

# Garage Grade vs Storage Grade Cabinets

## Here are the differences

	Garage Grade	Storage Grade
BACKS	Full 1/4" interlocking	No backs
TOPS	1-inch thick	3/4-inch thick
BOTTOMS	1-inch thick	3/4-inch thick
SHELVES	1-inch thick*	3/4-inch thick
SHELF CAPACITY	100-pounds	50-pounds
EXTRA SUPPORT	Not-required in most cases	Always required legs on any cabinet over 14" deep
MOUNTING	Directly to studs via nailers	Hang from suspension rail
SHARED SIDE PANELS	No - all cabinets had their own sides	Yes - most adjacent cabinets share side panels
DOOR OVERLAY	FULL - for a more custom look	HALF - for a less custom look
FASTENERS	Steel hardware and wood dowels	Furniture cams
CONNECTIONS	Screwed and glued	Cam pin
FINISHED END PANELS	All exposed ends have finished panels applied for an extremely polished look	No finished end panels
WIDTH & DEPTH LIMITATIONS	UP to 48" wide and 36" deep	Up to 36" wide and 24" deep

\*Short shelves and show shelves are done in 3/4" thickness

### Garage Grade

finished end panels

full overlay doors

### Storage Grade

3/4" bottoms/tops

half overlay doors

cam fasteners
