

Cleantech Capital Day

May 22, Tuesday

- 8.30 - 9.30 Registration, Networking and Coffee
- 9.30 - 12.00 Pre-event - Climate Finance and Solvers, powered by WWF

The session will highlight a mix of financial tools necessary to scale up the innovations we need to reduce emissions and stay well below 2 °C. The five Nordic startups in 2018 that are currently assessed to have the highest climate impact potential over the next ten years – so called WWF Climate Solvers - will also be revealed and pitch their solutions for you and the financial panel.

- 12.00 - 13.15 Networking Lunch

- 13.15 - 16.00 Nordic Cleantech Open Finals

The Nordic Cleantech Open (NCO) Finals features the 10 most promising cleantech startups from the Nordics. These 10 companies have been carefully chosen out of more than one hundred applicants in a process involving a big international jury of venture capital investors, industrial venture investors and other knowledgeable professionals.
