

As I was leaving your surgery after my recent treatment, I realised that although (I hope) I've said thank you, I've never thought of putting pen to paper - something I find more meaningful. So I'm remedying that and writing this to thank you for the many years of excellent care you have given me and my teeth. You make visiting the dentist almost (there's no escaping the drill at times!) a pleasure.

Best wishes  
Elizabeth
