May 23, 2017

Dear Alanna,

My name is Laura and I am an Occupational Therapist and Remy Bernier's case manager with home care. Remy was in touch with me last week to let me know about the eviction notice he had received regarding a superpole that was installed in his unit's bedroom without permission. I was by to see Remy on Friday, May 19, 2017. I reviewed the superpole along with the instruction manual and can confirm that it is a spring-loaded device that is not secured to the ceiling by screws or any other means.

I hope that this letter can prevent Remy from being evicted, if he was indeed being evicted for securing something to the ceiling of his unit without permission. Please let me know if you have any other questions or have any other concerns related to Remy's tenancy at the Mustard Seed Tower that home care may be able to assist in addressing.

Yours truly,

Laura Dwyer, MScOT
Occupational Therapist Case Manager,
Adults Team, Integrated Home Care
