ANNUAL REPORT

FINANCIAL 15

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors. Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

These reports are available to view and download at www.financial15.com or www.sedar.com.

INVESTMENT OBJECTIVES AND STRATEGIES

Financial 15 Split Corp. invests primarily in a portfolio of commons shares which will include each of the 15 financial services companies listed below:

Canadian issuers	U.S. issuers
Bank of Montreal	Bank of America Corp.
The Bank of Nova Scotia	Citigroup Inc.
Canadian Imperial Bank of Commerce	Goldman Sachs Group Inc.
CI Financial Corp.	J.P. Morgan Chase & Co.
Great West Lifeco Inc.	Wells Fargo & Co.
Manulife Financial Corporation	
National Bank of Canada	
Royal Bank of Canada	
Sun Life Financial Inc.	
The Toronto-Dominion Bank	

The Company may also invest up to 15% of the net asset value in equity securities of issuers other than the 15 financial services companies listed above. In order to supplement the dividends received on the portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the portfolio.

The Company offers two types of shares:

Preferred shares (FTN.PR.A)

The investment objectives with respect to the Preferred shares are as follows:

1. To provide holders of Preferred shares with cumulative preferential monthly cash dividends, the amount of which will be fixed by the Board of Directors on an annual basis, subject to a prescribed minimum of 5.25% for the five year period commencing December 1, 2015. Monthly dividends for the fiscal period commencing December 1, 2017 have been set at \$0.04583 per Preferred share per month for an annual yield of 5.50% on the Preferred share repayment amount; and
2. On or about the termination date of December 1, 2020 (subject to further 5 year extensions thereafter), to pay the holders of the Preferred shares \$10 per Preferred share (Preferred share repayment amount).

Class A shares (FTN)

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders of Class A shares with regular monthly cash distributions in an amount to be determined by the Board of Directors; and
2. To permit holders to participate in all growth in the net asset value of the Company above \$10 per unit, by paying holders on or about the termination date of December 1, 2020 (subject to further 5 year extensions thereafter) such amounts as remain in the Company after paying \$10 per Preferred share.

RISK

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 26, 2018. In addition, note 5 of the annual financial statements ("Management of Risk of Financial Instruments") contains disclosure on specific types of risks related to the financial investments held by the Company.

RESULTS OF OPERATIONS

The year ended November 30, 2017 was characterized by accelerating synchronized global growth and record setting financial markets.

The Bank of Canada and U.S. Federal Reserve increased interest rates two and three times respectively during the year evidencing improving economic growth and very low unemployment levels in each country. An increasing rate environment is generally favourable for the bank and life insurance stocks held in the portfolio. U.S. financial services companies performed extremely well during the year benefiting from the new administration's continuing objectives to significantly reduce regulation and taxes. Most of the Canadian and U.S. financial services companies held in the portfolio finished the year at multi-year or all-time record highs.

The net assets per unit (consisting of one Preferred share and one Class A share) finished at \$18.32 as at November 30, 2017, after the payment of \$2.03 in combined distributions to both classes of shares at the targeted rates. A combined total of \$24.63 has been paid in distributions since inception.

On December 2, 2016, the Company completed a secondary offering of 2,040,000 Class A shares and 2,040,000 Preferred shares for net proceeds of \$36.6 million (gross proceeds of \$38.3 million).

On March 2, 2017, the Company completed a secondary offering of 2,980,000 Class A shares and 2,980,000 Preferred shares for net proceeds of \$58.5 million (gross proceeds of \$61.1 million).

On September 28, 2017, the Company completed a secondary offering of 3,897,000 Class A shares and 3,897,000 Preferred shares for net proceeds of \$75.8 million (gross proceeds of \$79.1 million).

On November 15, 2017, the Company completed a secondary offering of 5,361,000 Class A shares and 5,361,000 Preferred shares for net proceeds of \$104.8 million (gross proceeds of \$109.4 million).

Each issuance of shares was accretive to existing shareholders.

Net assets of the Company finished the year at \$610.1 million.

The portfolio was weighted 54.6% in Canadian financial services stocks versus 45.4% in U.S. financial services stocks as at November 30, 2017.

The covered call writing program continued to provide additional income and supplemented the dividend income earned in the portfolio.

Class A shares – Distributions

Class A shareholders are entitled to receive regular monthly cash dividends currently targeted to be \$0.1257 per Class A Share. Total distributions per Class A share during the year amounted to \$1.5084.

 17.26

Cumulative total of distributions paid to Class A share since inception

 0.50

Special distributions paid since inception

Preferred shares – Distributions

Preferred shareholders are entitled to cumulative preferential monthly cash dividends, the amount of which will be fixed by the Board of Directors on an annual basis, subject to a prescribed minimum of 5.25% for the five year period commencing December 1, 2015. Distributions during the year were at the fixed rate of 5.25% for a total of \$0.525 per Preferred share. Monthly dividends for the fiscal period commencing December 1, 2017 have been set at \$0.04583 per Preferred Share per month for an annual yield of 5.50% on the Preferred share repayment amount.

 7.37

Cumulative total of distributions paid to Preferred share since inception

RECENT DEVELOPMENTS

Monthly dividends for the fiscal period commencing December 1, 2017 have been set at \$0.04583 per Preferred share per month for an annual yield of 5.50% on the Preferred share repayment amount.

- (1) Net assets per unit is the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares, at the valuation date, divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the year.
- (3) Distributions on the Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution in the year and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.
- (4) Per unit figures presented for 2014 and onwards are derived from the Company's audited annual financial statements which were prepared in accordance with International Financial Reporting Standards ("IFRS"). Per unit figures presented for years prior to 2014 were derived from the Company's audited annual financial statements which were prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP") as defined in Part V of the CPA Handbook.

(1) This information is provided as at November 30.

(2) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding any one time offering expenses. Management expense ratio is based on total expenses for the stated year and is expressed as an annualized percentage of average net asset value during the year.

(3) Share issue expenses, representing all Agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering. Any expenses incurred with secondary offerings were offset by the accretion to net asset value per unit of such offerings.

(4) Management expense ratio for Class A shares is based on the requirements of NI 81-106. This instrument requires that all split share companies produce an expense ratio which allocates all operating expenses of the Fund, all distributions on Preferred shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of net assets applicable only to the Class A shares during the year. The management expense ratio per Class A share should not be interpreted as the required return necessary for the Company or the Class A shares to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in net asset value per unit.

(5) The Company's portfolio turnover rate indicates how actively Quadvest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the year. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a year, the greater the trading costs payable by the Company in the year and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Company.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net asset value during the year.

MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadrainvest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the net asset value of the Company, which include the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadrainvest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the management agreement, Quadrainvest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the net asset value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

The base management fee was used by Quadrainvest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

PAST PERFORMANCE

Year-by-Year Returns

The past performance of 1) the net asset value per unit; 2) the Preferred share on a net asset value basis; and 3) the Class A share on a net asset value basis for each of the last 10 years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- Past performance of the Company does not necessarily indicate how it will perform in the future.

(1) The return per Class A share for the year ended November 30, 2008 reflects the consolidation of Class A shares on September 12, 2008.

ANNUAL COMPOUND PERFORMANCE

The following table shows the Company's annual compound return for the one, three, five and ten years ended November 30, 2017 and since inception:

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The financial statements of Financial 15 Split Corp. (the "Company") and all the information in this annual report are the responsibility of management and have been approved by the Board of Directors of the Company.

The Company maintains appropriate procedures to ensure that relevant and reliable financial information is produced. Statements have been prepared in accordance with International Financial Reporting Standards. The significant accounting policies applicable to the Company are described in note 3 to the financial statements.

The Board of Directors of the Company is responsible for ensuring that management fulfills its responsibilities for financial reporting and has reviewed and approved these financial statements.

The Company with the approval of its Board of Directors has appointed the external firm PricewaterhouseCoopers LLP as the auditor of the Company. They have audited the financial statements of the Company in accordance with Canadian generally accepted auditing standards to enable them to express to shareholders their opinion on the financial statements. The auditor has full and unrestricted access to the Audit Committee to discuss its findings.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Financial 15 Split Corp. (the "Company")

We have audited the accompanying financial statements of the Company, which comprise the statements of financial position as at November 30, 2017 and November 30, 2016 and the statements of comprehensive income/(loss), changes in net assets attributable to holders of redeemable Class A Shares and cash flow for the years ended November 30, 2017 and November 30, 2016 and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at November 30, 2017 and November 30, 2016 and its financial performance and its cash flow for the years ended November 30, 2017 and November 30, 2016 in accordance with International Financial Reporting Standards.

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2017 AND 2016

1. Incorporation

Financial 15 Split Corp. (the “Company”) is a mutual fund corporation established under the laws of the Province of Ontario on September 26, 2003 that began investment operations on November 14, 2003. The manager and the investment manager of the Company is Quadravest Capital Management Inc. (“Quadravest” or “Manager”). The termination date of the Company is December 1, 2020 and may be extended thereafter at the Company’s discretion for additional terms of five years each. Shareholders would be provided with a special retraction right in connection with any such extension. The Company’s principal office is located at 200 Front Street West, Suite 2510, Toronto, Ontario M5V 3K2. The Company invests in an actively managed portfolio of common shares comprised primarily of 15 core large capitalization Canadian and U.S. financial services companies. The Company employs an active covered call writing program to enhance the income earned from the portfolio.

2. Basis of presentation

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as published by the International Accounting Standards Board (“IASB”). These financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss (“FVTPL”).

These financial statements were authorized for issue by Quadravest on February 26, 2018.

3. Summary of significant accounting policies

The following is a summary of the significant accounting policies followed by the Company.

Investments and financial instruments

The Company recognizes financial instruments at fair value upon initial recognition.

The Company’s investments are designated at fair value through profit and loss (“FVTPL”) and derivatives (including options) are held for trading and also carried at FVTPL.

The Company recognizes regular purchases and sales of financial instruments on the trade date, which is the date on which it commits to purchase or sell the instrument. Transaction costs, such as brokerage commissions, related to financial assets classified or designated as at FVTPL are expensed as incurred and transaction costs related to financial instruments not at FVTPL are included in the carrying amounts thereof. A financial asset is derecognized when the rights to receive cash flows from the investment have expired or have been transferred and when the Company has transferred substantially all the risks and rewards of ownership of the asset. Dividends are recognized as income on the ex-dividend date. Realized gains and losses and unrealized appreciation and depreciation are determined on an average cost basis. The cost of investments is determined using the average cost method.

Written option premiums received by the Company are, so long as the options are outstanding, reflected as a liability, in the Statements of Financial Position and are valued at an amount equal to the current market value of an option that would have the effect of closing the position. Gains or losses realized upon expiration or exercise of the option are included in net realized gain (loss) on investments and derivatives in the Statements of Comprehensive Income/(Loss).

The Preferred shares rank prior to the Class A and Class B shares and are thus not subordinate

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2017 AND 2016

to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost. Amortization of premiums or discounts on the issuance of Preferred shares is included in gain (loss) on remeasurement of Preferred shares in the Statements of Comprehensive Income/(Loss).

The Class B shares are subordinate to the Preferred shares but rank prior to the Class A shares and are thus not subordinate to all other classes of puttable instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost.

The Class A shares may be retracted monthly, annually, or on the termination date of the Company. As a result, the shares contain multiple contractual obligations, and therefore, have been presented as financial liabilities at the annual redemption amount.

Financial assets and liabilities other than investments, derivatives, and Class A shares are recognized initially at the amount expected to be received or paid less, when material, a discount to reduce them to fair value. Subsequently, they are measured at amortized cost using the effective interest rate method less a provision for impairment, if any. Due to their short-term nature, the fair values of these financial assets and liabilities approximate their carrying amounts.

The net asset value of the Company is determined in accordance with requirements of law, including National Instrument 81-106, Investment Fund Continuous Disclosure, and is used to process shareholder transactions. For financial reporting purposes, net assets of the Company is determined as the difference between the aggregate amount of the Company's assets and the aggregate amount of its liabilities, excluding Preferred shares and net assets attributable to holders of redeemable Class A shares ("Net Assets of the Company").

Valuation of investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded shares and options) are based on the last traded prices at the close of trading on the reporting date. The Company uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. The Company's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and others commonly used by market participants and which make the maximum use of observable inputs. Refer to note 5 for further information about the Company's fair value measurements.

Cash

Cash consists of cash on hand.

Translation of foreign currencies

The Company's functional and presentation currency is Canadian dollars. The fair value of investments and other assets and liabilities in foreign currencies are translated into the Company's functional currency at the rates of exchange prevailing at each measurement date. Purchases and sales of investments, income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

Management fees, administration fees and performance fees

Management fees and administration fees are accrued by the Company over time, as services are rendered by QuadraVest. At each measurement date, the Company recognizes an expense and financial liability based on the amount, if any, of performance fees expected to be paid based on the net asset value of the Company. Refer to note 7 for further information about the calculation of management, administration fees and performance fees, if any, of the Company.

Increase (decrease) in Net Assets Attributable to Holders per Redeemable Class A share

Increase (decrease) in net assets attributable to holders per redeemable Class A share is based on the increase or decrease in net assets attributable to holders of redeemable Class A shares divided by the weighted average number of such shares outstanding during the year. Refer to note 8 for the calculation.

Taxation

The Company qualifies as a mutual fund corporation under the Income Tax Act (Canada) (the "Tax Act") and it is subject to income tax in each taxation year on the amount of its net income for the taxation year, including net realized taxable capital gains, if any, at the rate applicable to mutual fund corporations. The general income tax rules associated with a public corporation also apply to a mutual fund corporation with the exception that taxes payable on net realized capital gains are refundable on a formula basis when its shares are redeemed or when it pays capital gains dividends out of its capital gains dividend account to its shareholders.

Interest and foreign income are taxed at normal corporate rates applicable to mutual fund corporations and can be reduced by permitted deductions for tax purposes.

All of the Company's expenses including management fees, administration fees and operating expenses will be taken into account in determining its overall tax liability.

As a mutual fund corporation, taxable dividends received from taxable Canadian corporations are subject to a Part IV tax of 38 1/3% (33 1/3% for dividends received on or before December 31, 2015). Such taxes are fully refundable upon payment of taxable dividends to its shareholders on a basis of \$1.15 for every \$3 of dividends paid (\$1 for every \$3 of dividends paid on or before December 31, 2015). Any such tax paid is reported as an amount receivable until recovered through the payment to shareholders of dividends out of net investment income. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Company qualifies as a mutual fund corporation. As a result of the capital gains refund mechanism and Part IV tax refunds, the Company recovers any Canadian income taxes paid in respect of its capital gains and taxable Canadian dividends. As a result, the Company has determined that it is in substance not taxable. Consequently, the tax benefit of capital and non-capital losses and other temporary

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2017 AND 2016

differences have not been reflected in the Statements of Financial Position as deferred income tax assets or liabilities.

The Company has estimated accumulated non capital losses for tax purposes of \$14,444,495 (November 30, 2016-\$10,735,378) that are available to lower taxable income in future years if required and expire after the scheduled termination date of the Company on December 1, 2020.

The Company currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statements of Comprehensive Income/(Loss).

4. Critical Accounting Estimates and Judgments

The preparation of these financial statements include estimates and assumptions by management based on past experiences, present conditions and expectations of future events. Where estimates were made, the reported amounts for assets, liabilities, income and expenses may differ from the amounts that would otherwise be reflected if the ultimate outcome of all uncertainties and future events were known at the time these financial statements were prepared. The Company's most significant estimates involve the measurement of investments and derivatives at fair value as described in note 5. The following discusses the most significant accounting judgments that the Company has made in preparing the financial statements:

Classification and measurement of investments and application of the fair value option

In classifying and measuring financial instruments held by the Company, the Manager is required to make significant judgments about whether or not the business of the Company is to invest on a total return basis for the purpose of applying the fair value option for financial assets under IAS 39, Financial Instruments - Recognition and Measurement (IAS 39). The most significant judgments made include the determination that certain financial instruments are held-for-trading, and that the fair value option can be applied to investments in financial assets which are not.

5. Management of Risk of Financial Instruments

The Company classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three levels of the fair value hierarchy are:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can assess at the measurement date;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs that are unobservable for the asset or liability.

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at November 30, 2017 and November 30, 2016:

Financial assets and liabilities at fair value as at November 30, 2017

	Level 1	Level 2	Level 3	Total

	\$313,270,081	-	-	\$313,270,081

All fair value measurements above are recurring and fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. There were no transfers or reclassifications between levels for the years ended November 30, 2017 and 2016. The Company's net gain (loss) on financial instruments that are held for trading and those designated at FVTPL are as follows:*

	2017	2016
Realized gain (loss) on derivatives held for trading	\$1,563,428	\$922,603
Realized gain (loss) on investments designated at FVTPL	\$14,115,685	\$5,407,324
Net change in unrealized appreciation (depreciation) on investments	\$36,512,350	\$28,496,951
Net change in unrealized appreciation (depreciation) on derivatives	\$34,398	(\$895,858)
Dividends	\$11,719,113	\$9,825,284
Interest on Cash	<u>\$20,260</u>	<u>-</u>
	\$63,965,234	\$43,756,304

* The Company employs an active and integrated strategy of writing call options on the underlying equity holdings in the portfolio. The requirement to measure and attribute gains separately to either derivatives or the underlying equities may not reflect the relative contributions and benefits from implementing this strategy. As an example, written call options that are subsequently repurchased and/or rolled as part of the active covered call writing program would have had the effect of lowering reported gains from derivatives (which would have otherwise occurred had the written call option been exercised or expired), while achieving other gains to the portfolio that would have been measured and attributed to the underlying equity holdings.

The Company's investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

Market Price Risk

All securities investments present a risk of loss of capital. The 15 core holdings were selected because of their long term history of above average market price appreciation and dividend growth. The portfolio companies were selected from the financial services indices of the S&P/TSX 60 index and S&P 100 index and are among the largest financial services companies in North America.

The market price risk is affected by three main components: price risk, interest rate risk and foreign currency movements.

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2017 AND 2016

Price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk).

The Manager manages market price risk by limiting investment in any one portfolio company to no more than 10% of the net asset value of the Company at the time of purchase. In addition, the supplemental covered call writing program generates an additional stream of income to the portfolio which may also help mitigate against market price declines during years in which a particular portfolio company has a covered call option written against that position.

The Company is exposed to other price risk from its investment in equity securities and written options. As at November 30, 2017, had the prices on the respective stock exchanges for these equity securities increased by 10%, with all other variables held constant, Net Assets of the Company would have increased by \$50,817,078 (November 30, 2016– \$31,327,008). Similarly, had the prices on the respective stock exchanges for these equity securities decreased by 10%, with all other variables held constant, Net Assets of the Company would have decreased by \$54,167,078 (November 30, 2016–\$31,327,008).

Interest rate risk

Interest rate risk is the risk that the fair value of interest bearing investments will fluctuate due to changes in market interest rates. The majority of the Company's financial assets and liabilities are non interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates and considers interest rate risk insignificant (consistent with previous year).

Currency risk

Currency risk is the risk that financial instruments that are denominated in a currency other than the Canadian dollar, which is the Company's reporting currency, will fluctuate due to changes in exchange rates. Five of the 15 core financial services and one additional portfolio company are U.S. financial services companies that are listed on the New York Stock Exchange and trade in U.S. dollars. As at November 30, 2017, 41.5% (November 30, 2016-41.4%) of the Net Assets of the Company are invested in U.S. dollar denominated assets which includes U.S. dollar cash. As a result, the Net Assets of the Company will be affected by changes in the U.S. dollar relative to the Canadian dollar which is the functional currency of the Company. The Company has not entered into currency hedging contracts. As a result, if the Canadian dollar appreciated/depreciated by 5% against the U.S. dollar, the Net Assets of the Company would currently decrease/increase by approximately \$12,645,100 (November 30, 2016-\$6,757,800).

Other risks

Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment (consistent with previous year). Payment is made on purchase once the securities have been received by the broker. Credit risk of cash is considered low as it is held at a AA-rated Canadian bank (consistent with prior year).

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED NOVEMBER 30, 2017 AND 2016

Liquidity risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company is exposed to liquidity risk primarily through its monthly and annual retractions of Class A shares and Preferred shares. The Company receives adequate notice for all retraction requests. The Company's Portfolio is invested in highly liquid large capitalization investments that trade on the Toronto Stock Exchange ("TSX") and New York Stock Exchange (consistent with previous year). All Class A shares and Preferred shares outstanding are redeemable on a monthly and annual basis but are scheduled to be redeemed upon termination of the Company. All other financial liabilities are payable within three months from the end of the year.

Concentration risk

The Company's portfolio is concentrated in the financial services sector and as such will be exposed to the specific factors that affect this sector (consistent with previous year). An individual portfolio holding may represent no more than 10% of the net asset value of the Company at the time of purchase.

The Company's investment portfolio is concentrated in the following segments as at:

	November 30, 2017	November 30, 2016
Canadian Core Common Equities	48.5%	55.4%
Other Canadian Common Equities	1.0%	1.2%

- ii) to provide holders of Class A shares with regular monthly cash distributions in an amount to be determined by the Board of Directors and to permit holders to participate in all growth in the net asset value of the Company above \$10 per unit, by paying holders such amounts as remain in the Company after paying \$10 per Preferred share on or about the termination date.

In order to manage its capital structure, the Company may adjust the amount of dividends paid to shareholders or return capital to shareholders.

11. Accounting Standards, Interpretations and Amendments to Existing Standards Not Yet Effective

The final version of IFRS 9, Financial instruments, was issued by the IASB in July 2014 and will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 introduces a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognised in profit or loss. IFRS 9 is effective for annual years beginning on or after January 1, 2018, however it is available for early adoption. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Company is in the process of assessing the impact of IFRS 9.

12. Reconciliation of net asset value per Class A share to net assets attributable to holders per redeemable Class A share

As at November 30, 2017 and November 30, 2016, there were no differences between net asset value per Class A share used for transactional purposes and assets attributable to holders per redeemable Class A share for financial reporting purposes.
