My Own Reflection

I like English classes.

What activity did I **enjoy** the most in my English class?

What activity did I **dislike** to do in my English class?

What activity was **difficult** to do in my English class?

What activity was **easy** to do in my English class?

How did I participate in my English class?

Did I speak in English as much as possible?

Did I make efforts during English classes?

What did I learn in my English class?

What is my goal for the next step?
