DUMFRIES, VA

OCTOBER 2016

In September 2016, C3R was awarded a contract with the United States Nuclear Regulatory Commission (NRC) supporting the labor, supervision, management, licenses, permits, and materials requirement which, provides the installation of the CCVS equipment and video management application for the agency. C3R has forged a partnership with SigNet Technologies, Inc. www.signetinc.com. SigNet is a Maryland based, corporation that specializes in the planning, designing, engineering, research and development, integration, installation, testing, support, and maintenance of Integrated Security Systems (ISS), Electronic Security Systems (ESS), and Security Management Systems (SMS). C3R believes that teaming with other companies is an important element to providing the highest quality services to our clients.

Our partnership is very successful in managing the security systems' installations and maintenance, designing innovative security systems, integrating multi-faceted solutions, providing network solutions, and operating service and help desks. These collective competencies made our Team an excellent selection for the contract award with NRC. The strength of Team C3R is that, we are a Security System Integrator that provides IT services but specializes in Physical and Operational Security. Together, Team C3R will continue to design, install, integrate, and manage innovate solutions for security networking systems in order to provide outstanding service to our next clients.
