

# ALIAS L.S.W.

## IN-OFFICE Course

Dr. Giuseppe Scuzzo

Dr. Giacomo Scuzzo

Roma, ITALY

### WHO IS THE COURSE FOR

The course is directed a selected group of orthodontists, only 6 participants, who want to know and learn not only the principle basics of Lingual Orthodontics but also to study the problems and the solutions of this technique. It is designed for orthodontists who wish to start treating patients by Lingual Straight Wire appliances as well as those with experience who wish to further develop their skills using LSW the most up to date operative clinical and laboratory methods.

ALIAS - LSW orthodontists are members of a select group who have undergone additional training to provide the best patient care available for giving the perfect smile to your patients.

You will get a diploma as **ALIAS - LSW certified specialist**

### WHAT YOU WILL LEARN

Everyone taking part can acquire theory knowledge and operative methods for bonding, re-bonding and malocclusion treatment sequences.

You can also learn the systematic for extractive and non-extractive treatment by using ALIAS – LSW, solving clinical problems as distalisation, management of partial and/or absolute anchorage, anterior “En-masse” retraction and cosmetic treatment.

A special session is dedicated to Digital Set-up procedure and how to submit a case by using ELINE system - Web Portal. The participants will learn the systematic which can be applied immediately to their clinical activity.

The presentation and discussion of numerous clinical cases with different orthodontic problems will furnish the participants the know-how of management and application.

---

# TOPICS TO TALK ABOUT

- **Lingual Straight Wire (LSW) overview:**
  - Biomechanical advantages and comparison to traditional multibending techniques
  
- **ALIAS bracket and STb bracket:**
  - Rotation, tipping and torque control
  - Square Vs Rectangular slot
  
- **Indirect bonding Protocol:**
  - Bonding and build-up construction
  - Re-bonding procedure: IDB and Individual transfer JIGS
  - Prevention of side effects: patient comfort and guidelines
  
- **Implementing Clinical Protocol EXT and No EXT Cases:**
  - Wire Sequence
  - Vertical&Transversal bowing effect: how to prevent
  - Anchorage management: how to use vertical & horizontal TADS
  - Pontics: when and how to use them
  - IPR
  - Distalization
  - Vertical and Horizontal Elastics + customized buttons
  
- **How to start using ALIAS LSW system:**
  - Eline System Digital Workflow
  - WebPortal and Doctor Registration
  - 3D online Viewer/Approver
  - Eline System Package Content
  - Re-Bracketing Service
  
- **Presentation and discussion of cases:**
  - Class I – II - III
  - Crossbite – Openbite - Deepbite
  - Surgical Cases
  - Cosmetic treatments "Social 6"
  
- **Hands-on training by ALIAS Typodont**
  
- **LIVE patients in-office**

---
