on Election Day**
Unnecessary and arbitrary registration deadlines keep citizens out of the process. Election-day registration has worked in other states like Idaho, Montana, and Wyoming, and increased turnout up to 12%.

Please support legislation that includes these reforms!
It is time we increase citizen participation, and strengthen our democracy.
