# STRAIGHT TALK

Private parts. Touching. Secrets. Trust. Communication.  
Tough topics that require a gentle yet frank approach.

Dr. Jami Landen is a Licensed Psychologist and local Hollywood parent of two school-age children. Her psychological training and practice, combined with her real-life experience as a mom, come together in her unique, private in-home session called Straight Talk.

Designed for children 7 years and older, Dr. Landen tackles challenging themes with a sensitive spin. In the one-hour session, up to four children can gather to learn:

- The difference between a touch and a wrong touch
- How to handle the topic of secrets
- The definition of a pedophile
- Safety tips when communicating with others via phones and computers
- Trusting and having open communication with parents
- Ways to defend oneself when feeling worried or scared

Parents will also learn how to speak with their children about these difficult topics and how to recognize signs that a child may be feeling uncomfortable with an adult or another child.
