# *Canadian Surgery FORUM canadien de chirurgie 2011*

*September 15-18 — du 15 au 18 septembre*

*London Convention Centre/Hilton London Hotel*

## **Major Participating Societies**

Canadian Association of General Surgeons (CAGS)  
Canadian Society of Colon and Rectal Surgeons (CSCRS)  
Canadian Association of Thoracic Surgeons (CATS)  
Canadian Society of Surgical Oncology (CSSO)

## **Other Participating Societies**

American College of Surgeons (ACS)  
Canadian Association of Bariatric Physicians and Surgeons (CABPS)  
Canadian Association of University Surgeons (CAUS)  
Canadian Hepato-Pancreato-Biliary Society (CHPBS)  
Canadian Undergraduate Surgical Education Committee (CUSEC)  
James IV Association of Surgeons (James IV)  
Ontario Association of General Surgeons (OAGS)  
Southwestern Ontario Surgical Association (SWOSA)  
Trauma Association of Canada (TAC)

## **Target Audience**

The Canadian Surgery Forum is intended for community and academic surgeons, residents in training, researchers, surgical and operating room nurses, surgical Fellows and medical students.

## **Objectives**

The 2011 Canadian Surgery Forum will bring together participating surgical societies, providing accredited continuing professional development, and the opportunity for dialogue on educational and research issues. Scientific and educational sessions will be offered through interactive symposia, panel discussions, postgraduate courses, and a self-assessment examination. Business meetings will deal with individual society matters and issues of concern to the practising Canadian surgeon.

Registrants will have the opportunity to (depending on sessions attended):

- Review factors to assess and manage patients at high-risk for breast cancer;
- Understand the current management of multiple or mass casualty situations;
- Learn a practical approach to the treatment of diverticular disease, Crohn's disease, ulcerative colitis and other colitides;
- Hear about a broad range of procedures commonly encountered by the gastrointestinal surgeon interested in laparoscopy and endoscopy;
- Debate current issues of importance to Canadian general surgeons;
- Understand the indications for ultrasound in the thoracic surgery patient;
- Learn the state-of-the-art innovative techniques and technologies that require novel skills for safe application in clinical practice;
- Assess if competency-based training is a future model for general surgery residency;
- Appraise key findings of collaborative and translational clinical research in low income countries;
- Explain the controversies in pancreas and bile duct surgery;
- Learn about a primer for the general surgeon and an ignitor for the bariatric specialist;
- Identify complicated care issues in the management of cancer patients;
- Discuss thoracoscopic lobectomy and the management of locally advanced lung cancer;
- Understand complex and unusual hernias;
- Evaluate recent updates on trauma surgery;
- Express what surgeons should know about anorectal disease by putting new options into perspective;
- Hear about unemployment/underemployment in surgery;
- Be familiar with the current management of pancreatic cancer;
- Participate in a "Breakfast with the Professor" session;
- Take part in "Surgical Jeopardy";
- Directly interact with and question researchers at the poster and paper presentations;
- See and listen to the distinguished list of invited lecturers and visiting speakers: Mohit Bhandari, John L. Cameron, Paul Charlebois, Myles Clough, Deborah J. Cook, Thomas A. D'Amico, Malcolm G. Dunlop, Gerald M. Fried, Kenji Inaba, William J. Kraemer, David R. McCready, Patricia L. Roberts, Steven D. Schwaitzberg, Vadim Sherman, Naveed Siddiqui, Thadeus L. Trus and Garth L. Warnock.

There will also be multiple other dedicated time slots covering colorectal surgery, thoracic surgery, hepatobiliary surgery and surgical oncology.

**Continued on page 3**

**Continued from page 2**

### ***Abstracts***

For free communications (paper and poster) sessions, abstract numbers appear to the left of the titles of the various papers and posters being presented. These numbers refer to the number of the abstract that appears in *The Canadian Journal of Surgery*, Volume 54, Supplement, August 2011. Copies are available at registration.

### ***Audio Recorded Sessions***

Sessions audio recorded are identified in the Final Program. A Canadian Surgery Forum Live Learning Centre (<http://www.softconference.com/csf>) will provide online access to audio recorded sessions streamed with synchronized PowerPoint presentations.

### ***Continuing Professional Development***

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, approved by the Canadian Association of General Surgeons.

### ***CSF Presidents' Gala***

At the 2011 *Presidents' Gala* we turn the clocks back nearly a century to relive the elegance of the roaring 20's for a stylish evening that is sure to be the most talked about CSF event for years to come. At 1900 on Saturday, September 17, guests will be welcomed to the grandeur of the Mansion nightclub in downtown London where they will enjoy a chic reception with cocktails and fine food in a grand environment transformed through music and live entertainment into the days of the *Cotton Club* or *Boardwalk Empire*.

Join the Presidents of the CSF participating societies, special guest lecturers and colleagues at this event rebirth to celebrate the closing night of the 2011 conference. A limited number of tickets may still be available for purchase; please inquire at Registration, London Convention Centre.

Dress: Business/casual attire

### ***Disclosure***

Before their presentation, all speakers will disclose the existence of any financial interest or other relationships they might have with the manufacturer or any commercial product to be discussed during their presentation (honoraria/expenses, grants, consultant role, speaker's bureau relationship, stock ownership, or any other special relationships).

### ***Social and Tour Program***

Drop by the Registration area, London Convention Centre for information on the CSF 2011 Social Program, local attractions, tours, restaurants, shopping and other activities in and around London. The Hospitality Desk will be staffed Thursday to Saturday from 0930-1400.

### ***Speaker Ready Room***

The speaker ready room is located in the Executive Boardroom, Main Level, London Convention Centre.

---

## ***Visit the Exhibits!***

*Kick off your Canadian Surgery Forum experience in the Exhibit Hall on Thursday evening at the Welcoming Reception beginning at 1800. Visit the exhibits again on Friday and Saturday to see what's new and enjoy complimentary refreshments and lunch. Show your support of these important Canadian Surgery Forum sponsors and enter to win prizes! The Exhibit Hall is located in Ballroom 1/2/7/8 at the London Convention Centre.*

---

## ***Posters***

*They can be viewed in Ballroom 3/6 on Friday and Saturday.*

---

# Canadian Surgery FORUM canadien de chirurgie 2011

September 15-18 — du 15 au 18 septembre

London Convention Centre/Hilton London Hotel

## Principales sociétés participantes

Association canadienne des chirurgiens généraux (ACCG)  
Société canadienne des chirurgiens du côlon et du rectum (SCCCR)  
Association canadienne des chirurgiens thoraciques (ACCT)  
Société canadienne d'oncologie chirurgicale (SCOC)

## Autres sociétés participantes

American College of Surgeons (ACS)  
Association canadienne des médecins et chirurgiens spécialistes de l'obésité (ACMCSO)  
Canadian Association of University Surgeons (CAUS)  
Canadian Hepato-Pancreato-Biliary Society (CHPBS)  
Canadian Undergraduate Surgical Education Committee (CUSEC)  
James IV Association of Surgeons (James IV)  
Ontario Association of General Surgeons (OAGS)  
Southwestern Ontario Surgical Association (SWOSA)  
Association canadienne de traumatologie (ACT)

## Auditoire cible

Le Forum canadien de chirurgie s'adresse aux chirurgiens des milieux communautaires et universitaires, aux résidents en chirurgie, aux chercheurs, aux infirmiers à l'unité de chirurgie ou à la salle d'opération, aux Associés de chirurgie et aux étudiants en médecine.

## Objectifs

Tribune qui rassemble les sociétés de chirurgie participantes, le Forum canadien de chirurgie 2011 propose des sessions de développement professionnel continu agréées et l'occasion d'échanger des idées sur des sujets ayant trait à l'éducation et à la recherche. Les sessions scientifiques et éducatives prendront la forme de symposiums, de débats d'experts, de cours postdoctoraux marqués au coin de l'interactivité, et d'un examen d'auto-évaluation. Les questions particulières des sociétés participantes et les sujets d'intérêt pour le chirurgien canadien en pratique active seront abordés pendant les réunions administratives.

En fonction des sessions auxquelles elles assistent, les personnes inscrites auront la possibilité de :

- Réexaminer les facteurs relatifs à l'évaluation et au traitement des patientes à risque élevé de cancer du sein.
- Comprendre les mesures actuelles de gestion de situations où il y a un grand nombre de blessés.
- Apprendre une approche pratique au traitement des maladies diverticulaires, de la maladie de Crohn, de la colite ulcéreuse et d'autres colites.
- S'informer au sujet d'un vaste éventail d'interventions que pratique couramment le chirurgien gastroentérologue ayant un intérêt pour la laparoscopie et l'endoscopie.
- Participer à des débats sur des sujets d'importance pour les chirurgiens généraux canadiens.
- Comprendre à quels moments l'échographie est indiquée pour les patients en chirurgie thoracique.
- Faire l'apprentissage de techniques et technologies novatrices de fine pointe dont l'application sécuritaire à la pratique clinique exige des aptitudes nouvelles.
- Évaluer si la formation fondée sur les compétences constitue le modèle de l'avenir pour la résidence en chirurgie générale.
- Évaluer les principaux résultats de recherches cliniques collaboratives et translationnelles dans des pays à faibles revenus.
- Expliquer les controverses dans la chirurgie du pancréas et du canal cholédoque.
- S'informer d'un point de départ pour le chirurgien général et une incitation pour la médecine bariatrique.
- Relever des enjeux complexes relatifs aux soins dans le traitement de patients atteints d'un cancer.
- Discuter au sujet de la lobectomie thoracoscopique et la prise en charge du cancer du poumon localement avancé.
- Acquérir une compréhension des hernies complexes et inhabituelles.
- Évaluer les récentes avancées en chirurgie traumatologique.
- Exprimer ce que les chirurgiens devraient savoir sur les maladies anorectales en mettant de nouvelles options en perspective.
- Entendre parler du chômage et du sous-emploi en chirurgie.
- Se renseigner sur les pratiques actuelles en traitement du cancer du pancréas.
- Participer au « petit-déjeuner avec le professeur ».
- Participer au « péril chirurgical » (*Surgical Jeopardy*).
- Poser des questions aux chercheurs après leur exposé ou à la séance de communications affichées.
- Assister à la conférence des éminents conférenciers invités, dont : Mohit Bhandari, John L. Cameron, Paul Charlebois, Myles Clough, Deborah J. Cook, Thomas A. D'Amico, Malcolm G. Dunlop, Gerald M. Fried, Kenji Inaba, William J. Kraemer, David R. McCready, Patricia L. Roberts, Steven D. Schwaitzberg, Vadim Sherman, Naveed Siddiqui, Thadeus L. Trus et Garth L. Warnock.

Continued on page 5

## **Continued from page 4**

Plusieurs sessions sont également prévues dans les domaines de la chirurgie colorectale, de la chirurgie thoracique, de la chirurgie hépatobiliaire, et de la chirurgie oncologique.

## **Développement professionnel continu**

Cet événement, approuvé par l'Association canadienne des chirurgiens généraux, est une activité de formation collective agréée au titre de la section 1 conformément aux critères du programme de Maintien du certificat du Collège royal des médecins et chirurgiens du Canada.

## **Divulgaration**

Avant de commencer leur présentation, les conférenciers divulgueront l'existence de tout intérêt financier ou de tout autre rapport avec le manufacturier de tout produit commercial qui fera l'objet de la présentation (honoraires, dépenses, bourses, rôle d'expert-conseil, bureau des conférenciers, actionnaire ou tout autre genre de relation).

## **Enregistrement sonore**

Le programme final indique les sessions qui feront l'objet d'un enregistrement sonore. Le centre d'apprentissage en ligne (<http://www.softconference.com/csf>) du Forum canadien de chirurgie diffusera les enregistrements sonores synchronisés avec leur présentation PowerPoint respective.

## **Gala des présidents du FCC**

Au Gala des présidents de 2011, nous remontons le temps d'environ un siècle pour revivre l'élégance des folles années 20 au cours d'une soirée « grand style » qui deviendra certainement une activité du FCC dont on parlera des années durant. Le samedi 17 septembre, à 1900, les participants seront introduits dans la splendeur de la boîte de nuit Mansion du centre de London pour une réception chic où ils savoureront cocktails et mets fins dans une atmosphère que la musique et les artistes invités ramèneront à l'époque grandiose du *Cotton Club* ou du *Boardwalk Empire*.

Venez vous joindre aux présidents des sociétés partenaires du FCC, aux conférenciers invités et à vos collègues pour célébrer la clôture de la conférence de 2011. Pour savoir s'il reste des billets, informez-vous au comptoir d'inscription situé dans le *London Convention Centre*.

Tenue vestimentaire : d'affaires ou de ville

## **Programme des activités sociales**

Rendez-vous à l'aire d'inscription au *London Convention Centre* pour obtenir de l'information sur le programme social 2011 du FCC, attractions, les excursions, les restaurants, le magasinage et d'autres activités à London et dans les environs. Le kiosque hospitalité sera ouvert du jeudi au samedi de 0930 à 1400.

## **Résumés**

Pour les communications libres (communications ou séances d'affichage), les numéros des résumés apparaissent à gauche de tous les documents soumis. Ces numéros correspondent à ceux publiés dans *Le Journal canadien de chirurgie*, Tome 54, supplément, août 2011. Des exemplaires des résumés sont à votre disposition à l'inscription.

## **Salle de préparation pour conférenciers**

La salle de préparation est située dans la *Executive Boardroom* au rez-de-chaussée du *London Convention Centre*.

---

## ***Les exposants vous attendent !***

*Donnez le coup d'envoi à votre Forum canadien de chirurgie en parcourant le salon des exposants le jeudi en soirée à la réception d'accueil à compter de 1800. Vendredi et samedi, venez déambuler au salon des exposants pour découvrir des nouveautés et profiter des rafraîchissements et du déjeuner qui vous seront offerts ! Manifestez votre appui à l'égard de ces commanditaires importants du Forum canadien de chirurgie et courez la chance de gagner des prix. Le salon des exposants est situé dans la salle de bal 1/2/7/8 au London Convention Centre.*

---

## ***Communications par affiches***

*Les communications par affiches seront affichées dans la salle de bal 3/6 le vendredi et le samedi.*

---

## *2011 Canadian Surgery Forum Steering Committee*

**Susan Reid, Hamilton** – President, Canadian Association of General Surgeons / Chair, Canadian Surgery Forum Steering Committee

**Donna E. Maziak, Ottawa** – President, Canadian Association of Thoracic Surgeons

**W. Donald Buie, Calgary** – President, Canadian Society of Colon and Rectal Surgeons / Secretary, Canadian Association of General Surgeons

**Carman A. Giacomantonio, Halifax** – President, Canadian Society of Surgical Oncology

**Sean P. Cleary, Toronto** – President, Canadian Hepato-Pancreato-Biliary Society / Co-chair, Canadian Surgery Forum Program Committee

**Ralph George, Toronto** – President-elect, Canadian Association of General Surgeons

**Richard I. Inculet, London** – Vice-president, Canadian Association of Thoracic Surgeons

**P. Terrance Phang, Vancouver** – Vice-president, Canadian Society of Colon and Rectal Surgeons

**Rona E. Cheifetz, Vancouver** – President-elect, Canadian Society of Surgical Oncology

**David R. Urbach, Toronto** – Program Co-chair, Canadian Association of General Surgeons / Co-chair, Canadian Surgery Forum Program Committee

**Morad Hameed, Vancouver** – Program Co-chair elect, Canadian Association of General Surgeons

**David Olson, Edmonton** – Treasurer, Canadian Association of General Surgeons

**Christopher M. Schlachta, London** – Local Arrangements 2011

**Jasmin Lidington, Ottawa** – Executive Director, Canadian Association of General Surgeons Secretariat / Executive Director, Canadian Society of Colon and Rectal Surgeons Secretariat

Covidien offers a comprehensive portfolio of surgical and energy solutions that address the full spectrum of your clinical needs. We achieve this by working directly with healthcare professionals around the world to design and develop technologies that meet their needs in performance and value.

**0750-1200** (CSTAR, Room B7-200, University Hospital, 339 Windermere Road, London)

**CATS Postgraduate Course: Ultrasound for thoracic surgeons** (additional fee required)

**Description:** The course is a half-day event, dedicated to the role of ultrasound in the management of the thoracic surgery patient. Both lectures and hands-on experience in the CSTAR lab will be provided. The course is designed for thoracic surgeons and residents enrolled in accredited thoracic surgery training programs.

**Learning objectives:**

- Understand the indications for ultrasound in the thoracic surgery patient;
- Know the limitations of thoracic ultrasound;
- Learn the theory of ultrasound;
- Learn how to use modern portable ultrasound equipment;
- Understand the differences between the different ultrasound probes.

**Cours postdoctoral de l'ACCT : Échographie pour les chirurgiens thoraciques** (frais d'inscription supplémentaires)

**Description :** Le cours d'une durée d'une demi-journée est consacré au rôle de l'échographie dans la prise en charge de patients en chirurgie thoracique. Il comprendra des exposés magistraux et des expériences pratiques au laboratoire CSTAR. Le cours s'adresse aux chirurgiens thoraciques et aux résidents inscrits à des programmes agréés de chirurgie thoracique.

**Objectifs d'apprentissage :**

- Comprendre à quels moments l'échographie est indiquée pour les patients en chirurgie thoracique.
- Connaître les limites des échographies thoraciques.
- Apprendre la théorie de l'échographie.
- Apprendre à utiliser du matériel échographique portable moderne.
- Comprendre les différences entre les diverses sondes échographiques.

**0715** Participants to meet in the lobby of the Hilton London – Shuttle pick-up

**0730** Registration and continental breakfast

Course director: R.A. Malthaner, London

**0750** Opening remarks: R.A. Malthaner, London Health Sciences Centre, London

**0800** Why should thoracic surgeons use ultrasound: D. Fortin, London Health Sciences Centre, London

**0830** Ultrasound basics: R.T. Arntfield, London

**0900** VATS ultrasound: R.A. Malthaner, London Health Sciences Centre, London

**0930** Ultrasound for the modern thoracic surgeon: R.I. Inculet, London Health Sciences Centre, London

**0750-1700** (Salon B, Main Level, London Convention Centre)

**CAGS/TAC Postgraduate Course: Mass casualty training exercise** (additional fee required)

**Description:** The one-day course will use simulation and scenario role play, presentations and interactive discussions to cover emergency preparedness. The course is designed for surgeons and hospital staff in community or academic centres that may have to deal with mass casualty incidents. It will review material often presented in 3 day courses in Europe and the United States. The course will use training techniques developed by the Canadian Forces but the scenarios will exclusively be those that might occur anywhere in Canada. Observer-controller/trainer, target audience and actor roles will be taught throughout the course. The focus of the exercise will be within-hospital care. The course will presume some familiarity with pre-hospital disaster care and with advanced trauma life support but these topics will be reviewed during the course. The faculty will include leading trauma surgeons from centres across Canada.

**Learning objectives:**

- Cope with multiple or mass casualty situations;
- Lead hospital units in the event of a disaster;
- Prepare and direct rehearsal exercises within their unit or hospital;
- Lead debriefing sessions after events;
- Assess disaster preparedness of units and hospitals.

**Cours postdoctoral de l'ACCG et de l'ACT : Exercice de formation en intervention dans des situations où il y a un grand nombre de blessés** (frais d'inscription supplémentaires)

**Description :** Le cours d'une journée utilisera des simulations et des jeux de rôle, des présentations et des discussions interactives sur le sujet de l'état de préparation en cas d'urgence. Il s'adresse aux chirurgiens et au personnel hospitalier des milieux communautaires et universitaires qui pourraient avoir à intervenir dans des incidents comptant de grands nombres de blessés. Il comprendra un contenu souvent présenté dans des cours de trois jours en Europe et aux États-Unis. Le cours emploiera des techniques de formation élaborées par les Forces armées canadiennes, mais les scénarios porteront exclusivement sur des situations qui peuvent survenir n'importe où au Canada. Les rôles d'observateur-contrôleur/formateur, d'auditoire cible et d'acteurs seront enseignés tout au long du cours. L'exercice sera principalement axé sur les soins en milieu hospitalier. Il sera

**Continued on page 13**

**Continued from page 12**

présumé que les participants possèdent déjà des connaissances en matière de soins préhospitaliers et en soins traumatologiques avancés, mais ces sujets seront revus durant le cours. D'éminents chirurgiens en traumatologie de centres de tout le pays animeront ce cours.

**Objectifs d'apprentissage :**

- Réagir adéquatement dans des situations où il y a un grand nombre de blessés.
- Diriger les unités hospitalières en cas de catastrophe.
- Concevoir et diriger des exercices de préparation dans l'unité ou l'hôpital.
- Animer des sessions de débriefage à la fin des activités.
- Évaluer l'état de préparation en cas d'urgence des unités et des hôpitaux.

Student actors: Andrew Bodrogi, Kelsey Cassidy, Esther Chan, Octav Cristea, Allison Fine, Daniel James, Amber Kaufman, Ashley Kim, Pranavi Ravichandran, Sha Ullah, University of Western Ontario, London

**0700** Registration and continental breakfast

Course director: V. McAlister, London

**0750** Welcome and opening remarks: V. McAlister, University of Western Ontario, London

**Scenario 1**

**0800** Mass casualty – Introductory scenario: T. Razek, McGill University, Montréal

**0830** Debrief: T. Razek, McGill University, Montréal

**0845** Lecture: Mass casualty exercise lecture – Goals and expectations: V. McAlister, University of Western Ontario, London

**0900** Lecture: Triage: P. Charlebois, Dalhousie University, Halifax

**Scenario 2**

**0930** Triage: P. Charlebois, Dalhousie University, Halifax

**1015** Debrief: P. Charlebois, Dalhousie University, Halifax

**1030** Refreshment break

**1100** Lecture: How to generate in-hospital surge capacity: M. Hameed, University of British Columbia, Vancouver

**Scenario 3**

**1130** The telephone alert: M. Hameed, University of British Columbia, Vancouver

**1215** Lunch

**1300** Debrief: M. Hameed, University of British Columbia, Vancouver

**1315** Vital service priority – CT scan; operating room: B. Church, University of Western Ontario, London

**Scenario 4**

**1330** The board: B. Church, University of Western Ontario, London

**1415** Debrief: B. Church, University of Western Ontario, London

**1430** Refreshment break

**1445** Laboratory and support services: N. Parry, University of Western Ontario, London

**Scenario 5**

**1515** The bank: N. Parry, University of Western Ontario, London

**1600** Debrief and panel discussion – Canadian hospital preparedness for mass casualty incidents: T. Razek, McGill University, Montréal

**1645** Wrap up: V. McAlister, University of Western Ontario, London

---

**0800-1215** (Salon A, Main Level, London Convention Centre)

**CSSO Postgraduate Course: Assessing and managing the patient at high-risk for breast cancer** (additional fee required)

**Description:** The half-day course will review factors that identify women as “high-risk” for developing breast cancer. Current approaches focusing on family history, imaging and high-risk pathologic findings will be presented and discussed. Risk mitigation in the form of medical and surgical approaches will be presented. The course is designed for residents and surgeons treating or counseling women with breast cancer. At the end of the course, surgeons will be aware of the factors that place women at high-risk for developing breast cancer and recurrence, discuss the management options and propose appropriate multidisciplinary care.

**Learning objectives:**

- Define factors from family history that identify high-risk women;
- Understand features on breast imaging that identify a high-risk patient;
- Recognize high-risk features on pathology;
- Understand various medical and surgical strategies to mitigate risk;
- Discuss the current role of mastectomy in the management of high-risk breast cancer.

**Cours postdoctoral de la SCOC : Évaluation et traitement des patientes à risque élevé de cancer du sein** (frais d'inscription supplémentaires)

**Description :** Le cours d'une demi-journée examinera les facteurs qui permettent de déterminer quelles femmes sont à risque élevé de développer un cancer du sein. Les approches actuelles axées sur les antécédents familiaux, l'imagerie et les résultats pathologiques de risque élevé seront présentées et discutées. L'atténuation des risques sous la forme d'approches médicales et chirurgicales fera également l'objet d'une présentation. Le cours s'adresse aux résidents et aux chirurgiens qui traitent et conseillent des femmes atteintes du cancer du sein. Au terme du

**Continued on page 14**

**Continued from page 13**

cours, les chirurgiens connaîtront les facteurs qui représentent pour les femmes un risque de développer un cancer du sein et de récurrence de la maladie, discuteront des options de traitement et proposeront des soins multidisciplinaires appropriés.

**Objectifs d'apprentissage :**

- Définir les facteurs tirés des antécédents familiaux qui permettent de dépister les femmes à risque élevé.
- Comprendre les caractéristiques apparaissant sur l'imagerie mammographique qui permettent de dépister des patientes à risque élevé.
- Reconnaître les caractéristiques de risque élevé dans la pathologie.
- Comprendre les diverses stratégies médicales et chirurgicales visant à atténuer les risques.
- Discuter du rôle actuel de la mastectomie dans la gestion des risques élevés de cancer du sein.

**0700** Registration and continental breakfast

Course director: J.-F. Boileau, Toronto

**0800** High-risk pathology – Borderline lesions of the breast: A. Tuck, London Health Sciences Centre, London

**0830** Surgical management of the borderline lesions of the breast: M.L. Quan, Calgary

**0900** Genetic high-risk – Current knowledge and future directions: I. Haroun, Toronto

**0945** Refreshment break

**1000** Appropriate interventions for high-risk patients (BRCA positive and BRCA negative): A. Eisen, Sunnybrook Regional Cancer Centre, Toronto

**1045** Surgical technique and prophylactic mastectomy: M. Brackstone, London Health Sciences Centre, London

**1115** Advances in breast reconstruction: J. Lipa, Sunnybrook Health Sciences Centre, Toronto

**1145** Questions/discussion of cases with panel

**1210** Closing remarks: J.-F. Boileau, Sunnybrook Odette Cancer Centre, Toronto

*A computerized audience response system will be used during the course. / Un système automatisé de répondeur à clavier sera utilisé durant le cours.*

---

**0800-1600 (Ballroom 4, Level 2, London Convention Centre)**

**CSCRS Postgraduate Course: Benign colorectal disease – Diverticulitis, IBD and other colitides (additional fee required)**

**Description:** The one-day course is designed for practising surgeons, residents and other health care professionals who treat benign diseases of the colon and rectum. The course will provide an update on the evidence pertaining to diverticular disease, Crohn's disease, ulcerative colitis and other colitides. It will provide the practising surgeon a practical approach to the treatment of these common disease states.

**Learning objectives:**

- Understand the indications for elective surgery for diverticular disease;
- Describe the nonoperative and operative management of acute diverticular disease;
- Describe the treatment of young patients and immunocompromised patients;
- Describe the recent advances in medical management of Crohn's disease;
- Describe the relationship between biologics and surgical management;
- Understand the medical and surgical treatment of perianal Crohn's disease;
- Describe the techniques used for surveillance in ulcerative colitis and the oncologic issues surrounding this disease;
- Understand the non-IBD colitides.

**Cours postdoctoral de la SCCCR : Maladies colorectales bénignes – Diverticulites, maladies intestinales inflammatoires et autres colites (frais d'inscription supplémentaires)**

**Description :** Le cours d'une journée s'adresse aux chirurgiens en pratique active, aux résidents et aux autres professionnels de la santé qui traitent des maladies bénignes du côlon et du rectum. Le cours fera le point sur les données probantes concernant les maladies diverticulaires, la maladie de Crohn, de la colite ulcéreuse et d'autres colites. Le chirurgien praticien en retirera une approche pratique au traitement de ces états pathologiques courants.

**Objectifs d'apprentissage :**

- Acquérir une compréhension des indications pour une intervention chirurgicale électorale pour les maladies diverticulaires.
- Décrire les traitements chirurgicaux et non chirurgicaux des maladies diverticulaires aiguës.
- Décrire le traitement de jeunes patients et de patients immunocompromis.
- Décrire les récentes percées dans le traitement médical de la maladie de Crohn.
- Décrire la relation entre les produits biologiques et le traitement chirurgical.
- Comprendre le traitement médical et chirurgical de la maladie de Crohn périanale.
- Décrire les techniques employées pour la surveillance de la colite ulcéreuse, ainsi que les questions d'ordre oncologique relatives à cette maladie.
- Comprendre les colites autres que les maladies intestinales inflammatoires.

**0700** Registration and continental breakfast

Course director: W.D. Buie, Calgary

Course moderators: W.D. Buie, Calgary; A.R. MacLean, Calgary; P.T. Phang, Vancouver; C.S. Richard, Montréal

**0800** Welcome and opening remarks: W.D. Buie, University of Calgary, Calgary

---

**0800-1615 (Ballroom 5, Level 2, London Convention Centre)**

**CAGS Minimally Invasive Surgery Postgraduate Course: Complications of laparoscopic and endoscopic surgery – Prevention, diagnosis, treatment – A case-based course (additional fee required)**

**Description:** Optimal patient outcomes require awareness of procedural pitfalls. When complications occur, sound strategies for early diagnosis and correction can have a large impact on the eventual outcome. The one-day course will review a broad range of procedures commonly encountered by the gastrointestinal surgeon interested in laparoscopy and endoscopy. The focus will be on complications: patient selection, anatomic considerations, early recognition, treatment strategies and communication. A case-based scenario will frame each presentation with audience interaction encouraged through the audience response system and significant time reserved for discussion of each case. A significant emphasis will be placed on operative strategies and techniques with “tips and tricks” provided through the use of video and other media. The course is designed for practising surgeons, residents and other health care professionals in a variety of practice settings who are interested in applying minimally invasive strategies in digestive general surgery.

**Learning objectives:**

- Classify energy devices used in laparoscopy and endoscopy;
- Identify the causes of bowel obstruction after bariatric surgery;
- Describe minimally invasive approaches to bowel perforation;
- List common medico-legal issues in minimally invasive surgery;
- Identify effective strategies for communication with patients when adverse events occur.

**Cours postdoctoral sur la chirurgie à effraction minimale de l'ACCG : Les complications de la chirurgie laparoscopique et endoscopique – Prévention, diagnostic et traitement – Apprentissage par cas (frais d'inscription supplémentaires)**

**Description :** Les résultats optimaux pour les patients exigent d'avoir conscience des embûches opératoires. En cas de complications, l'application de stratégies efficaces pour établir rapidement un diagnostic et corriger la situation sans tarder peut avoir une incidence importante sur les résultats escomptés. Le cours d'une journée présentera un vaste éventail d'interventions pratiquées couramment par les chirurgiens qui manifestent un intérêt pour la laparoscopie et l'endoscopie. Il sera axé sur les complications, la sélection des patients, les considérations d'ordre anatomique, le dépistage précoce, les stratégies de traitement et la communication. Un scénario fondé sur un cas servira de cadre à chaque présentation, et les interactions de l'assistance seront favorisées grâce au système sollicitant une réaction de l'auditoire et à une période substantielle réservée aux discussions sur chaque cas. L'accent sera mis principalement sur les stratégies et techniques opératoires, et des vidéos et d'autres médias seront utilisés pour transmettre des « trucs et astuces ». Le cours s'adresse aux chirurgiens praticiens, aux résidents et aux autres professionnels de la santé de divers milieux de pratique qui souhaitent appliquer des stratégies peu invasives en chirurgie générale de l'appareil digestif.

**Objectifs d'apprentissage :**

- Classer les appareils utilisés en laparoscopie et en endoscopie.

**Continued on page 16**

**Continued from page 15**

- Découvrir les causes d'occlusions intestinales à la suite d'une intervention chirurgicale bariatrique.
- Décrire des approches peu invasives de traitement de perforations intestinales.
- Dresser une liste des enjeux médico-légaux courants concernant les interventions chirurgicales peu invasives.
- Découvrir des stratégies efficaces de communication avec les patients en cas d'incident.

**0700** Registration and continental breakfast

**1734** Making the case for a new way of thinking in a single payer system: L. Levin, Ontario Ministry of Health, Toronto  
**1745** Panel discussion  
**1755** Post-test – Audience response: C.M. Schlachta, University of Western Ontario, London  
**1758** Conclusion: C.M. Schlachta, University of Western Ontario, London
- 

**1800-2000 (Ballroom 1/2/7/8, Level 2, London Convention Centre)**

**CSF Welcoming Reception/Exhibits**

**Learning objectives:** The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will have had an opportunity to network with friends and colleagues; visit the exhibits to see what is new during this opening event.

**Réception d'accueil du FCC/Exposition**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants auront l'occasion de réseauter avec des amis et des collègues; visiter les exposants pour découvrir des nouveautés lors de cet événement d'ouverture.

---

**1900-2000 (Ballroom 1/2/7/8, Level 2, London Convention Centre)**

**National Laparoscopic Suturing Competition**

**Learning objectives:** The competition is designed for surgeons in practice, surgical residents, medical students and other health professions who have an interest in technical skills training. The residents representing programs across Canada will participate in this friendly competition to crown the "Canada's National Champion" in laparoscopic suturing. The competition is designed to promote interest in technical skills training through simulation across Canada.

**Concours canadien de suture laparoscopique**

**Objectifs d'apprentissage :** Le concours s'adresse à tous les chirurgiens praticiens, aux résidents en chirurgie, aux étudiants en médecine et à d'autres professionnels en soins de santé qui s'intéressent à une formation en aptitudes techniques. Des résidents représentatifs de programmes de partout au Canada participeront à ce concours amical afin de couronner un « Champion national du Canada » de la pose de sutures laparoscopiques. Le concours cherche à stimuler de l'intérêt en regard d'une formation en aptitudes techniques par l'entremise de la simulation.

Chaired by: S. Bergman, Montréal

Coordinated by: P. Kaneva, Montréal

Competitors: J. Arminan, University of Calgary; J. Bailey, Dalhousie University, Halifax; G. Beck, University of Saskatchewan, Saskatoon; K. Belay, University of Toronto, Toronto; M. Dakermadjji, McGill University, Montréal; A. Elnahas, McMaster University, Hamilton; R. Helewa, University of Manitoba, Winnipeg; R. Khan, University of British Columbia; D. Ko, University of Calgary, Calgary; S. Koubi, Memorial University, St. John's; J. Lefort, University of Ottawa, Ottawa; A. Mills, Northern Ontario School of Medicine, Lakehead University, Thunder Bay; A. Zhuruk, University of Western Ontario, London

## Friday, September 16 / Le vendredi 16 septembre

---

**0800-0930** (Ballroom 4/5, Level 2, London Convention Centre)

**CSF Welcoming Remarks/CAGS Debates:** (audio recorded)

- 1. Surgical safety checklists improve outcomes and should be mandatory.**
- 2. Postoperative fast track patient care programs are superior to MIS techniques in reducing length of stay and recovery times.**

**Learning objectives:** The session is designed for surgeons, surgical residents, nurses, hospital administrators and all health care workers interested in patient safety, quality of care and access to surgical care. The session recognizes transformative changes in the practice of surgery and highlights the evidence behind new practices aimed at increasing patient safety, improving quality of care, and enhancing the efficiency of surgical resource utilization. At the end of the session, participants will have increased their understanding of the rationale and evidence behind the WHO Safe Surgery Saves Lives and related initiatives; be able to describe limitations in this evidence; gain insights into when and how checklists may be applicable in optimizing surgical care at their own institutions; gain insights into the impact of fast tracking initiatives on the efficiency and safety of systems of surgical care, and on access to surgical care; be able to compare the effects of fast tracking with advances in minimally invasive surgery on surgical productivity, patient care, and patient outcomes.

**Mot d'ouverture du FCC et débats de l'ACCG :** (enregistrement sonore)

- 1. Les listes de vérification en sécurité chirurgicale améliorent les résultats, et leur utilisation devrait être obligatoire.**
- 2. Les programmes de soins postopératoires accélérés sont supérieurs aux techniques de chirurgie endoscopique en ce qu'ils réduisent la durée de l'hospitalisation et de la convalescence.**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens, aux résidents en chirurgie, aux infirmières, aux administrateurs d'hôpital et à tous les professionnels de la santé qui s'intéressent à la sécurité des patients, à la qualité des soins et à l'accès aux soins chirurgicaux. La session reconnaît les changements transformateurs de la pratique chirurgicale et souligne les données probantes venant appuyer la création de pratiques axées sur l'amélioration de la sécurité des patients et des soins et l'utilisation judicieuse des ressources chirurgicales. Au terme de la session, les participants comprendront mieux les raisons et les preuves qui ont motivé l'élaboration d'initiatives comme celle de l'OMS intitulée « Une chirurgie plus sûre pour épargner des vies »; pourront décrire les limitations des preuves à l'appui; pourront mieux juger quand et comment les listes de contrôle pourraient venir optimiser les soins chirurgicaux dans leur propre établissement; pourront mieux connaître l'impact des initiatives de traitement accéléré sur l'efficacité et la sécurité des systèmes de soins chirurgicaux et sur l'accès aux soins chirurgicaux; et pourront comparer les effets du traitement accéléré sur la productivité chirurgicale, les soins aux patients et les résultats pour les patients avec les percées de la chirurgie peu invasive.

Chaired by: M. Hameed, Vancouver

**0810** Introduction: M. Hameed, University of British Columbia, Vancouver

**Debate 1 – Surgical safety checklists improve outcomes and should be mandatory.**

**0815** Pro: **G.L. Warnock, University of British Columbia, Vancouver**

**0825** Con: L. Tremblay, Sunnybrook Health Sciences Centre, Toronto

**0835** Rebuttal and questions

**Debate 2 – Postoperative fast track patient care programs are superior to MIS techniques in reducing length of stay and recovery times.**

**0850** Pro: G. Porter, Dalhousie University, Halifax

**0900** Con: C.J. Brown, University of British Columbia, Vancouver

**0910** Rebuttal and questions

*A computerized audience response system will be used during the debates. / Un système automatisé de répondeur à clavier sera utilisé durant les débats.*

---

**0900-1100** (Salon C, Main Level, London Convention Centre)

**CATS Welcoming Remarks/Opening Session: Scope of practice** (members only)

**Learning objectives:** The session is designed for all thoracic surgeons and residents. At the end of the session, participants will be able to identify issues related to the scope of practice for thoracic surgeons in Canada.

**Mot et session d'ouverture de l'ACCT : Portée de la pratique** (membres seulement)

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens thoraciques et aux résidents. Au terme de la session, les participants seront en mesure d'identifier les questions liées à la portée de la pratique des chirurgiens thoraciques au Canada.

Chaired by: D.E. Maziak, Ottawa

**0900** Quality assurance: A. Seely, The Ottawa Hospital, Ottawa

**0940** T-MED update: S.C. Grondin, University of Calgary, Calgary

**1020** Surgical education: D. Fortin, London Health Sciences Centre, London

---

**0930-1000** (Ballroom 1/2/7/8, Level 2, London Convention Centre)

**Refreshment break/Visit the exhibits / Pause rafraîchissements/Visitez l'exposition**

## Friday, September 16 / Le vendredi 16 septembre

---

**1000-1050** (Ballroom 4/5 Level 2, London Convention Centre)

**CAGS Langer Lecture: New genetic markers – New horizons in combating colorectal cancer** (audio recorded)

**Learning objectives:** The session is designed for all practising surgeons. The session will explore the possibilities of utilizing genetic risk profiling as a public health measure to refine surveillance and prevention strategies. At the end of the session, participants will have a better understanding of our current knowledge of the genetic architecture of colorectal cancer, the notion of heritability, and the contribution of common genetic variation to colorectal cancer incidence.

**Conférence Langer de l'ACCG : Nouveaux marqueurs génétiques – Nouvelles perspectives pour combattre le cancer colorectal** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens praticiens. On y traitera de la possibilité de faire des profils de risque génétiques un instrument de mesure en santé publique afin de peaufiner les stratégies de surveillance et de prévention. Au terme de la session, les participants comprendront mieux l'état des connaissances actuelles sur la structure génétique du cancer colorectal, la notion d'héritabilité et le rôle des variations génétiques courantes dans l'incidence du cancer colorectal.

Chaired by: L.E. Rotstein, Toronto

Speaker: **M.G. Dunlop, University of Edinburgh, Edinburgh, UK**

---

**1100-1200** (Ballroom 4/5, Level 2, London Convention Centre)

**Royal College Gallie Lecture: Surgical innovation and the learning curve** (audio recorded)

**Learning objectives:** The session is designed for all surgeons. Procedural competency is a fundamental requirement for all surgeons. The purpose of the session is to examine how surgical innovations have been introduced into surgical practice, with emphasis on the educational aspects. At the end of the session, participants will be able to describe strategies to acquire the skills to incorporate novel procedures into their practice, including the potential of simulation training; understand the value of metrics in evaluating procedural proficiency; able to track their outcomes to monitor the quality and safety of their practice.

**Conférence Gallie du Collège royal : Innovations chirurgicales et la courbe d'apprentissage** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens. Durant la session, les participants apprendront ce qui a motivé l'intégration de nouvelles procédures à la pratique chirurgicale, en particulier dans le domaine de la formation. Au terme de la session, les participants pourront décrire des stratégies d'acquisition des compétences nécessaires à l'intégration des nouvelles procédures à leur pratique, notamment le potentiel de la formation en simulation; ils comprendront l'importance des mesures d'évaluation de la maîtrise des procédures et pourront suivre leurs résultats afin de contrôler la qualité et la sécurité de leur pratique.

Chaired by: S. Reid, Hamilton

Introduced by: R.S. McLeod, Toronto

Speaker: **G.M. Fried, McGill University, Montréal**

---

**1200-1330** (Ballroom 3/6, Level 2, London Convention Centre)

**CAGS/CATS Poster Session**

**Learning objectives:** The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will leave with an understanding of what others are doing across Canada; a preview of what is on the research horizon; an opportunity to have discussed posters with their authors.

**Séance d'affichage de l'ACCG et de l'ACCT**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants seront en mesure de comprendre ce qui se fait partout au Canada. Ils auront un aperçu des recherches futures. Ils auront eu l'occasion d'en discuter avec les auteurs.

---

**1330-1420** (Ballroom 4/5, Level 2, London Convention Centre)

**CAGS Presidential Address: Canadian general surgery – It is what it is, or is it? Can deconstruction theory instruct our future?** (audio recorded)

**Learning objectives:** The session is designed for members of the Association and guests. At the end of the session, participants will have gained insight into the complexities of General Surgery practice in Canada, the role and value of deconstruction theory in examining our profession and the potential for our future successes.

**Allocution de la présidente de l'ACCG : La chirurgie générale au Canada – Elle est ce qu'elle est, ou l'est-elle vraiment? La théorie de la déconstruction peut-elle éclairer notre avenir?** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse aux membres de l'Association et aux invités. Au terme de la session, les participants connaîtront la complexité de la pratique de la chirurgie générale au Canada, le rôle et la valeur de la théorie de la déconstruction dans l'examen de leur profession; seront aussi conscients des succès futurs possibles.

Chaired by: C.G. Jamieson, Halifax

Speaker: S. Reid, McMaster University, Hamilton

---

**1330-1430** (Salon C, Main Level, London Convention Centre)

**CATS Presidential Address: A second career** (audio recorded)

**Learning objectives:** The session is designed for thoracic surgeons and residents. At the end of the session, participants will be able to discuss career plans after their surgical career; explore changing trends in the work force, lifestyle, and expectations; understand that with increased longevity, there are alternatives to retirement.

**Allocution de la présidente de l'ACCT : Une deuxième carrière** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens thoraciques et aux résidents. Au terme de la session, les participants pourront examiner leurs projets de carrière, après avoir consacré une partie de celle-ci à la chirurgie, les nouvelles tendances concernant l'effectif, le mode de vie et les attentes; comprendront qu'en raison de la plus grande longévité, la retraite n'est pas la seule option à envisager.

Chaired by: J. Yee, Vancouver

Speaker: D.E. Maziak, University of Ottawa, Ottawa

**1430-1550** (Ballroom 4/5, Level 2, London Convention Centre)

**CAGS Symposium: Evidence based reviews in surgery – Dogma versus evidence in abdominal fascial closure**

*Learning objectives:* The session is designed for all general surgeons and residents with an interest in Evidence Based Reviews in Surgery (EBRS). At the end of the session, participants will be able to understand the current status of EBRS; understand how EBRS can be incorporated into training programs as well as clinical practice; understand the best fascial closure technique.

**Symposium de l'ACCG : Examens fondés sur des preuves en chirurgie – Le dogme par opposition aux preuves en matière de fermeture du fascia abdominal**

*Objectifs d'apprentissage :* La session s'adresse à tous les chirurgiens généralistes et à tous les résidents qui s'intéressent aux examens fondés sur les faits en chirurgie. Au terme de la session, les participants connaîtront la situation qui prévaut actuellement au sujet de ces examens; comprendront comment les intégrer éventuellement aux programmes de formation et à la pratique clinique, ainsi que la technique de fermeture du fascia abdominal la plus efficace.

Chaired by: C.J. Brown, Vancouver

**1430** Introduction and objective: C.J. Brown, University of British Columbia, Vancouver

**1440** Navigation of website: M. McKenzie, University of Toronto, Toronto

**1450** The evidence: S. Latosinsky, University of Western Ontario, London

**1455** Poll the audience of their practice: C.J. Brown, University of British Columbia, Vancouver

**1500** Expert panel with audience discussion (audience poll)

• J.A. Heine, University of Calgary, Calgary

• J. Kolbasnik, Milton

• F. Brenneman, University of Toronto, Toronto

**1530** Summary of expert's remark's and listserv discussion: E. Dixon, University of Calgary, Calgary

**1540** Closing remarks: C.J. Brown, University of British Columbia, Vancouver

*A computerized audience response system will be used during the session. / Un système automatisé de répondeur à clavier sera utilisé durant la session.*

---

**1430-1550** (Salon E, Main Level, London Convention Centre)

**CAGS Paper Session**

*Learning objectives:* The session is designed for general surgeons, colorectal surgeons and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future direction of colorectal diseases and their management in an evidence-based format.

**Communications de l'ACCG**

*Objectifs d'apprentissage :* La session s'adresse aux chirurgiens généraux, aux chirurgiens du côlon et du rectum, et aux résidents dans ces domaines. Au terme de la session, les participants seront en mesure de comprendre et de préciser les orientations actuelles et futures des maladies colorectales et de leur prise en charge fondée sur des données probantes.

Co-chaired by: K. Aikin, Ormstown; K. Hardy, Winnipeg

**1430 0009 (CAGS Clinical Research Award)** Sources of bias in non-randomized comparative studies of surgical procedures. *L. Sandhu.* University of Toronto, Toronto

**1445 0010 (CAGS Basic Science Award)** Sirolimus-eluting, hydrogel-impregnated mesh reduces intra-abdominal adhesion formation in a mouse model. *A. Maciver, M. McCall, R. Edgar, A. Thiesen, D. Bigam, T. Churchill, A.M.J. Shapiro.* University of Alberta, Edmonton

**1500 0011** Surgeons' reactions to adverse events in the operating room. *S. Luu, G. Regehr, M.L. Murnaghan, S. Gallinger, C.-A. Moulton.* Wilson Centre, University Health Network, Department of Surgery, University of Toronto, Hospital for Sick Children, Toronto, Centre for Health Education Scholarship, University of British Columbia, Vancouver

**1515 0012** Individualized deliberate practice on a virtual reality simulator improves technical performance of surgical novices in the operating room. *V. Palter, T. Grantcharov.* St. Michael's Hospital, University of Toronto, Toronto

**1530 0013** Motivate your learners – An exploration of motivation as an intraoperative teaching technique. *D. Dath, J. Hoogenes, E. Matsumoto, D. Szalay.* McMaster University, Hamilton

---

**1430-1550** (Salon A, Main Level, London Convention Centre)

**CAGS Resident Education Symposium: Competency-based training – A future model for general surgery residency?**

*Learning objectives:* The session is designed for all CAGS general surgeons and residents. At the end of the session, participants will have a better understanding of the challenges facing general surgery programs in today's era, in light of work hour restrictions; an increased knowledge of the Royal College of Physicians and Surgeons of Canada plans with regards to upcoming changes to meet these challenges in Canada; able to form an educated opinion for or against the competency-based training model playing a role in residency education.

Continued from page 24

**Symposium de l'ACCG sur la formation des résidents : La formation fondée sur les compétences – Modèle de l'avenir pour la résidence en chirurgie générale?**

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens généralistes de l'ACCG et à tous les résidents. Au terme de la session, les participants comprendront mieux les défis des programmes de chirurgie générale actuels, compte tenu des restrictions touchant les heures de travail; sauront mieux comment le Collège royal des médecins et chirurgiens du Canada compte s'adapter aux changements à venir au Canada; pourront se former une opinion éclairée sur le rôle du modèle de formation fondée sur les compétences dans la formation des résidents.

Co-chaired by: C. MacPherson, Vancouver; C. McAlister, Toronto

1430 Welcoming remarks: C. McAlister, University of Toronto, Toronto

1432 Introduction to competency-based training and University of Toronto's experience: **W.J. Kraemer, University of Toronto, Toronto**

**Debate: A new training model for general surgery residency**

1447 Pro: T. Grantcharov, University of Toronto, Toronto

1502 Con: K. Harris, Royal College of Physicians and Surgeons of Canada, Ottawa

1517 Summary: C. MacPherson, University of British Columbia, Vancouver

1522 The future of specialty resident education at the Royal College: K. Harris, Royal College of Physicians and Surgeons of Canada, Ottawa

1532 Panel discussion

---

**1430-1550** (*Salon D, Main Level, London Convention Centre*)

**CAGS/CSSO Symposium: MIS and GI cancer – Controversies**

**Learning objectives:** The session is designed for practising surgeons, residents and other allied health professionals. The role of minimally invasive approaches for resection of cancer remains controversial. Regardless of approach, the goal is complete oncologic resection while minimizing morbidity. Endoscopic ablative therapies for early gastric cancer are widely used in Japan but not in North America. While evidence has shown equivalent oncologic outcomes for laparoscopic colon cancer resection, less information is available for rectal cancer resection. The session will use two case scenarios to frame discussion about controversies in the selection of operative approach for early gastric cancer and rectal cancer. At the end of the symposium, participants will be able to describe indications and outcomes for endoscopic resection of early gastric cancer; list the concerns about minimally invasive approaches to gastric cancer and rectal cancer; explain the current evidence available to guide surgical management of rectal cancer.

**Symposium de l'ACCG et la SCOC : La chirurgie endoscopique et le cancer – Controverses**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens, aux résidents et aux autres professionnels paramédicaux. Le rôle des approches peu invasives dans la résection des tumeurs cancéreuses demeure controversé. Quelle que soit l'approche adoptée, l'objectif est de procéder à la résection oncologique totale et de réduire par le fait même la morbidité. Les thérapies ablatives endoscopiques pour le cancer gastrique précoce sont beaucoup utilisées au Japon, contrairement en Amérique du Nord. Même si les faits montrent des résultats oncologiques équivalents pour la résection par laparoscopie dans le cas du cancer du côlon, on dispose de moins d'information pour la résection de tumeurs cancéreuses rectales. La session comprend deux scénarios de cas qui encadreront le débat sur les controverses entourant la sélection d'une approche opératoire pour le cancer gastrique précoce et le cancer rectal. Au terme de la session, les participants pourront faire état d'indications et de résultats pour la résection endoscopique de tumeurs cancéreuses gastriques précoces; préciser les inquiétudes rattachées aux approches peu invasives pour le cancer de l'estomac et le cancer rectal; expliquer les données probantes dont on dispose actuellement pour orienter la prise en charge chirurgicale du cancer rectal.

Co-chaired by: L.S. Feldman, Montréal; C.A. Giacomantonio, Halifax

1430 Early gastric cancer – Case presentation: L.S. Feldman, McGill University, Montréal

1435 Endoscopic management of early gastric cancer: L.E. Ferri, McGill University, Montréal

1450 Open gastrectomy for treatment of early gastric cancer: N. Coburn, Sunnybrook Health Sciences Centre, Toronto

1505 Discussion

1515 Rectal cancer – Case presentation: C.A. Giacomantonio, Dalhousie University, Halifax

1520 Laparoscopic resection for rectal cancer: S. Liberman, McGill University, Montréal

1535 Open resection for rectal cancer: C.G. Jamieson, Dalhousie University, Halifax

1550 Discussion

*A computerized audience response system will be used during the symposium. / Un système automatisé de répondeur à clavier sera utilisé durant le symposium.*

---

**1430-1630** (*Salon C, Main Level, London Convention Centre*)

**CATS Symposium: New technology**

**Learning objectives:** The session is designed for thoracic surgeons and residents. At the end of the session, participants will have knowledge and understanding of some aspects of new technology in thoracic surgery.

**Symposium de l'ACCT : Les nouvelles technologies**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens thoraciques et aux résidents. Au terme de la session, les participants connaîtront et comprendront certains aspects des nouvelles technologies utilisées en chirurgie thoracique.

Chaired by: J. Yee, Vancouver

1430 Process of educating how to do VATS lobectomy: **T.A. D'Amico, Duke University, Durham, NC**

**Continued on page 26**

**Continued from page 25**

- 1500** VATS for mediastinal disease: R.I. Incelet, London Health Sciences Centre, London  
**1530** Staging of the mediastinum: G.E. Darling, Toronto General Hospital, Toronto

- 

**1600-1650** (Ballroom 4/5, Level 2, London Convention Centre)

**CAGS H. Thomas G. Williams Lecture: A decade in review – Evidence for surgical critical care**

**Learning objectives:** The session is designed for surgeons, residents and medical students. At the end of the session, participants will be able to highlight recent literature relevant to caring for critically ill surgical patients; review key issues in study design to help with critical appraisal of the surgical ICU literature; underscore advances in practice and research for surgical critically ill patients.

**Conférence H. Thomas G. Williams de l'ACCG : Rétrospective de la décennie – Preuves relatives aux soins intensifs en chirurgie**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens, résidents et étudiants en médecine. Au terme de la session, les participants pourront faire état d'études récentes sur les soins prodigués aux patients chirurgicaux gravement malades; examiner des questions importantes liées aux modèles d'études afin de faciliter l'évaluation critique des études concernant les unités chirurgicales des soins intensifs; décrire les progrès réalisés dans la pratique et la recherche concernant les patients chirurgicaux gravement malades.

Chaired by: S. Reid, Hamilton

Speaker: **D.J. Cook, McMaster University, Hamilton**

---

**1700-1830** (Ballroom 4/5, Level 2, London Convention Centre)

**CAGS/TAC Symposium: Acute care surgery – Clinical updates** (audio recorded)

**Learning objectives:** The session is designed for general surgeons, trauma surgeons, acute care surgeons and intensivists. At the end of the session, participants will be able to describe the current options in the management of patients with acute diverticulitis, with emphasis on disease severity; explain the rationale for the management of acute surgical emergencies (eg. appendicitis, cholecystitis) during pregnancy; understand the unique features in the management of patients with hernia emergencies and concomitant ascites; describe the diagnosis and management of patients with fulminant colitis.

**Symposium de l'ACCG et de l'ACT : La chirurgie en soins actifs – Mise à jour clinique** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généralistes, aux chirurgiens traumatologues, aux chirurgiens en soins de courte durée et aux intensivistes. Au terme de la session, les participants pourront décrire les options actuelles de traitement des patients souffrant de diverticulite aiguë, en mettant l'accent sur la gravité de la maladie; justifier la prise en charge des urgences chirurgicales (p. ex., appendicite, cholécystite aiguë) pendant la grossesse; comprendre les caractéristiques particulières du traitement de cas urgents de patients souffrant de hernie et d'ascites concomitantes; décrire le diagnostic et le traitement de la colite fulminante.

Chaired by: F. Brennehan, Toronto

- 1700** Current management of diverticulitis: J. Doyle, University of Toronto, Toronto  
**1715** Acute care surgery in pregnancy: C. MacPherson, University of British Columbia, Vancouver  
**1730** Hernias and ascites: C. Ball, University of Calgary, Calgary  
**1745** Fulminant colitis – Diagnosis and management: S. Minor, Dalhousie University, Halifax  
**1800** Panel discussion: M. Hameed, University of British Columbia, Vancouver, J. Pagliarello, University of Ottawa, Ottawa, S. Minor, Dalhousie University, Ottawa, C. Ball, University of Calgary, Calgary, N. Parry, University of Western Ontario, London
- 

**1700-1830** (Salon A, Main Level, London Convention Centre)

**CAGS/OAGS/SWOSA Round Table Discussion: The itinerant and locuming surgeon – Has the time gone, or come?**

**Learning objectives:** The session is designed for surgeons entering practice as well as experienced surgeons interested in fresh opportunities, and those finishing practice. Different aspects of locums and itinerant surgery, from the perspective of both new graduates and seasoned surgeons, will be discussed. At the end of the session, participants will have acquired an understanding of the opportunities, rewards, responsibilities and pitfalls of locum and itinerant surgery.

**Tour de table de l'ACCG, l'OAGS et SWOSA : Le chirurgien itinérant et suppléant – Époque révolue ou nouvelle?**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens, nouveaux et chevronnés, qui s'intéressent aux nouvelles possibilités, ainsi qu'aux chirurgiens qui mettent un terme à leur pratique. Il y sera question de différents aspects auxquels sont confrontés les chirurgiens suppléants et itinérants, qu'il s'agisse de nouveaux chirurgiens ou de chirurgiens chevronnés. Au terme de la session, les participants seront conscients des possibilités et de la satisfaction que tirent les chirurgiens suppléants et itinérants de leurs fonctions, ainsi que de leurs responsabilités et de leurs défis.

Chaired by: A.G. Maciver, London

- 1700** Locums and itinerant surgery: A.G. Maciver, University of Western Ontario, London  
**1715** Testing the waters, and getting your feet wet: K. Lefebvre, University of Western Ontario, London  
**1730** Why doing a locum surgery as a full time endeavour after closing a practice: R. Dykstra, Victoria  
**1745** Medico legal aspects of locums and itinerant surgery: L. LeGrand Westfall, Canadian Medical Protective Association, Ottawa  
**1800** Panel discussion

**1700-1830** (*Salon D, Main Level, London Convention Centre*)

**CAGS/CHPBS Debates: Controversies in pancreas and bile duct surgery**

**Learning objectives :** The session is designed for general surgeons and specialists. At the end of the session, participants will understand the issues and available data around the management of controversial, yet common, problems in biliary and pancreatic surgery.

**Débats de l'ACCG et de la CHPBS : Controverses en chirurgie du pancréas et du canal cholédoque**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généralistes et spécialistes. Au terme de la session, les participants comprendront les questions et données actuelles relatives à la gestion de problèmes qui, même s'ils suscitent la controverse, sont courants dans la chirurgie pancréatique et des voies biliaires.

Chaired by: S.P. Cleary, Toronto

**1700** Debate 1 – Management of CBD stones in the elderly/medically unfit patient: F. Baala, University of Ottawa, Ottawa; S. Jayaraman, University of Toronto, Toronto

**1730** Debate 2 – Acute management of suspected CBD injury – Drain versus explore: D. Quan, University of Western Ontario, London; A. Wei, University of Toronto, Toronto

**1800** Debate 3 – Drains in pancreatic surgery: J. Barkun, McGill University, Montréal; F. Sutherland, University of Calgary

---

**1700-1830** (*Salon B, Main Level, London Convention Centre*)

**CAGS International Surgery Symposium: Collaborative and translational clinical research in low income countries – Points to ponder**

**Learning objectives:** The session is designed for surgeons and general surgery residents interested in international surgery or international collaborative research. At the end of the session, participants will have a better understanding of important principles in making international surgical research collaborative and translational; explored the complexities and ethics of international collaborative research; explored web-based collaborative international descriptive data collection and considered its strengths and weaknesses in meeting key principles of collaborative and translational research; explored challenges and opportunities of resident involvement in international collaborative research.

**Symposium international de chirurgie de l'ACCG : Recherches cliniques collaboratives et translationnelles dans des pays à faibles revenus – Pistes de réflexion**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens et aux résidents en chirurgie générale qui s'intéressent à la chirurgie ou à la recherche en collaboration internationale. Au terme de la session, les participants comprendront mieux des principes clés permettant d'assurer le caractère concerté et translationnel de la recherche chirurgicale internationale; examineront la complexité et l'éthique de la recherche en collaboration à l'échelle internationale, ainsi que la collecte sur le Web de données descriptives internationales sur la recherche en collaboration; verront aussi dans quelle mesure la collecte de données respecte les principes clés de la recherche collaboratives et translationnelles; connaîtront les défis et les possibilités de la participation des résidents à la recherche internationale menée en collaboration.

Chaired by: G. Hollaar, Calgary

**1700** Complexities and ethics of collaborative research: **M. Bhandari, McMaster University, Hamilton**

**1730** Experience with collaborative web-based descriptive data collection: **M. Clough, Kamloops**

**1750** Challenges of collaborative resident research: H. Gill, McGill University, Pointe-Claire

**1800** Panel Discussion

---

**1845-1930** (*Theatre, Main Level, London Convention Centre*)

**CAGS Symposium: Surgical Jeopardy**

**Description:** Surgical Jeopardy is a good-natured, informal competition in which contestants match wits about surgical disease, surgical history and a host of related and unrelated topics. The competition will be organized into teams of three and will be region based. We encourage all attendees to watch the game and root the participants on to victory! Trophies will be awarded to the top team. Suitable refreshments will be supplied free of charge in keeping with the *spirit* of the competition. So come on out, test yourself against the quiz master and competitors and enjoy the competition.

**Learning objectives:** The session is designed for all practising surgeons and surgical residents. At the end of the session, participants will be able to review common surgical disease, important events in surgical history and general knowledge of Canadian history, sports, geography and the arts.

**Symposium de l'ACCG : Le péril chirurgical**

**Description :** Le péril chirurgical est un concours bon enfant où les concurrents composent un mot d'esprit sur la chirurgie, maladie ou histoire, et une gamme de sujets connexes ou étrangers. Les équipes regrouperont trois personnes et l'affrontement sera régional. Tous sont invités à assister au jeu et à encourager les concurrents de leur choix. L'équipe victorieuse remportera un trophée. Des rafraîchissements seront gracieusement offerts, dans l'*esprit* du concours. Venez nombreux vous mesurer au présentateur de jeu et aux concurrents !

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens et aux résidents en chirurgie. Au terme de la session, les participants seront en mesure d'énumérer les maladies chirurgicales courantes, de retracer les événements marquants de l'histoire de la chirurgie et d'acquérir des connaissances générales sur l'histoire, les sports, la géographie et les arts au Canada.

<p><b>1900-2200</b> (London Club Mansion, 89 King Street, London)  <b>CSF Presidents' Gala (additional fee required) / Gala des présidents du FCC (frais d'inscription supplémentaires)</b></p>				

### Sunday, September 18 / Le dimanche 18 septembre

<p><b>0800-0930</b> (Windsor Club, 2<sup>nd</sup> Floor, Hilton London)  <b>CSF Steering Committee and CSF Program Committee Meeting / Réunion du Comité de direction du FCC et du Comité du programme du FCC</b></p>	<p style="text-align: right;">Page 43</p>
<p><b>0930-1230</b> (Prince of Wales, 3<sup>rd</sup> Floor, Hilton London)  <b>CAGS Self-assessment Exam (written) (additional fee required) / Examen d'auto-évaluation de l'ACCG (écrit) (frais d'inscription supplémentaires)</b></p>	
<p style="text-align: right;">Page 43</p>	

**0700-0750** (Ballroom East, 2<sup>nd</sup> Floor, Hilton London)

**CSF Breakfast with the Professor** (additional fee required)

**Learning objectives:** The session is designed for practising surgeons and surgical residents. At the end of the session, participants will be able to identify a practical approach to common surgical problems in the subject area of each assigned table. Case study method will be used for small group interactive sessions.

**Petit-déjeuner du FCC avec le professeur** (frais d'inscription supplémentaires)

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens et aux résidents en chirurgie. Au terme de la session, les participants seront en mesure d'indiquer une solution pratique à des problèmes chirurgicaux courants dans le domaine attribué à chacun des groupes. La session interactive a recours à la méthode de l'étude de cas en groupes restreints.

- **An approach to bariatric emergencies and complications:** V. Sherman, The Methodist Hospital, Houston, TX
- **Anorectal problems:** P.L. Roberts, Lahey Clinic, Burlington, MA
- **Breast cancer – Interesting cases and controversies:** A. McFadden, Vancouver
- **Challenging cases in acute care/emergency surgery:** H. Tien, Sunnybrook Health Sciences Centre, Toronto
- **Complex bile duct and gallbladder surgery:** W. Davies, London Health Sciences Centre, London
- **Giant paraesophageal hernia:** D.E. Maziak, University of Ottawa, Ottawa
- **Interesting cases in pancreatic surgery:** J.L. Cameron, The John Hopkins Hospital, Baltimore, MD
- **Interesting colorectal cases:** P. Belliveau, Hôtel-Dieu Hospital, Kingston
- **Pediatric surgery for the general surgeon:** L. Scott, London Health Sciences Centre, London
- **The business of surgery:** J. Kolbasnik, Milton
- **Trauma cases for the general surgeon:** M. Hameed, University of British Columbia, Vancouver; N. Parry, University of Western Ontario, London

---

**0800-0900** (Salon D, Main Level, London Convention Centre)

**CHPBS Paper Session**

**Learning objectives:** The session is designed for general surgeons, hepatobiliary-pancreatic surgeons, and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future directions of HPB and their management in an evidence-based format.

**Communications de la CHPBS**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généraux, aux chirurgiens du système hépatobiliaire ou du pancréas et aux résidents dans ces disciplines. Au terme de la session, les participants seront en mesure de préciser les recommandations actuelles et futures sur les problèmes chirurgicaux hépatobiliaires et de leur prise en charge fondée sur des données probantes.

Chaired by: S.P. Cleary, Toronto

- 0800 0083** MELD and donor risk index as predictors of early allograft dysfunction. K.P. Croome, P. Marotta, V. McAlister, D. Quan, W. Wall, R. Hernandez-Alejandro. University of Western Ontario, London
- 0815 0084** Early cholecystectomy for acute cholecystitis – A population-based analysis of practice patterns in Ontario. C. de Mestral, B. Zagorski, O. Rotstein, D. Gomez, B. Haas, A. Laupacis, S. Sharma, J. Bridge, A. Nathens. Keenan Research Centre, Li Ka Shing Knowledge Institute, St. Michael's Hospital, University of Toronto, Institute for Clinical Evaluative Sciences, Toronto
- 0830 0085** Comparison of laparoscopic and open liver resections in cirrhotic patients using a matched pair analysis. F. Bhojani, A. Fox, K. Pitzul, C.-A. Moulton, A. Wei, A. Okrainec, S. Cleary. University of Toronto, Toronto
- 0845 0086** The effect of portal vein embolization (PVE) on tumor growth rate (TGR) in primary liver tumors and liver metastases. K. Bertens, K.P. Croome, A. Mujoomdar, D. Peck, R. Rankin, D. Quan, N. Kakani, R. Hernandez-Alejandro. University of Western Ontario, London

---

**0800-0930** (Ballroom 4/5, Level 2, London Convention Centre)

**CAGS Instructional Video Session: How I do it – Laparoscopic tips and tricks for the practising surgeon**

**Learning objectives:** The session is designed for surgeons interested in increasing their repertoire of laparoscopic procedures. The video session deconstructs basic as well as advanced laparoscopic gastrointestinal procedures into core steps. Our experts will provide commentary and review multiple techniques for each step through video examples. At the end of the session, participants will be able to define the core steps of basic and advanced laparoscopic gastrointestinal surgical procedures; describe several methods of performing key portions of these operations; identify the technical components necessary to achieve successful operative outcomes.

**Session éducative vidéo de l'ACCG : Comment procéder – Trucs et astuces en laparoscopie à l'intention du chirurgien en pratique active**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens qui souhaitent élargir leur répertoire d'interventions par voie laparoscopique. La session vidéo présente les étapes essentielles des interventions gastrointestinales par voie laparoscopique de base et avancées. Nos experts formuleront des commentaires et décriront plusieurs techniques à chaque étape, à l'aide d'exemples vidéo. Au terme de la session, les participants pourront décrire les étapes essentielles des interventions chirurgicales gastrointestinales par voie laparoscopique de base et avancées; pourront aussi décrire plusieurs méthodes qui entrent en jeu dans certaines parties importantes de ces interventions, ainsi que les éléments techniques qui permettent d'en assurer le succès.

**Continued from page 30**

Chaired by: S. Bergman, Montréal

- 0800** Opening remarks: S. Bergman, McGill University, Montréal  
**0805** Wedge resection of the stomach: S. Fraser, McGill University, Montréal  
**0815** Feeding jejunostomy: D. Klassen, Halifax  
**0825** Small bowel resection: S. Karmali, University of Alberta, Edmonton  
**0835** Appendectomy: C. Andrew, St. Boniface General Hospital, Winnipeg  
**0845** Right hemicolectomy: A.T. Meneghetti, University of British Columbia, Vancouver  
**0855** Left hemicolectomy: T. Penner, University Health Network, Toronto  
**0905** Panel discussion
- 

**0800-0930** (*Salon C, Main Level, London Convention Centre*)

**CATS Paper Session**

**Learning objectives:** The session is designed for all thoracic surgeons and residents. At the end of the session, participants will gain an understanding of the types of research being conducted in thoracic surgery and be able to identify potential areas of collaboration.

**Communications de l'ACCT**

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens thoraciques et aux résidents de la spécialité. Au terme de la session, les participants connaîtront les axes de recherche actuels en chirurgie thoracique et pourront préciser des domaines qui se prêteraient à la recherche en collaboration.

Chaired by: E. Bedard, Edmonton

- 0800 0069** Cricotracheal and tracheal resection for subglottic stenosis – Our institutional experience. *S. Deen, M. Deutschmann, S. McFadden, G. Gelfand, D. Bosch.* University of Calgary, Calgary  
**0815 0070** Can preoperative methicillin-resistant staphylococcus aureus screening and chlorhexidine chest scrub decrease the incidence of post-resection empyema? *L. Grimmer, S. Milman, T. Ng.* Brown University School of Medicine, Providence, RI  
**0830 0071** The significance of incidental intra-abdominal findings on FDG positron emission tomography performed to investigate pulmonary nodules. *R. Gill, T. Perry, J. Abele, E. Bedard, D. Schiller.* University of Alberta, Cross Cancer Institute, Edmonton  
**0845 0072** Operative fixation improves survival in ventilated patients with flail chest. *S. Coughlin, T. Charyk Stewart, N. Parry, D. Gray, J. Williamson, R. Malthaner.* University of Western Ontario, London Health Sciences Centre, London  
**0900 0073** New VATS palpator sensing system safely locates occult tumours in vivo. *D. Bottoni, M. Perri, A. L. Trejos, M. Naish, R. Patel, R. Malthaner.* London Health Sciences Centre, CSTAR, London  
**0915 0074** A retrospective analysis of division versus nondivision of short gastric vessels in laparoscopic giant paraesophageal hernia repair. *A. Ashrafi, J. Bond, S. Ong, M. Yamashita, S. Ahmadi.* Surrey Memorial Hospital, Surrey
- 

**0800-0930** (*Salon B, Main Level, London Convention Centre*)

**CSCRS Paper Session**

**Learning objectives:** The session is designed for general surgeons, colorectal surgeons and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future direction of colorectal diseases and their management in an evidence-based format.

**Communications de la SCCCR**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généraux, aux chirurgiens du côlon et du rectum, et aux résidents dans ces domaines. Au terme de la session, les participants seront en mesure de comprendre et de préciser les orientations actuelles et futures des maladies colorectales et de leur prise en charge fondée sur des données probantes.

Chaired by: D.J. Hochman, Winnipeg

- 0800 0104** Transanal endoscopic microsurgery – Outcomes in patients with rectal carcinoma. *M. Raval, B. Heidary, S. Kalikias, D. Raval, T. Phang, C. Brown.* Department of Surgery, St. Paul's Hospital, University of British Columbia, Vancouver  
**0815 0105** The myth of informed consent in rectal cancer surgery – What do patients retain? *A. Scheer, A. O'Connor, B. Chan, H. Moloo, E. Poulin, J. Mamazza, R. Auer, R. Boushey.* The Ottawa Hospital, University of Ottawa, Ottawa  
**0830 0106** Short-term outcomes of laparoscopic right hemicolectomy with intracorporeal v. extracorporeal anastomosis. *K. Hardy, A. Vergis, P. Sullivan.* University of Manitoba, Winnipeg, University of Toronto, Toronto  
**0845 0107** Changing trends in laparoscopic surgery for rectal cancer in the Province of Ontario. *R. Musselman, T. Gomes, B. Chan, R. Auer, H. Moloo, E. Poulin, J. Mamazza, K. Al-Khayal, M. Al-Omran, M. Mamdani, O. AlObeed, R. Boushey.* The Ottawa Hospital, University of Ottawa, Ottawa, Institute for Clinical Evaluative Sciences, Li Ka Shing Knowledge Institute, St. Michael's, Toronto, King Khalid University Hospital, King Saud University, Riyadh, SAU  
**0900 0108** Oncologic outcomes of laparoscopic and open colorectal cancer surgery – Meta-analysis and correlation with expert opinion. *G. Martel, A. Crawford, J. Barkun, C. Ramsay, D. Fergusson, R. Boushey.* University of Ottawa, Ottawa, McGill University, Montréal, University of Aberdeen, Aberdeen, GBR  
**0915 0109** Implementation of a Regional Colorectal Cancer Communities of Practice (CoP) leads to improved quality of care for rectal cancer patients. *L. Williams, A. Crawford, K. McLaughlin, M. Mackey, H. Moloo, J. Mamazza, E. Poulin, M. Friedlich, R. Boushey, R. Auer.* University of Ottawa, Ottawa

**0800-0930** (Salon E, Main Level, London Convention Centre)

**CAGS: Highlights of CSRF Awards**

**Learning objectives:** The session is designed for all general surgeons and residents. At the end of the session participants will have a better understanding of the latest advances in clinical and translational surgical research from CSRF Research Award recipients.

**L'ACCG : Faits saillants des subventions de la FCRC**

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens généralistes et à tous les résidents. Au terme de la session, les participants comprendront mieux les progrès récents réalisés en recherche chirurgicale clinique et translationnelle grâce aux travaux des chercheurs qui ont bénéficié d'une subvention de la FCRC.

Chaired by: O. Bathe, Calgary

**0800** Opening remarks: O. Bathe, University of Calgary, Calgary

**0805** Neutrophils and metastasis – Friend of foe?: J. Spicer, McGill University, Montréal

**0825** Carcinoembryonic antigen-related cell adhesion molecules in colorectal cancer progression: C. Chan, McGill University, Montréal

**0845** Performance of simulated laparoscopic incisional hernia repair predicts operating room performance: L.S. Feldman, McGill University, Montréal

**0905** Early versus delayed cholecystectomy for acute cholecystitis – A population-based analysis of practice patterns, effectiveness and cost-utility: C. de Mestral, Toronto

**0925** Closing remarks: O. Bathe, University of Calgary, Calgary

---

**0800-1130** (Ballroom West, 2<sup>nd</sup> Floor, Hilton London)

**TAC/ACS Canadian Resident Trauma Papers Competition**

**Description:** Research papers in clinical and basic science in the fields of trauma, sepsis and critical care will be presented by trauma fellows and residents from Trauma programs from throughout Canada. Two best clinical and basic science papers from Eastern Canada and Western Canada will be selected. The winners may be invited to present their work at an international trauma resident papers competition in the Spring of 2012 where if selected they will represent Canada at the Annual meeting of the American College of Surgeons, Committee on Trauma.

**Learning objectives:** The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will leave with an understanding and increased awareness of trauma related research by young investigators throughout Canada.

**Concours de l'ACT et de l'ACS d'exposés sur la traumatologie de résidents canadiens**

**Description :** Des associés et des résidents en traumatologie des programmes de formation dans ce domaine de tout le Canada présenteront des exposés de recherche en science clinique ou en science fondamentale. Les deux meilleurs exposés de l'Est et de l'Ouest du Canada, l'un en science clinique, l'autre en science fondamentale seront choisis. Les gagnants peuvent être invités à présenter leur travail au printemps 2012 au concours international annuel d'exposés sur la traumatologie, où, s'ils sont sélectionnés, ils représenteront le Canada lors de la réunion annuelle de l'*American College of Surgeons*, le Comité sur les traumatismes.

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants seront en mesure de comprendre et auront eu une vue d'ensemble de la recherche dans le domaine de la traumatologie effectuée par des chercheurs en début de carrière de tout le Canada.

Co-chaired by: S.B. Rizoli, Toronto; R.K. Simons, Vancouver

---

**0900-1100** (Windsor Club, 2<sup>nd</sup> Floor, Hilton London)

**CAGS Allied Health Care Symposium: What comes next? Management and support other than surgery for the cancer patient**

**Learning objectives:** The session is designed for all health care professionals working in the operating room or surgical wards. The session will provide an overview of the other modalities of treatment and support which are available to the cancer patient in addition to the surgical experience. Examples will be largely taken from breast and colorectal cancer patients. Talks will focus on providing information to allied health professional within surgery. At the end of the session, participants will better understand the process of cancer care and thus better support the surgical patient in their cancer journey.

**Symposium de l'ACCG des professionnels de la santé paramédicaux : Et après? Soutien et prise en charge autres que la chirurgie pour le patient atteint du cancer**

**Objectifs d'apprentissage :** La session s'adresse à tous les professionnels des soins de santé qui travaillent dans la salle d'opération ou le département de chirurgie. La session donnera un aperçu des autres modalités de traitement et de soutien offertes aux patients atteints d'un cancer, en plus de la chirurgie. Les cas cités en exemple seront surtout liés aux patientes souffrant d'un cancer du sein et aux patients atteints d'un cancer colorectal. Les discussions seront axées sur la transmission d'information aux professionnels paramédicaux au sein d'un département de chirurgie. Au terme de la session, les participants comprendront mieux le processus des soins aux patients et pourront donc leur fournir un meilleur soutien durant leur combat contre le cancer.

**1000-1120** (Salon D, Main Level, London Convention Centre)

**CSSO Symposium: General surgery primer – Complicated care issues in the management of cancer patients**

**Learning objectives:** The session is designed for all practising general surgeons. The session will provide a review of uncommon topics involving cancer patients that are a challenge for the practising general surgeon. At the end of the session, the participants will have a better understanding of the etiology, diagnosis and management of radiation proctitis, typhilitis, and lymphedema; be able to identify patients that should and should not be considered for a peritonectomy.

**Symposium de la SCOC : Initiation à la chirurgie générale – Questions de soins complexes dans le traitement des patients atteints du cancer**

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens généraux praticiens. Durant la session, les participants auront un aperçu des questions inhabituelles liées aux patients atteints d'un cancer, qui représentent un défi pour le chirurgien généraliste. Au terme de la session, les participants comprendront mieux l'étiologie, le diagnostic et le traitement de la rectite radique, de la typhlite et des lymphoedèmes; pourront faire une distinction entre les patients qui devraient ou non faire l'objet d'une péritonectomie.

Chaired by: A. McFadden, Vancouver

- 1000** Radiation proctitis: R.E. Cheifetz, Gordon & Leslie Diamond Health Care Centre, Vancouver
- 1020** Complications of systemic therapy of interest to the general surgeon: J. Park, University of Manitoba, Winnipeg
- 1040** Lymphedema: N.L. Davis, Gordon & Leslie Diamond Health Care Centre, Vancouver
- 1100** Peritoneal carcinomatosis: J.A. McCart, University of Toronto, Toronto
- 

**1000-1130** (Salon A, Main Level, London Convention Centre)

**CABPS Bariatric Symposium: A primer for the general surgeon and an ignitor for the bariatric specialist (audio recorded)**

**Learning objectives:** The session is designed for practising surgeons and residents. At the end of the session, participants will be able to facilitate understanding of the common bariatric surgical operations performed in Canada; facilitate an approach to managing the bariatric surgical patient, pre and postoperatively; understand the metabolic benefits of bariatric surgery.

**Symposium de l'ACMCSO : Un point de départ pour le chirurgien général et incitation pour la médecine bariatrique (enregistrement sonore)**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens praticiens et aux résidents. Au terme de la session, les participants pourront mieux faire comprendre les opérations courantes en chirurgie bariatrique au Canada; simplifier la prise en charge du patient avant et après la chirurgie bariatrique; comprendre les avantages que présente la chirurgie bariatrique sur le plan métabolique.

Co-chaired by: S. Karmali, Edmonton; D. Hong, Hamilton

- 1000** The industrial food revolution and its impact on the obesity epidemic: **V. Sherman, The Methodist Hospital, Houston, TX**
- 1030** The adjustable gastric band: D.W. Birch, University of Alberta, Edmonton
- 1045** The Roux-en-Y gastric bypass: S. Gmora, McMaster University, Hamilton
- 1100** The sleeve gastrectomy: J.C.D. Ellsmere, Dalhousie University, Halifax
- 1115** The BPD-DS: O. Court, McGill University, Montréal

**1100-1200** (*Salon C, Main Level, London Convention Centre*)

**CATS F.G. Pearson Lectureship: Thoracoscopic lobectomy – Management of locally advanced lung cancer**

**Learning objectives:** The session is designed for all thoracic surgeons and residents. At the end of the session, participants will be able to define high-risk populations for thoracoscopic lobectomy; review the technical advances that would improve outcomes; and explore the benefits of minimally invasive surgery for patients with locally advanced lung cancer.

**Conférence F.G. Pearson de l'ACCT : Lobectomie thoracoscopique – Prise en charge du cancer du poumon localement avancé**

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens thoraciques et à tous les résidents. Au terme de la session, les participants pourront définir les populations qui présentent un risque élevé de subir une lobectomie thoracoscopique; analyser les progrès techniques qui donneraient lieu à de meilleurs résultats; examiner les avantages de la chirurgie à effraction minimale chez les patients atteints d'un cancer du poumon localement avancé.

Chaired by: A. Graham, Calgary

Introduced by: D.E. Maziak, University of Ottawa, Ottawa

Speaker: **T.A. D'Amico, Duke University, Durham, NC**

---

**1130-1215** (*Ballroom 4/5, Level 2, London Convention Centre*)

**CSCRS Philip H. Gordon Lecture: Diverticulitis – Who needs an operation? (audio recorded)**

**Learning objectives:** The session is designed for general surgeons, colorectal surgeons and trainees in both specialties. At the end of the session, participants will be able to appreciate the current management of diverticulitis and the evolving recommendations for surgery for uncomplicated and complicated disease.

**Conférence Philip H. Gordon de la SCCCR : Diverticulite – Qui a besoin d'une intervention chirurgicale? (enregistrement sonore)**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généralistes, aux chirurgiens du côlon et du rectum et aux résidents dans ces domaines. Au terme de la session, les participants seront pleinement conscients de la prise en charge des cas de diverticulite et des nouvelles recommandations chirurgicales dans les cas de maladies complexes et non complexes.

**1330-1520** (Ballroom 4/5, Level 2, London Convention Centre)

**CAGS Instructional Video Session: Complex and unusual hernias** (audio recorded)

**Learning objectives:** The session is designed for all health care professionals with an interest in the technical aspects of minimally invasive surgery as it pertains to hernia repair. The session will demonstrate through the use of videos solicited from expert laparoscopic surgeons the approach to a variety of complex and unusual hernias. At the end of the session, participants will learn the technical aspects for repair of complex inguinal hernias, obturator hernias, component separation for reconstruction of the abdominal wall, diaphragmatic hernias and massive ventral hernias. Significant time will be allotted for discussion.

**Session éducative vidéo de l'ACCG : Hernies complexes et inhabituelles** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse à tous les professionnels des soins de santé qui s'intéressent aux aspects des techniques chirurgicales à effraction minimales de réparation des hernies. La session illustrera, à l'aide de vidéos obtenues auprès de chirurgiens pratiquant des interventions par laparoscopie, l'approche préconisée dans le cas de diverses hernies complexes et inhabituelles. Au terme de la session, les participants apprendront les aspects techniques rattachés à la réparation des hernies inguinales et obturatrices complexes, à la séparation des modules pour la reconstruction de la paroi abdominale, et à la réparation des hernies diaphragmatiques et des hernies ventrales massives. Une grande partie de la session sera consacrée à des discussions.

Chaired by: A.T. Meneghetti, Vancouver

**1330** Welcoming remarks and introduction: A.T. Meneghetti, University of British Columbia, Vancouver

**1335** Laparoscopic repair of Morgagni hernia: É. Auger-Dufour, McGill University, Montréal

**1355** Complex TAPP repairs: O.N.M. Panton, University of British Columbia, Vancouver

**1415** Laparoscopic repair of a massive ventral hernia: L.C. Smith, St. Joseph's Health Centre, Toronto

**1435** Laparoscopic repair of an obturator hernia causing obstruction: A.T. Meneghetti, University of British Columbia, Vancouver

**CSCRS Symposium: Anorectal disease putting new options into perspective – Advice from the experts (audio recorded)**

**Learning objectives:** The session is designed for general surgeons, colorectal surgeons and trainees in these specialties. In recent years the number of new treatment options for benign anorectal disease has multiplied. The object of the session is to examine the evidence for the newer treatments and place them in context with traditional methods. At the end of the session, participants will be able to understand and appreciate the practical management of a variety of anorectal problems including: hemorrhoidectomy, rectal prolapse, fissure, complex cryptoglandular fistulas and rectovaginal and rectourethral fistulas.

**Symposium de la SCCCR : Maladies anorectales – Mise en perspective de nouvelles options – Conseils d'experts**

*(enregistrement sonore)*

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généralistes, aux chirurgiens du côlon et du rectum et résidents dans ces disciplines. Au cours des dernières années, le nombre de nouvelles options thérapeutiques pour les atteintes anorectales bénignes s'est accru. Durant la session, les participants examineront les faits entourant les nouveaux traitements et les situeront dans le contexte des méthodes traditionnelles. Au terme de la session, les participants pourront comprendre la prise en charge de divers problèmes anorectaux (hémorroïdes, prolapsus rectal, fissure, fistules cryptoglandulaires complexes, fistules recto-vaginales et recto-urétrales).

**CSSO Henry Shibata Lecture: The evolution of sentinel lymph node biopsy for breast cancer** (audio recorded)

**Learning objectives:** The session is designed for general surgeons, surgical oncologists and trainees in these specialties. The purpose of the session is to examine how we as surgeons bring new technology into clinical practice. It will specifically examine how innovative procedures in breast cancer surgery impact surgical practice. At the end of the session, participants will be familiar with the current controversies and clinical problems associated with sentinel node biopsy for breast cancer; understand the impact of sentinel node biopsy on pathological and surgical practice; become familiar with the changes in radiation oncology, medical oncology and the overall care of the breast cancer patient that the adoption of sentinel node biopsy has encouraged; become familiar with innovative and novel approaches to clinical issues associated with breast cancer.

**Conférence Henry Shibata de la SCOC : L'évolution de la biopsie des ganglions sentinelles dans le cadre du cancer du sein** (enregistrement sonore)

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généralistes, aux chirurgiens oncologistes et aux résidents dans ces domaines. Elle vise à préciser comment les chirurgiens intègrent les nouvelles technologies à leur pratique clinique et de façon plus particulière, l'incidence des interventions chirurgicales novatrices en matière de cancer du sein sur la pratique chirurgicale. Au terme de la session, les participants connaîtront les controverses et les problèmes cliniques actuels liés à la biopsie du ganglion sentinelle dans le cancer du sein; comprendront l'incidence de la biopsie du ganglion sentinelle sur la pratique pathologique et chirurgicale; connaîtront les changements en radio-oncologie et en oncologie médicale, les soins généraux prodigués aux patientes aux prises avec un cancer du sein, qui se réjouissent de l'adoption de la biopsie du ganglion sentinelle, ainsi que les nouvelles approches à l'égard des questions cliniques liées au cancer du sein.

Chaired by: S. Karmali, Edmonton

- 1530 0001** Outcomes of the adjustable gastric band in a publicly funded obesity program. *J.C. Chiu, X. Shi, S. Karmali, D.W. Birch.* University of Alberta, Royal Alexandra Hospital, Edmonton
- 1545 0002** Simultaneous cholecystectomy and bariatric procedure is feasible and safe – Systematic review and meta-analysis. *I. Apriasz, N.A. Alkhamesi, A. Lal, C.M. Schlachta.* Schulich School of Medicine and Dentistry, London Health Sciences Centre, London
- 1600 0003** Laparoscopic gastric bypass (LGBP) can be performed safely in secondary health care centres (SHCC) with a dedicated service corridor to an affiliated tertiary health care centre (THCC). *N.V. Christou.* McGill University, Montréal
- 1615 0004** Impact of surgeon experience on perioperative outcomes after bariatric procedures at a designated centre of excellence in Ontario. *S. Elkassem, D. Lindsay, L. Smith, P. Sullivan.* University of Toronto, Toronto
- 

**1530-1630** (*Ballroom 4/5, Level 2, London Convention Centre*)

**CAGS Symposium: Fast track surgery – Is there more to it than throwing patients out of hospital on day 3?** (*audio recorded*)

**Learning objectives:** The session is designed for all general surgeons and residents. At the end of the session, participants will understand the evidence supporting fast track surgery interventions; understand the role of the anaesthetist intraoperatively and postoperatively; understand the outcomes following fast track surgery protocols.

**Symposium de l'ACCG : Chirurgie accélérée – Plus qu'un moyen de libérer les patients de l'hôpital le troisième jour?**

(*enregistrement sonore*)

**Objectifs d'apprentissage :** La session s'adresse à tous les chirurgiens généralistes et à tous les résidents. Au terme de la session, les participants comprendront les faits à l'appui de la chirurgie accélérée, le rôle de l'anesthésiste pendant et après l'opération, et les résultats obtenus à l'aide des protocoles de chirurgie accélérée.

Chaired by: A. Okrainec, Toronto

- 1530** What works, what doesn't – A review of the evidence: *M.A. Aarts*, University of Toronto, Toronto
- 1545** The anaesthetist's role: *N. Siddiqui*, University of Toronto, Toronto
- 1600** Does any of this make a difference?: *L.S. Feldman*, McGill University, Montréal
- 1615** Discussion: *A. Okrainec*, University of Toronto, Toronto
- 

**1530-1630** (*Salon E, Main Level, London Convention Centre*)

**CAGS Community Surgery Symposium: Unemployment/Underemployment in general surgery – The elephant in the room?**

**Learning objectives:** The session is designed for general surgeons and residents. At the end of the session, participants will have a better understanding of the employment situation and prospects of recent Canadian FRCS General Surgery Program graduates. The research presented will provide a snapshot of what employment graduates obtain after the FRCSC exam and after additional fellowship training. It also informs where graduates disperse to after fellowship.

**Symposium de l'ACCG de chirurgie dans des milieux communautaires : Chômage et sous-emploi en chirurgie – L'évidence?**

**Objectifs d'apprentissage :** La session s'adresse aux chirurgiens généralistes et aux résidents. Au terme de la session, les participants comprendront mieux la situation de l'emploi ainsi que les perspectives des récents diplômés du programme canadien en chirurgie générale FRCS. Les recherches présentées donneront un aperçu de ce que les diplômés obtiennent après l'examen pour l'attribution du titre FRCSC et le stage de perfectionnement supplémentaire. Elles préciseront aussi les secteurs où se dirigent les diplômés après le stage.

Chaired by: C.J. Decker, Orillia

- 1600** Are we training too many surgeons?: *C. Vinden*, University of Western Ontario, London Health Sciences Centre, London
- 

**1530-1630** (*Theatre, Main Level, London Convention Centre*)

**CAGS/CHPBS Symposium: The current management of pancreatic cancer**

**Learning objectives:** The session is designed for general surgeons as well as specialists in pancreatic surgical oncology. At the end of the session, participants will be aware of the current evidence and standards in the management of pancreatic cancer.

**Symposium de l'ACCG et de la CHPBS : Les méthodes actuelles de traitement du cancer du pancréas**

**Objectifs d'apprentissage :** Cette session est destinée aux chirurgiens généralistes et aux spécialistes de la chirurgie pancréatique oncologique. Les participants seront informés des données probantes et des normes actuelles dans le traitement du cancer du pancréas.

**Réunion du Comité de direction du FCC et du Comité du programme du FCC**

---

**0930-1230** (*Prince of Wales, 3<sup>rd</sup> Floor, Hilton London*)

**CAGS Self-assessment Exam (written) (additional fee required)**

**Examen d'auto-évaluation de l'ACCG (écrit) (frais d'inscription supplémentaires)**

## **CSCRS Induction of 2011 Honorary Member**

*(held in conjunction with the CSCRS Annual Business Meeting)*

## **Présentation du membre honoraire 2011 de la SCCCCR**

*(en parallèle avec la réunion d'affaires annuelle de la SCCCCR)*

**Friday, September 16, 2011 at 1430**

*(Salon B, Main Level, London Convention Centre)*

### ***Thomas McLarty, M.D., FRCSC***

Dr. Tom McLarty was born in 1925. When he started school, he was left handed but was forced to learn to use his right hand. Prior to entering medical school, Tom served in the RCAF for two years. He then returned to London and graduated from the Faculty of Medicine at the University of Western Ontario in 1952. He interned at Victoria Hospital in London and completed his training under Dr. Angus McLaughlin in 1958. The following two years brought Tom to St. Mark's Hospital in London, UK and to the Lahey Clinic in Boston under the guidance of Dr. Cattel.

In 1960, he returned to the UWO Department of Surgery and worked as a general surgeon with a large staff service at Victoria Hospital. In 1964, he was appointed Chief of Surgery at Westminster Hospital, DVA where he was given a full inventory of endoscopic instruments. He later returned to Victoria Hospital to operate a GI and Colorectal Service. This included repeated educational trips to Hong Kong, England and Duke University primarily to focus on endoscopic surgical procedures. Tom retired in 1997.

During his busy surgical career, Tom maintained an interest in cash crop farming that began when he maintained a small farm operation for his father during his student years. This enterprise has grown into a large operation now owned by his son John in Kincardine, ON. Tom enjoys spending time at the family cottage south of Kincardine and is an active member of First St. Andrew's United Church in London. He plans to return to Kincardine to be with his son and family.

Tom was married to Mary for 60 years and she was very supportive of his career and was well-loved by the nursing staff. They had four children, Kate (Toronto), John (Kincardine), Jane (deceased in 1991), and Sarah (Menlo Park, CA).

---

### ***Visit the Exhibits!***

*Kick off your Canadian Surgery Forum experience in the Exhibit Hall on Thursday evening at the Welcoming Reception beginning at 1800. Visit the exhibits again on Friday and Saturday to see what's new and enjoy complimentary refreshments and lunch. Show your support of these important Canadian Surgery Forum sponsors and enter to win prizes! The Exhibit Hall is located in Ballroom 1/2/7/8 at the London Convention Centre.*

**CAGS Induction of 2011 Honorary Members**  
(held in conjunction with the CAGS Annual Business Meeting)  
**Présentation des membres honoraires 2011 de l'ACCG**  
(en parallèle avec la réunion d'affaires annuelle de l'ACCG)  
**Saturday, September 17, 2011 at 1630**  
(Ballroom 4/5, Level 2, London Convention Centre)

***David Girvan, M.D., M.Cl.Sc. (Surgery), FRCSC***

Graduate of the University of Western Ontario, M.D. (1966), M.Cl.Sc. (Surgery); Internship at University of Alberta Hospital, Edmonton; General Surgical Residency at the University of Western Ontario followed by a year at the Royal Postgraduate Medical School and Hammersmith Hospital, London, England; Pediatric General Surgical Residency at the Hospital for Sick Children, Toronto. Returned to London in 1974 on the full-time Academic staff at Victoria Hospital and Children's Hospital, London Health Sciences Centre. Practiced as an adult general surgeon and pediatric general surgeon. Professor in the Department of Surgery and Department of Pediatrics.

Chair/Chief Division of Pediatric Surgery (1984-2005); President Canadian Association of Pediatric Surgeons; Inspector of Internship programs for CPSO (1979-1983); Examiner in General Surgery for Royal College (1979-1987); Provincial Advisor and Member CMPA (1986-1996); Section Editor *Canadian Journal of Surgery* (1995-2009); Medical Advisor for CIHI; Glen Sawyer Service Award, Ontario Medical Association.

***Dr. Ronald L. Holliday, M.D., FRCSC, FACS***

Dr. Ronald Holliday graduated from the Faculty of Medicine at the University of Western Ontario in 1966. After interning at the University Hospital in Edmonton, he spent a year at the University of Toronto doing research. He completed his surgical training under Dr. Angus McLachlin in London, Ontario in 1971. He did postgraduate training in Shock & Trauma in Dallas, Texas mentored by Dr. Tom Shires.

In July 1973, he started a practice in general surgery at the London Health Science Centre, Victoria Hospital, London where he remained for 37 years. His practice included trauma, intensive care, general surgery, endocrine and breast surgery. He was the founding member of the Trauma Association of Canada and the Critical Care Society. He spent 13 years on the Royal College Examination Committee for General Surgery, four years as Chair. Since 2008, he has worked as the Executive Director of the Test Committee of the Canadian Association of General Surgeons. He had an extensive teaching career with both undergrad and postgraduate students.

Ron retired from an active general surgical practice in 2010. He is presently Professor Emeritus, Department of Surgery, University of Western Ontario. With retirement came the chance to do volunteer work. He is presently on the Boards of Stratford Summer Music, the London Convention Centre, and the Museum London Foundation.

He is married to Susan and had four children, daughter Megan deceased in 1993. Three sons presently live in Vancouver, BC.

## **2011 Partners**

The Canadian Surgery Forum Steering Committee acknowledges and thanks the following organizations for their support of the 2011 Forum:

### **Platinum Partners**

*Covidien  
ETHICON and Ethicon Endo-Surgery,  
units of Johnson & Johnson Medical Companies,  
a division of Johnson & Johnson Inc.  
Merck*

### **Gold Partners**

*Olympus Canada Inc.  
Stryker Canada*

### **Silver Partner**

*Bayer HealthCare Pharmaceuticals*

### **Supporters**

*SonoSite Canada Inc.  
Steinberg-Bernstein Centre for Minimally Invasive Surgery and Innovation, McGill University*

## **2011 Exhibitors**

Please refer to the Passport to the Exhibits for exhibitor listings. Passports are available at Registration and in the Exhibit Hall.

## **Partenaires en 2011**

Le Comité de direction du Forum canadien de chirurgie remercie les organisations ci-dessous de leur appui au Forum 2011 :

### **Partenaires du groupe platine**

*Covidien  
ETHICON et Ethicon Endo-Surgery,  
unités de Johnson & Johnson Medical Companies,  
division de Johnson & Johnson Inc.  
Merck*

### **Partenaires du groupe or**

*Olympus Canada Inc.  
Stryker Canada*

### **Partenaire du groupe argent**

*Bayer HealthCare Pharmaceuticals*

### **Parrains**

*Le Centre de chirurgie peu effractive et d'innovation Steinberg-Bernstein, Université McGill  
SonoSite Canada Inc.*

## **Exposants en 2011**

La liste des exposants figure dans le passeport de l'exposition. Vous pouvez vous procurer le passeport au comptoir d'inscription et à la salle des exposants.
