Canadian Surgery FORUM canadien de chirurgie 2012

September 13-16 — du 13 au 16 septembre

Calgary TELUS Convention Centre/Hyatt Regency Calgary

Major Participating Societies

Canadian Association of General Surgeons (CAGS)
Canadian Society of Colon and Rectal Surgeons (CSCRS)
Canadian Association of Thoracic Surgeons (CATS)
Canadian Society of Surgical Oncology (CSSO)

Other Participating Societies

Alberta Association of General Surgeons (AAGS)
American College of Surgeons (ACS)
Canadian Association of Bariatric Physicians and Surgeons (CABPS)
Canadian Association of University Surgeons (CAUS)
Canadian Hepato-Pancreato-Biliary Association (CHPBA)
Canadian Undergraduate Surgical Education Committee (CUSEC)
James IV Association of Surgeons (James IV)
Trauma Association of Canada (TAC)

Target Audience

The Canadian Surgery Forum is intended for community and academic surgeons, residents in training, researchers, surgical and operating room nurses, surgical Fellows and medical students.

Objectives

The 2012 Canadian Surgery Forum will bring together participating surgical societies, providing accredited continuing professional development, and the opportunity for dialogue on educational and research issues. Scientific and educational sessions will be offered through interactive symposia, panel discussions, postgraduate courses, and a self-assessment examination. Business meetings will deal with individual society matters and issues of concern to the practising Canadian surgeon.

Registrants will have the opportunity to (depending on sessions attended):

- Learn about the common surgical procedures used to treat obesity;
- Improve their practical knowledge and skills in medical education;
- Review the current management of frequent problems seen in daily practice;
- Obtain hands-on exposure to ultrasound of the neck, breast, chest, abdomen and an introduction to interventional procedures;
- Review the management of the malignant polyp and the principles of rectal cancer surgery;
- Discuss the principles of managing anastomotic failure and intraoperative complications;
- Describe the advances in the treatment of hernias and abdominal wall reconstruction including operative strategies, tips and tricks, and how to avoid and manage complications;
- Debate current issues of importance to Canadian general surgeons;
- Determine if post-residency training is required for the transition to community practice in general surgery;
- Debate the controversies in endoscopy and robotics;
- Hear about new frontiers in bariatric surgery;
- Debate controversies in thoracic surgery;
- Evaluate recent updates on trauma surgery;
- Participate in debates on controversial issues in HPB surgery relevant to the general surgeon;
- Compile a list of timely issues facing surgeons;
- Reflect on the seasons of the surgeon from start-up to retirement;
- Participate in a “Breakfast with the Professor” session;
- Take part in “Surgical Jeopardy”;
- Directly interact with and question researchers at the poster and paper presentations;
- See and listen to the distinguished list of invited lecturers and visiting speakers: Kenneth A. Harris, Kelly K. Hunt, William R. Jarnagin, Paul Kortan, Lorraine LeGrand Westfall, James Luketich, Robert D. Madoff, Dean J. Mikami, Raj Padwal, Tien Phan, Richard K. Reznick, Michael Rosen, Charles H. Tator, Walley J. Temple, Marc Webster.

There will also be multiple other dedicated time slots covering colorectal surgery, thoracic surgery and surgical oncology.

Continued from page 2

Abstracts

For free communications (paper and poster) sessions, abstract numbers appear to the left of the titles of the various papers and posters being presented. These numbers refer to the number of the abstract that appears in *The Canadian Journal of Surgery*, Volume 55, Supplement, August 2012. Copies are available at registration. For an electronic version, please contact sleblanc@cags-accg.ca

CSF Mobile App

This year, CSF Attendees will be able to download the 2012 CSF App for free. This App will be available for download the first week of September and will have the following functionality: customizable CSF agenda; easy-to-read program in the palm of your hand; electronic session evaluations; list of invited speakers; list of abstracts; schedule of events and much, much more.

Continuing Professional Development

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, approved by the Canadian Association of General Surgeons.

CSF Presidents' Gala

This year, the 2012 Presidents' Gala will be held at one of the newest and most unique venues in Calgary. The TELUS Spark Science Centre is Canada's first new science centre in 25 years. It is designed as a place to stimulate the creative and inquisitive spark in all of us. It is eco-friendly using captured rain water for waste management, radiant heating panels in the floors and ceilings and lighting control panels sensitive to occupancy. It features a high definition digital dome theater, and permanent interactive exhibits on the human body, the environment and energy and innovation. On Saturday September 15 at 1900, guests will be welcomed to a spectacular eco-friendly environment where they will enjoy a cocktail reception and delicious dinner.

Join the Presidents of the CSF participating societies, special guest lecturers and colleagues at this event to celebrate the closing night of the 2012 conference. Ensure your place at this exclusive evening by ordering your tickets now using the registration form. Space is limited and we expect tickets to sell out well in advance of the Forum. This is the year to purchase additional tickets and invite your residents to join you for the 2012 CSF closing event. Tickets: \$150.

Dress: Business/casual attire

Disclosure

Before their presentation, all speakers will disclose the existence of any financial interest or other relationships they might have with the manufacturer or any commercial product to be discussed during their presentation (honoraria/expenses, grants, consultant role, speaker's bureau relationship, stock ownership, or any other special relationships).

Social Program

Drop by the Registration area, Calgary TELUS Convention Centre for information on the CSF 2012 Social Program, local attractions, tours, restaurants, shopping and other activities in and around Calgary. The Hospitality Desk will be staffed Thursday to Saturday from 0930-1400.

Speaker Ready Room

The speaker ready room is located in the Glen 205, Upper Level, South Building, Calgary TELUS Convention Centre.

FLS Testing

FLS Testing is now offered at the 2012 CSF on September 14-15, 2012 in Calgary! For more information regarding the FLS testing at CSF, please visit go to <http://www.flspogram.org/news/fls-testing-available-at-the-cags-canadian-surgery-forum-september-14-15-2012-in-calgary/> or contact Inga Brissman at inga@flspogram.org

Visit the Exhibits!

Kick off your Canadian Surgery Forum experience in the Exhibit Hall on Thursday evening at the Welcoming Reception beginning at 1800. Visit the exhibits again on Friday and Saturday to see what's new and enjoy complimentary refreshments and lunch. Show your support of these important Canadian Surgery Forum sponsors and enter to win prizes! The Exhibit Hall is located in Exhibit Hall C, Upper Level, North Building, Calgary TELUS Convention Centre.

Posters

They can be viewed in Exhibit Hall D, Upper Level, North Building, Calgary TELUS Convention Centre on Friday and Saturday.

Canadian Surgery FORUM canadien de chirurgie 2012

September 13-16 — du 13 au 16 septembre

Calgary TELUS Convention Centre/Hyatt Regency Calgary

Principales sociétés participantes

Association canadienne des chirurgiens généraux (ACCG)

Société canadienne des chirurgiens du côlon et du rectum (SCCCR)

Association canadienne des chirurgiens thoraciques (ACCT)

Société canadienne d'oncologie chirurgicale (SCOC)

Autres sociétés participantes

Alberta Association of General Surgeons (AAGS)

American College of Surgeons (ACS)

Association canadienne des médecins et chirurgiens bariatriques (ACMBC)

Canadian Association of University Surgeons (CAUS)

Canadian Hepato-Pancreato-Biliary Association (CHPBA)

Canadian Undergraduate Surgical Education Committee (CUSEC)

James IV Association of Surgeons (James IV)

Association canadienne de traumatologie (ACT)

Auditoire cible

Le Forum canadien de chirurgie s'adresse aux chirurgiens des milieux communautaires et universitaires, aux résidents en chirurgie, aux chercheurs, aux infirmiers à l'unité de chirurgie ou à la salle d'opération, aux Associés de chirurgie et aux étudiants en médecine.

Objectifs

Tribune qui rassemble les sociétés de chirurgie participantes, le Forum canadien de chirurgie 2012 propose des sessions de développement professionnel continu agréées et l'occasion d'échanger des idées sur des sujets ayant trait à l'éducation et à la recherche. Les sessions scientifiques et éducatives prendront la forme de symposiums, de débats d'experts, de cours postdoctoraux marqués au coin de l'interactivité, et d'un examen d'auto-évaluation. Les questions particulières des sociétés participantes et les sujets d'intérêt pour le chirurgien canadien en pratique active seront abordés pendant les réunions administratives.

En fonction des sessions auxquelles elles assistent, les personnes inscrites auront la possibilité de :

- Apprendre davantage sur les procédures chirurgicales communes utilisées pour traiter l'obésité;
- Améliorer leurs connaissances pratiques et compétences en matière d'éducation médicale;
- Revoir les mesures actuelles de la gestion des problèmes fréquents en pratique quotidienne;
- Profiter d'une exposition pratique à l'échographie du cou, du sein, du thorax et de l'abdomen ainsi que d'une introduction aux procédures interventionnelles;
- Revoir la prise en charge du polype malin et l'analyse des principes de la chirurgie pour un cancer du rectum;
- Discuter des principes de la prise en charge de la fuite anastomotique et des principes de la gestion des complications peropératoires;
- Décrire les progrès récents dans le traitement des hernies et la reconstruction de la paroi abdominale, dont des stratégies opératoires, des conseils et des trucs, ainsi que comment éviter et gérer les complications;
- Participer à des débats sur des sujets d'importance pour les chirurgiens généraux canadiens;
- Déterminer si une formation après la résidence est nécessaire pour la transition à la pratique communautaire en chirurgie générale;
- Débattre les controverses en endoscopie et robotique;
- S'informer au sujet des nouvelles frontières en chirurgie bariatrique;
- Discuter des controverses propres à la chirurgie thoracique;
- Évaluer les récentes avancées en chirurgie traumatologique;
- Participer à des débats sur des enjeux controversés liés à la chirurgie hépatobiliare et pancréatique qui s'avèrent pertinents pour les chirurgiens généraux;
- Compiler une liste des enjeux d'actualité qui confrontent les chirurgiens;
- Refléter sur les saisons du chirurgien à partir du démarrage de la pratique jusqu'à la retraite;
- Participer au « petit-déjeuner avec le professeur »;
- Participer au « péril chirurgical » (*Surgical Jeopardy*);
- Poser des questions aux chercheurs après leur exposé ou à la séance de communications affichées;
- Assister à la conférence des éminents conférenciers invités, dont : Kenneth A. Harris, Kelly K. Hunt, William R. Jarnagin, Paul Kortan, Lorraine LeGrand Westfall, James Luketich, Robert D. Madoff, Dean J. Mikami, Raj Padwal, Tien Phan, Richard K. Reznick, Michael Rosen, Charles H. Tator, Walley J. Temple, Marc Webster.

Plusieurs sessions sont également prévues dans les domaines de la chirurgie colorectale, de la chirurgie thoracique, et de la chirurgie oncologique.

Résumés

Pour les communications libres (communications ou séances d'affichage), les numéros des résumés apparaissent à gauche de tous les documents soumis. Ces numéros correspondent à ceux publiés dans *Le Journal canadien de chirurgie*, Tome !!!, supplément, août 2012. Des exemplaires des résumés sont à votre disposition à l'inscription.

App mobile du FCC

Cette année, les participants du FCC pourront télécharger gratuitement l'app mobile du FCC 2012. Cette app sera disponible au téléchargement la première semaine de septembre et aura les fonctionnalités suivantes : agenda personnalisable du FCC; programme facile à lire dans la paume de votre main; évaluation électronique des sessions; liste des conférenciers invités; liste des résumés; horaire des événements et beaucoup plus.

Développement professionnel continu

Cet événement, approuvé par l'Association canadienne des chirurgiens généraux, est une activité de formation collective agréée au titre de la section 1 conformément aux critères du programme de Maintien du certificat du Collège royal des médecins et chirurgiens du Canada.

Gala des présidents du FCC

Cette année, le Gala des présidents 2012 aura lieu dans un des lieux les plus neufs et les plus uniques à Calgary. Le *TELUS Spark Science Centre* est le premier nouveau centre des sciences à voir le jour au Canada depuis 25 ans. Conçu comme un endroit pour stimuler l'étincelle de créativité et de curiosité en chacun de nous, il est respectueux de l'environnement, utilisant les eaux pluviales récupérées pour la gestion des déchets, des panneaux de chauffage par rayonnement dans les planchers et les plafonds, ainsi que des tableaux de contrôle d'éclairage munis de capteurs d'occupation. Il renferme une salle de cinéma numérique HD de type dôme et des expositions interactives permanentes portant sur le corps humain, l'environnement ainsi que l'énergie et l'innovation. Le samedi 15 septembre à 1900, les invités seront accueillis dans un milieu spectaculaire pour une réception cocktail et un excellent repas.

Venez-vous joindre aux présidents des sociétés participantes du FCC, aux conférenciers invités et à vos collègues pour célébrer la clôture de la conférence de 2012. Réservez votre place pour cette soirée exclusive en commandant vos billets maintenant au moyen du formulaire d'inscription. Le nombre de places est limité, et nous nous attendons à ce que les billets s'envolent tous bien avant la tenue du Forum. C'est l'occasion cette année d'acheter des billets supplémentaires pour inviter vos résidents à vous accompagner à la fête de clôture du FCC 2012 ! Billets : 150 \$.

Tenue vestimentaire : d'affaires ou de ville

Divulgation

Avant de commencer leur présentation, les conférenciers divulgueront l'existence de tout intérêt financier ou de tout autre rapport avec le manufacturier de tout produit commercial qui fera l'objet de la présentation (honoraires, dépenses, bourses, rôle d'expert-conseil, bureau des conférenciers, actionnaire ou tout autre genre de relation).

Programme des activités sociales

Rendez-vous à l'aire d'inscription au *Calgary TELUS Convention Centre* pour obtenir de l'information sur le programme social 2012 du FCC, attractions, les excursions, les restaurants, le magasinage et d'autres activités à Calgary et dans les environs. Le kiosque hospitalité sera ouvert du jeudi au samedi de 0930 à 1400.

Salle de préparation pour conférenciers

La salle de préparation est située dans le *Glen 205, Upper Level, South Building du Calgary TELUS Convention Centre*.

Examen de FLS

Vous pouvez maintenant prendre l'examen de FLS au FCC 2012 les 14 et 15 septembre prochain à Calgary! Pour plus d'informations concernant l'examen de FLS au FCC, veuillez visiter le <http://www.flspogram.org/news/fls-testing-available-at-the-cags-canadian-surgery-forum-september-14-15-2012-in-calgary/> ou communiquer avec Inga Brissman à inga@flspogram.org

Les exposants vous attendent !

Donnez le coup d'envoi à votre Forum canadien de chirurgie en parcourant le salon des exposants le jeudi en soirée à la réception d'accueil à compter de 1800. Vendredi et samedi, venez déambuler au salon des exposants pour découvrir des nouveautés et profiter des rafraîchissements et du déjeuner qui vous seront offerts ! Manifestez votre appui à l'égard de ces commanditaires importants du Forum canadien de chirurgie et courez la chance de gagner des prix. Le salon des exposants est situé dans le Exhibit Hall C, Upper Level, North Building, Calgary TELUS Convention Centre.

Communications par affiches

Les communications par affiches seront affichées dans le Exhibit Hall D, Upper Level, North Building, Calgary TELUS Convention Centre le vendredi et le samedi.

0745-1630 (Glen 203-204, Upper Level, South Building, Calgary TELUS Convention Centre)

CAGS/CSSO Postgraduate Course: Ultrasound for the general surgeon (additional fee required)

Description: The one-day course is designed for general surgeons and surgical trainees. The use of ultrasound by surgeons to aid in the diagnosis of surgical conditions has had limited uptake in Canada. Using Canadian faculty, we will offer an ultrasound course based on the curriculum of the American College of Surgeons (ACS) ULTRASOUND FOR RESIDENTS course. The course is designed as an introduction to the use of this important diagnostic tool. As per the ACS curriculum, the course will include didactic sessions on the technology, diagnostic techniques and clinical applications of current ultrasound machines. The session will involve practical stations to demonstrate and provide hands-on exposure for ultrasound of the neck, breast, chest, abdomen and an introduction to interventional procedures and access procedures. Each participant will receive a SKILLS COMPANION CD with course registration. We would like to thank the American College of Surgeons for allowing us to use their curriculum to provide this course.

Learning objectives:

- Describe fundamental ultrasound technology;
- Discuss how ultrasound might be used to aid in the diagnosis of surgical conditions;
- Acquire sufficient exposure to this technological aid to decide if, and how it might be integrated in their general surgical practices and whether they would wish to pursue more focused training in the use of ultrasound by the surgeon.

Cours postdoctoral de l'ACCG et de la SCOC : Échographie pour le chirurgien général (frais d'inscription supplémentaires)

Description : Le cours d'une demi-journée s'adresse aux chirurgiens généraux et aux stagiaires en chirurgie. Au Canada, le recours à l'échographie par les chirurgiens pour faciliter le diagnostic de conditions chirurgicales a fait l'objet d'une acceptation limitée. Des membres du corps professoral d'une faculté de médecine canadienne donneront le cours Échographie pour le chirurgien général basé sur le programme d'études de l'*American College of Surgeons (ACS)*. Le cours est conçu comme une introduction à l'utilisation de cet outil de diagnostic important. Selon le curriculum de l'*ACS*, le cours comprend des sessions didactiques sur la technologie, les techniques de diagnostic, ainsi que les applications cliniques des appareils à ultrasons actuels. Les sessions prévoient des stations pratiques aux fins de démonstration et d'exposition interactive à l'échographie du cou, du sein, du thorax et de l'abdomen et il présente une introduction aux procédures interventionnelles et aux procédures d'accès. Chaque participant recevra un CD « *SKILLS COMPANION* » avec une inscription au cours. Nous tenons à remercier l'*American College of Surgeons* pour nous permettre d'utiliser le programme d'études pour donner ce cours.

Objectifs d'apprentissage :

- Décrire le fondement de la technologie échographique;
- Discuter comment l'échographie peut être utilisée pour faciliter le diagnostic de conditions chirurgicales;
- Acquérir suffisamment d'exposition à cet outil technologique pour décider si et comment il pourrait être intégré à leur pratique de chirurgie générale et s'ils souhaitent entreprendre une formation davantage ciblée en matière d'utilisation de l'échographie par le chirurgien.

Course director: A. McFadden, Vancouver

Thursday, September 13 / Le jeudi 13 septembre

0755-1200 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

CAGS Postgraduate Course: A bariatric primer for general surgeons (additional fee required)

Description: Bariatric surgical procedures are increasingly being performed across Canada. The half-day course is designed for practising surgeons, residents and other health care professionals who are interested in learning more about the common surgical procedures used to treat obesity. The format for this interactive course will include presentations with case-based scenarios, interactive touchpads, videos, panel discussions and debates. The focus will be on who should be considered for surgery, the basic surgical procedures commonly offered, and the complications encountered by surgeons postoperatively and how to manage them.

Learning objectives:

- List the indications for bariatric surgery;
- Describe the most common bariatric surgical procedures;
- Identify the most common early and late postoperative complications following bariatric surgery;
- Explain the advantages of certain procedures in the treatment of type 2 diabetes.

Cours postdoctoral sur la chirurgie à effraction minimale de l'ACCG : Introduction à la chirurgie bariatrique à l'intention des chirurgiens généraux (frais d'inscription supplémentaires)

Description : Les interventions chirurgicales bariatriques sont effectuées en plus grand nombre partout au Canada. Le cours d'une demi-journée s'adresse aux chirurgiens en pratique active, aux résidents et aux autres professionnels de la santé qui sont intéressés à en apprendre davantage sur les procédures chirurgicales communes utilisées pour traiter l'obésité. Le format de ce cours interactif inclut des présentations avec des scénarios de cas, un système automatisé de répondeur à clavier, des vidéos, un débat d'experts et des discussions. L'accent portera sur qui devrait être considéré pour une chirurgie, les interventions chirurgicales de base couramment offertes, les complications postopératoires encourues par les chirurgiens et leur prise en charge.

Objectifs d'apprentissage :

- Énumérer les indications pour une chirurgie bariatrique;
- Décrire les interventions chirurgicales bariatriques les plus courantes;
- Identifier les complications postopératoires précoces et tardives les plus courantes après une chirurgie bariatrique;
- Expliquer les avantages de certaines interventions liées au traitement du diabète de type 2.

0700 Registration and continental breakfast

Course moderators: J. Ellsmere, Halifax; S. Karmali, Edmonton; A. Okrainec, Toronto

0755 Welcome and opening remarks: A. Okrainec, University of Toronto, Toronto

Bariatric surgery – Back to basics

Moderator: S. Karmali, Edmonton

0800 The current state of bariatric surgery in Canada: M. Anvari, McMaster University, Hamilton

0815 Choosing the right patient for the right operation: *R. Padwal, University of Alberta, Edmonton*

The operations – How I do it – Videos in 10 minutes or less

0830 Laparoscopic Roux-en-Y gastric bypass: *D.J. Mikami, Ohio State University, Columbus, OH*

0840 Laparoscopic adjustable gastric band: D. Hong, McMaster University, Hamilton

0850 Laparoscopic sleeve gastrectomy: T. Grantcharov, University of Toronto, Toronto

0900 Duodenal switch: O. Court, McGill University, Montréal

0910 Panel discussion

0940 Refreshment break

Bariatric challenges and complications

Moderator: J. Ellsmere, Halifax

1005 Early postoperative complications – Getting out of trouble: T. Jackson, University Health Network, Toronto

1017 There's a bariatric patient in my E.R. – How to assess and manage late complications: S. Karmali, University of Alberta, Edmonton

1029 Endoscopic management of bariatric complications – Is there a role?: J. Ellsmere, Dalhousie University, Halifax

1041 Managing failures from the past – VBG and other bariatric procedures: J. Hagen, University of Toronto, Toronto

1053 Panel discussion

Bariatric debate – The best operation for type 2 diabetes is Roux-en-Y gastric bypass

Moderator: A. Okrainec, Toronto

1115 For: D.R. Urbach, University of Toronto, Toronto

1125 Against: D.W. Birch, University of Alberta, Edmonton

1135 Rebuttals and discussion

1200 Lunch

A computerized audience response system will be used during the course. / Un système automatisé de répondeur à clavier sera utilisé durant le cours.

The "Bariatric Primer for General Surgeons" is an educational session which is accredited by the Royal College guidelines and standards at the Canadian Surgery Forum. Its content was developed entirely by CAGS faculty and is free from any commercial bias. The 2012 CAGS Bariatric PG course was co-developed with the Canadian Association of General Surgeons and Ethicon Endo-Surgery and was planned to achieve scientific integrity objectivity and balance.

Ethicon Endo-Surgery is a unit of Johnson & Johnson Medical Products, a division of Johnson & Johnson, Inc.

Thursday, September 13 / Le jeudi 13 septembre

0800-1230 (Glen 206, Upper Level, South Building, Calgary TELUS Convention Centre)

CATS Postgraduate Course: How to be a better educator in and out of the OR (additional fee required)

Description: The half-day course is designed for thoracic surgeons who wish to improve their practical knowledge and skills in medical education. The interactive course on medical education will offer practical tips to thoracic surgeons for teaching procedural skills and providing effective feedback to learners. The use of simulators and digital technology tools in improving teaching effectiveness will also be explored. The course will also characterize the four generational cohorts and generational differences that can influence learning and working. Finally, the concept of a competency-based thoracic surgery training model will be discussed.

Learning objectives:

- Apply a model for teaching procedural skills;
- Understand the pros and cons of competency-based medical education;
- Summarize the rationale for simulation in medical education and how simulators can be used in thoracic surgery training;
- Comprehend the forces that shape generational worldviews and identify generational differences that affect teaching, learning and working relationships;
- Use strategies that help surgeons to benefit from generational diversity in the workplace;
- Describe tools for effectively teaching with digital technology;
- Recognize the key elements for providing effective feedback and be aware of effective feedback models.

Cours postdoctoral de l'ACCT : Comment être un meilleur éducateur dans et hors de la salle d'opération (frais d'inscription supplémentaires)

Description : Le cours d'une demi-journée s'adresse aux chirurgiens thoraciques qui désirent améliorer leurs connaissances pratiques et compétences en matière d'éducation médicale. Le cours interactif sur l'éducation médicale offrira aux chirurgiens thoraciques des conseils pratiques pour enseigner les habiletés techniques et fournir une rétroaction efficace aux apprenants. Le recours aux simulateurs et aux outils de technologie numérique en vue d'améliorer l'efficacité de l'enseignement sera exploré. Le cours caractérisera également les quatre cohortes générations et les différences générations qui peuvent influer sur l'apprentissage et le travail. Enfin, la notion d'un modèle de formation axé sur les compétences en chirurgie thoracique sera discutée.

Objectifs d'apprentissage :

- Appliquer un modèle pour l'enseignement des habiletés techniques;
- Comprendre les pour et les contre d'une éducation médicale axée sur les compétences;
- Résumer la justification de la simulation en éducation médicale et comment les simulateurs peuvent être utilisés dans le cadre de la formation en chirurgie thoracique;
- Comprendre les forces qui façonnent les visions du monde propres aux différentes générations et identifier les différences générations qui influent sur l'enseignement, l'apprentissage et les relations de travail;
- Utiliser des stratégies qui aident les chirurgiens à tirer profit de la diversité générations dans le milieu de travail;
- Décrire les outils pour enseigner efficacement avec la technologie numérique;
- Reconnaître les éléments clés d'une rétroaction efficace et connaître les modèles de rétroaction efficace.

0700 Registration and continental breakfast

Course director: S.C. Grondin, Calgary

0800 Welcome and introduction: S.C. Grondin, University of Calgary, Calgary

0810 Teaching procedural skills in difficult environments: I. Walker, University of Calgary, Calgary

0900 Should thoracic surgery switch to competency-based medical education?: S.C. Grondin, University of Calgary, Calgary

0930 Teaching with simulation – What's new in thoracic surgery?: D. Fortin, University of Western Ontario, London

1000 Questions and refreshment break

1030 Minding the gap – Understanding generational differences in medical education: H. Delver, University of Calgary, Calgary

1115 E-learning – Tips for using digital technology: C. Schieman, McMaster University, Hamilton

1130 Giving effective feedback: C. Sivakumar, University of Calgary, Calgary

1215 Questions and wrap-up: S.C. Grondin, University of Calgary, Calgary

1230 Lunch

0800-1600 (MacLeod Hall D, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Postgraduate Course: General surgery review (additional fee required)

Description: The one-day course is designed for practising surgeons looking for a broad-based up-to-date CME experience. Each year on the occasion of the Canadian Surgery Forum (CSF), a one-day review will take place on a regular basis to update practising general surgeons in the current management of frequent problems seen in daily practice. It will be a cycle of topics that will repeat every four years in order to cover the very extensive scope of general surgery. The format for the interactive course will include presentations from expert faculty with case-based scenarios and open discussion. Participants are encouraged to bring cases to be discussed.

Learning objectives:

- Review the current evidence-based management of common general surgical diseases;
- Consolidate your knowledge across a spectrum of selected topics in general surgery.

Continued on page 15

Thursday, September 13 / Le jeudi 13 septembre

Continued from page 14

Cours postdoctoral de l'ACCG : Revue de la chirurgie générale (frais d'inscription supplémentaires)

Description : Le cours d'une journée s'adresse aux chirurgiens en pratique active à la recherche d'une expérience de FMC actualisée et de portée générale. Chaque année à l'occasion du Forum canadien de chirurgie (FCC), une revue d'une journée aura lieu dans le but de parfaire les connaissances des chirurgiens généraux en pratique active au sujet de la prise en charge actuelle de problèmes courants encourus dans la pratique quotidienne. Le cycle de sujets sera répété tous les quatre ans afin de couvrir la portée très large de la chirurgie générale. Le format du cours interactif inclut des présentations de médecins enseignants experts, des scénarios de cas et une discussion ouverte. Les participants sont encouragés à apporter des cas à discuter.

Objectifs d'apprentissage :

- Passer en revue la prise en charge actuelle, fondée sur des données probantes, des maladies communes relevant du domaine de la chirurgie générale;
- Consolider vos connaissances propres à un large spectre de sujets liés à chirurgie générale.

Course co-directors: O. Court, Montréal; J. Escallon, Toronto

0700	Registration and continental breakfast
0800	Welcome and introductions: J. Escallon, Mount Sinai Hospital, Toronto
0810	Perianal disease: M.J. Burnstein, University of Toronto, Toronto
0855	Pancreatic masses: S.P. Cleary, University of Toronto, Toronto
0940	Benign breast disease: P. Meiers, University of Saskatchewan, Saskatoon
1025	Refreshment break
1055	Melanoma: F. Wright, Sunnybrook Regional Cancer Centre, Toronto
1140	Lunch
1300	Thoracic trauma: P. Fata, McGill University, Montréal

CSCRS Postgraduate Course: (additional fee required)

Part 1 – Update on the management of colorectal cancer

Part 2 – Anastomotic failure and perioperative complications

Description: The one-day course is designed for practising surgeons, residents and other health care professionals involved in the treatment of colorectal disease. The two morning sessions will review the management of the malignant polyp followed by a review of the principles of rectal cancer surgery. The afternoon sessions will review the principles of managing anastomotic failure and the principles of managing intraoperative complications. Each interactive session includes a panel of recognized experts. Using a case-orientated approach, the panel will highlight specific decision points in surgical management through an interactive discussion and active audience participation. In addition to a discussion on the management of each case, short talks will be given by each panelist reviewing the current literature on specific management issues.

Learning objectives:

- Manage malignant rectal polyps;
- Understand the principles of operative surgery for rectal cancer;
- Order and interpret appropriate staging investigations for rectal cancers;
- Select the appropriate use of neoadjuvant and adjuvant therapy;
- Comprehend the sequencing of treatment for stage IV colorectal cancer;
- Understand the risk factors for and the management of anastomotic failure;
- Manage intraoperative complications.

Cours postdoctoral de la SCCC : (frais d'inscription supplémentaires)

Partie 1 – Le point sur la prise en charge du cancer colorectal ;

Partie 2 – Fuite anastomotique et complications périopératoires

Description : Le cours d'une journée s'adresse aux chirurgiens en pratique active, aux résidents et aux autres professionnels de la santé qui sont impliqués dans le traitement des maladies colorectales. Les deux sessions en matinée proposent une revue de la prise en charge du polyte malin suivie d'une analyse des principes de la chirurgie pour un cancer du rectum. Celles en après-midi proposent une revue des principes de la prise en charge de la fuite anastomotique et des principes de la gestion des complications peropératoires. Chacune des sessions interactives prévoit un groupe d'experts reconnus. À l'aide d'une approche par cas, ces derniers feront ressortir des points de décision spécifiques dans la prise en charge chirurgicale par le biais d'une discussion interactive et de la participation active de l'auditoire. Outre la discussion sur la prise en charge de chacun des cas, chaque expert donnera un bref exposé, passant en revue la littérature courante sur des sujets de prise en charge spécifiques.

Objectifs d'apprentissage :

- Prendre en charge les polypes malins du rectum;
- Comprendre les principes de la chirurgie opératoire pour un cancer du rectum;
- Prescrire et interpréter les investigations appropriées visant la classification par stade des cancers du rectum;
- Choisir l'utilisation appropriée des traitements néoadjuvant et adjuvant;
- Comprendre la séquence des traitements d'un cancer colorectal de stade IV;

Continued on page 16

Thursday, September 13 / Le jeudi 13 septembre

Continued from page 15

- Comprendre les facteurs de risque de la fuite anastomotique et sa prise en charge;
- Gérer les complications peropératoires.

0700 Registration and breakfast

Course director: W.D. Buie, Calgary

Part 1 – Update on the management of colorectal cancer — A case-based approach

Session 1a – The malignant polyp

Moderator: A.R. MacLean, Calgary

0800 Colonoscopic techniques: J. Heine, University of Calgary, Calgary

0812 Pathologic reporting: D.S. Fenech, Sunnybrook Health Sciences Centre, Toronto

0824 Issues of staging postpolypectomy: P.H. Colquhoun, University of Western Ontario, London

0836 Observation versus surgery: W.J. Stephen, McMaster University, Hamilton

0848 Transanal excision versus radical excision: H. Moloo, University of Ottawa, Ottawa

Session 1b – Operative considerations in rectal cancer

Moderator: P.T. Phang, Vancouver

0900 Margins – Distal proximal and circumferential: M.J. Burnstein, University of Toronto, Toronto

0915 Nodal clearance high versus low tie, extra mesenteric: J. Park, University of Manitoba, Winnipeg

0930 Laparoscopic versus open resection: H.M. MacRae, Mount Sinai Hospital, Toronto

0945 Reconstructive options: C.J. Brown, St. Paul's Hospital, Vancouver

1000 Refreshment break

Session 2 – Multidisciplinary care of locally advanced rectal cancer

Moderator: M.J. Burnstein, Toronto

1015 Local regional staging: D. Bhayana, University of Calgary, Calgary

1030 Neoadjuvant chemoradiation/radiation: C. Doll, University of Calgary, Calgary

1045 Chemotherapy adjuvant and palliative: S. Dowden, University of Calgary, Calgary

1100 Stage IV disease – Combined hepatic and rectal surgery: E. Dixon, University of Calgary, Calgary

1115 Multivisceral resection: *R.D. Madoff, University of Minnesota, Minneapolis, MN*

1130 Panel discussion: D. Bhayana; C. Doll; S. Dowden; E. Dixon, University of Calgary, Calgary; *R.D. Madoff, University of Minnesota, Minneapolis, MN*

1200 Lunch

Part 2 – Anastomotic failure and perioperative complications

Session 3 – Anastomotic failure

Moderator: W.D. Buie, Calgary

1245 Risk factors and prevention of anastomotic leak: C.S. Richard, Centre hospitalier de l'Université de Montréal, Montréal

1300 Diagnosis of anastomotic leak: B. Yip, University of Manitoba, Winnipeg

1315 Management of anastomotic leak: W. Rosen, University of Calgary, Calgary

1330 Enterocutaneous fistulas: D. Johnson, University of Calgary, Calgary

1345 Chronic pelvic abscess/fistula: Z. Cohen, University of Toronto, Toronto

1400 Panel discussion: Z. Cohen, University of Toronto, Toronto, D. Johnson and W. Rosen, University of Calgary, Calgary; C.S. Richard, Centre hospitalier de l'Université de Montréal, Montréal; B. Yip, University of Manitoba, Winnipeg

1415 Refreshment break

Session 4 – What to do when things go wrong

Moderator: P. M. Johnson, Halifax

1430 Pelvic bleeding: C.S. Yaffe, St. Boniface Hospital, Winnipeg

1445 Anastomotic problems air leak/anastomotic bleeding: R.P. Boushey, University of Ottawa, Ottawa

1500 Its too short! How to get better length: M. Raval, St. Paul's Hospital, Vancouver

1515 Latrogenic colorectal injuries: D.J. Hochman, University of Manitoba, Winnipeg

Panel unexpected findings

Moderator: P.M. Johnson, Halifax

1530 Panel discussion: Z. Cohen, University of Toronto, Toronto; R.S. McLeod, University of Toronto, Toronto; *R.D. Madoff, University of Minnesota, Minneapolis, MN*; P.T. Phang, St. Paul's Hospital, Vancouver; C.S. Yaffe, St. Boniface Hospital, Winnipeg

A computerized audience response system will be used during the course. / Un système automatisé de répondre à clavier sera utilisé durant le cours.

This marks the first time a non-physician organization co-develops an educational session which is accredited by the Royal College guidelines and standards at the Canadian Surgery Forum. Its content was developed entirely by CSCRS faculty and is free from any commercial bias. The 2012 CSCRS PG course was co-developed with the Canadian Association of General Surgeons and Covidien and was planned to achieve scientific integrity, objectivity and balance.

COVIDIEN

Thursday, September 13 / Le jeudi 13 septembre

1300-1700 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

**CAGS Minimally Invasive Surgery Postgraduate Course: Hernias and abdominal wall reconstruction – What's new in 2012
(additional fee required)**

Description: The half-day course is designed for practising surgeons, residents and other health care professionals who manage patients with hernias and other complex abdominal wall problems. The format for this interactive course will include presentations with case-based scenarios, interactive touchpads, videos, and panel discussions. The focus will be on recent advances in the treatment of hernias and abdominal wall reconstruction including operative strategies, tips and tricks, and how to avoid and manage complications.

Learning objectives:

- Define the role of laparoscopy in the management of inguinal hernias;
- Summarize recent advances in mesh used for hernia repair;
- Describe the open and laparoscopic component separation technique for abdominal wall reconstruction;
- Explain strategies for managing the open abdomen;
- Identify strategies for managing hernias in the acute setting.

**Cours postdoctoral sur la chirurgie à effraction minimale de l'ACCG : La hernie et la reconstruction de la paroi abdominale –
Quoi de neuf en 2012? (frais d'inscription supplémentaires)**

Description : Le cours d'une demi-journée s'adresse aux chirurgiens en pratique active, aux résidents et aux autres professionnels de la santé qui traitent des patients ayant une hernie ou un autre problème complexe au niveau de la paroi abdominale. Le format de ce cours interactif inclut des présentations avec des scénarios de cas, un système automatisé de répondeur à clavier, des vidéos et un débat d'experts. L'accent portera sur les progrès récents dans le traitement des hernies et la reconstruction de la paroi abdominale, dont des stratégies opératoires, des conseils et des trucs, ainsi que comment éviter et gérer les complications.

Objectifs d'apprentissage :

- Définir le rôle de la laparoscopie dans la prise en charge des hernies inguinales;
- Résumer les progrès récents au niveau des mèches utilisées pour la réparation de hernie;
- Décrire la technique de « séparation des éléments » par chirurgie ouverte et laparoscopique pour la reconstruction de la paroi abdominale;
- Expliquer les stratégies de prise en charge de l'abdomen ouvert;
- Identifier les stratégies de prise en charge de hernies dans le milieu des soins aigus.

1200 Registration and lunch

Course director: A. Okrainec, Toronto

Hernias 101

Moderator: L.S. Feldman, Montréal

1300 Laparoscopic versus open inguinal hernias – How I decide: S. Bergman, McGill University, Montréal

1312 Managing chronic groin pain following hernia repair: O.N.M. Panton, University of British Columbia, Vancouver

1324 Recent advances in hernia mesh – What you need to know: A. Vergis, University of Manitoba, Winnipeg

1336 Learning laparoscopic hernia repair – Is simulation the solution?: S. Fraser, McGill University, Montréal

1348 Panel discussion

Massive hernias and hostile abdomens

Moderator: S. Bergman, Montréal

1410 Open, laparoscopic, and posterior component separation – Choosing the right approach for the right patient: *M. Rosen, Case Western Reserve University, Cleveland, OH*

1440 Abdominal disasters – A trauma surgeon's tricks for managing the open abdomen: C. Ball, University of Calgary, Calgary

1455 The laparoscopic incisional hernia repair gone wrong — Avoiding and managing complications: L.S. Feldman, McGill University, Montréal

1510 Panel discussion

1530 Refreshment break

Rare and challenging hernias

Moderator: A.T. Meneghetti, Vancouver

1550 Parastomal hernia: A.T. Meneghetti, University of British Columbia, Vancouver

1600 Panniculectomy with abdominal wall reconstruction: *D.J. Mikami, Ohio State University, Columbus, OH*

1610 Obturator hernia: A. Reso, University of Calgary, Calgary

1620 Incarcerated groin hernia

1630 Panel discussion

1655 Evaluation and wrap-up

A computerized audience response system will be used during the course. / Un système automatisé de répondeur à clavier sera utilisé durant le cours.

1400-1700 (MacLeod E-1, Lower Level, South Building, Calgary TELUS Convention Centre)

CAUS Symposium: Surgical competency, including the Charles Tator Annual Lecture

Learning objectives: The session is designed for practising surgeons and surgical trainees. At the end of the session, participants will have gained a greater understanding of competence-based training and education, how provincial regulators evaluate clinical competence and how competence links to experience.

Symposium de la CAUS : Compétences en chirurgie, incluant la présentation annuelle de la Conférence Charles Tator

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et aux stagiaires en chirurgie. Au terme de la session, les participants auront acquis une compréhension plus profonde de la base de formation et d'éducation, comment les organismes de réglementation provinciaux évaluent les compétences cliniques et comment les compétences sont liées à l'expérience.

Chaired by: D. Boone, St. John's

1400 Charles Tator Annual Lecture – Competence by design: *K.A. Harris, Royal College of Physicians and Surgeons of Canada, Ottawa*

1445 Surgical competency – A regulator's perspective: T. Theman, College of Physicians and Surgeons of Alberta, Edmonton

1515 Break

1545 Experience wisdom and competence: C. de Gara, University of Alberta, Edmonton

1615 Panel discussion: D. Boone, Memorial University of Newfoundland, St. John's; C. de Gara, University of Alberta, Edmonton; *K.A. Harris, Royal College of Physicians and Surgeons of Canada, Ottawa*; T. Theman, College of Physicians and Surgeons of Alberta, Edmonton

1800-2000 (Exhibition Hall C, Upper Level, North Building, Calgary TELUS Convention Centre)

CSF Welcoming Reception/Exhibits

Learning objectives: The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will have had an opportunity to network with friends and colleagues; visit the exhibits to see what is new during this opening event.

Réception d'accueil du FCC/Exposition

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants auront l'occasion de réseauter avec des amis et des collègues; visiter les exposants pour découvrir des nouveautés lors de cet événement d'ouverture.

1900-2000 (Exhibition Hall C, Upper Level, North Building, Calgary TELUS Convention Centre)

National Laparoscopic Suturing Competition

Learning objectives: The competition is designed for surgeons in practice, surgical residents, medical students and other health professionals who have an interest in technical skills training. The residents representing programs across Canada will participate in this friendly competition to crown the "Canada's National Champion" in laparoscopic suturing. The competition is designed to promote interest in technical skills training through simulation across Canada.

Concours canadien de suture laparoscopique

Objectifs d'apprentissage : Le concours s'adresse aux chirurgiens en pratique active, aux résidents en chirurgie, aux étudiants en médecine et aux autres professionnels en soins de santé qui s'intéressent à une formation en aptitudes techniques. Des résidents représentatifs de programmes de partout au Canada participeront à ce concours amical afin de couronner un « Champion national du Canada » de la pose de sutures laparoscopiques. Le concours cherche à stimuler de l'intérêt en regard d'une formation en aptitudes techniques par l'entremise de la simulation.

Chaired by: S. Bergman, Montréal

Coordinated by: P. Kaneva, Montréal

Competitors: J. Bailey, Dalhousie University, Halifax; T. Kittmer, McMaster University, Hamilton; D. Ko, University of Alberta, Edmonton; C. Li, McGill University, Montréal; A. Menezes, University of Ottawa, Ottawa; M. Niebergall, Northern Ontario School of Medicine, Thunder Bay; M. Ogaic, University of Saskatchewan, Saskatoon; C. Robertson-More, University of Calgary, Calgary; M. Strickland, University of Toronto, Toronto; M. Tee, University of British Columbia, Vancouver; D. Terterov, Memorial University, St. John's; J. Villamere, Queen's University, Kingston; A. Zhuruk, University of Western Ontario, London

0800-0930 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CSF Welcoming Remarks/CAGS Debates:

- 1. Work hour restrictions for surgical residents and practising surgeons are essential for patient safety**
- 2. Canada should invest more in building capacity in global surgery**

Learning objectives: The session is designed for surgeons, surgical residents, nurses, hospital administrators and all health care workers. At the end of the first debate, participants will be able to identify strengths and ongoing controversies in the scientific literature regarding surgeon fatigue; summarize and compare evolving resident work hour policies, regulations and legislation in Canada and the United States; describe the impact of work hour policy on residency training and surgical practice. At the end of the second debate, participants will be able to describe the global burden of surgical disease; identify disparities in access to surgical care in Canada and around the world; explain the potential costs and benefits of increased access to surgical care both locally and globally.

Mot d'ouverture du FCC/Débats de l'ACCG :

- 1. Restriction des heures de travail des résidents en chirurgie et des chirurgiens en pratique active est essentielle pour la sécurité des patients**

- 2. Le Canada doit investir davantage dans le renforcement des capacités en chirurgie à l'échelle mondiale**

Objectifs d'apprentissage : La session s'adresse aux chirurgiens, aux résidents en chirurgie, aux infirmiers, aux administrateurs d'hôpital et à tous les professionnels de la santé. Au terme du premier débat, les participants seront en mesure d'énumérer les forces et les controverses qui persistent dans la littérature scientifique au sujet de la fatigue chez les chirurgiens; de résumer et comparer les politiques, règlements et lois liés aux heures de travail des résidents, lesquels évoluent au Canada et aux États-Unis; de décrire les répercussions de telles politiques sur la formation des résidents et sur la pratique chirurgicale. Au terme du deuxième débat, les participants seront en mesure de décrire le fardeau mondial des maladies chirurgicales; de déterminer les écarts dans l'accès aux soins chirurgicaux au Canada et dans le monde; d'expliquer les coûts et les avantages éventuels d'un accès accru aux soins chirurgicaux à l'échelle locale et mondiale.

Chaired by: M. Hameed, Vancouver

0810 Introduction: M. Hameed, University of British Columbia, Vancouver

Debate 1 – Work hour restrictions for surgical residents and practising surgeons are essential for patient safety

0815 Pro: S.W. Bloom, Staten Island University Hospital, New York, NY

0825 Con: P. Fata, McGill University, Montréal

0835 Rebuttal and questions

Debate 2 – Canada should invest more in building capacity in global surgery

0850 Pro: G. Ibbotson, Grande Prairie

0900 Con: N. Caron, University of British Columbia, Vancouver

0910 Rebuttal and questions

A computerized audience response system will be used during the debates. / Un système automatisé de répondre à clavier sera utilisé durant les débats.

0815-1030 (Glen 206, Upper Level, South Building, Calgary TELUS Convention Centre)

CATS Welcoming Remarks/Opening Session: Scope of practice (members only)

Learning objectives: The session is designed for all thoracic surgeons and residents. At the end of the session, participants will be able to identify issues related to the scope of practice for thoracic surgeons in Canada.

Mot d'ouverture de l'ACCT/Session d'ouverture de l'ACCT : Portée de la pratique (membres seulement)

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens thoraciques et aux résidents. Au terme de la session, les participants seront en mesure d'identifier les questions liées à la portée de la pratique des chirurgiens thoraciques au Canada.

Chaired by: B. Nelems, Kelowna

0815 Welcoming remarks: D.E. Maziak, University of Ottawa, Ottawa

0830 Leadership beyond the OR: D. Bethune, Dalhousie University, Halifax

0900 Lung screening: R. Vaillancourt, Hôpital Laval, Sainte-Foy

0930 Thoracic standards: S. Sundaresan, The Ottawa Hospital, Ottawa

1000 Medical-legal issues: A. Duranceau, Hôpital Notre-Dame, Montréal

0930-1000 (Exhibition Hall C, Upper Level, North Building, Calgary TELUS Convention Centre)

Refreshment break/Visit the exhibits / Pause rafraîchissements/Visitez l'exposition

1000-1040 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Langer Lecture: Fourteen years to specialization – Can we do it better and faster?

Description: Changes in the healthcare environment have impacted on surgical training in unprecedented ways. Most countries have approached these pressures through minor modifications using current structures. The presenter will argue that we are at a precipice that mandates a dramatic

Continued on page 22

Friday, September 14 / Le vendredi 14 septembre

Continued from page 21

look at fundamental curricular structures to cope with the tsunami of current pressures. He will present data from an experimental model of curricular change and will bring into the discussion similar situations from other professions. He will conclude with some iconoclastic suggestions regarding the continuum of medical education.

Learning objectives: The session is designed for clinicians and educators in the field of surgery. At the end of the session, participants will discuss current tensions that challenge conventional models of resident education; articulate the current shifts in healthcare education curriculum design to a competency-based model; review the role of simulation-based education in an accelerated learning model.

Conférence Langer de l'ACCG : Quatorze années de spécialisation – Pouvons-nous le faire mieux et plus vite?

Description : Les changements dans le milieu des soins de santé ont eu des répercussions sans précédent sur la formation en chirurgie. La plupart des pays ont réagi à ces pressions en apportant des modifications mineures aux structures existantes. Le conférencier avancera l'argument que nous sommes au bord du précipice et qu'une analyse critique des structures fondamentales du curriculum s'impose pour nous permettre de faire face au tsunami des pressions actuelles. Il présentera les données d'un modèle expérimental de modifications au curriculum, alimentant la discussion de situations semblables dans d'autres professions, et terminera avec des suggestions iconoclastes liées au continuum des études médicales.

Objectifs d'apprentissage : La session s'adresse aux cliniciens et aux enseignants dans le domaine de la chirurgie. Au terme de la session, les participants seront en mesure de discuter des tensions actuelles qui remettent en question les modèles conventionnels de formation des résidents; d'exprimer clairement la transition actuelle dans la conception du curriculum d'études en soins de santé vers un modèle axé sur les compétences; de passer en revue le rôle de la formation par la simulation au sein d'un modèle d'apprentissage accéléré.

Chaired by: L.E. Rotstein, Toronto

Speaker: *R.K. Reznick, Queen's University, Kingston*

1040-1120 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

Royal College Gallie Lecture: Generation of the surgeon scientist

Learning objectives: The session is designed for all surgeons in practice and in training, especially for those in leadership positions or who aspire to be in those positions. At the end of the session, participants will have an appreciation of the epidemiology of the surgeon scientist including the desirable personality and intellectual traits, the life cycle, the financial implications, the enemies out there, and the distractions. There will be a greater appreciation of the hazards, and the rewards for the university and the individuals.

Conférence Gallie du Collège royal : La génération des chirurgiens chercheurs

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens en pratique active et en formation, en particulier pour ceux qui sont dans des postes de direction ou qui aspirent à ces postes. Au terme de la session, les participants auront une appréciation de l'épidémiologie des chirurgiens chercheurs dont la personnalité souhaitable et caractéristiques intellectuelles, le cycle de vie, les incidences financières, les ennemis et les distractions. Il y aura une appréciation plus profonde des risques et des récompenses pour l'université et les individus.

Chaired by: R. George, Toronto

Introduced by: J.T. Rutka, Toronto

Speaker: *C. H. Tator, University of Toronto, Toronto*

1120-1200 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Presidential Address: Divided loyalties – Health care and the individual surgeon

Learning objectives: The session is designed for practising surgeons. The focus of the session is to examine conflict between patient responsibility and resource allocation. At the end of the session, the participants will be able to recognize potential areas of conflict between their patient care roles and duties as gate keepers in a system of finite resources. Strategies for assessing the impact of secondary costs in the system will be addressed (including likelihood of benefit, urgency, and quality of life measures).

Allocution du président de l'ACCG : Loyautés divisées – Les soins de santé et le chirurgien individuel

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active. La session sera principalement axée à examiner le conflit entre la responsabilité de patient et l'allocation des ressources. Au terme de la session, les participants seront en mesure de reconnaître les domaines qui se prêteraient aux conflits entre leurs rôles pour les soins aux patients et leurs fonctions comme gardiens de la porte dans un système de ressources limitées. Les stratégies d'évaluation de l'impact des coûts secondaires dans le système seront abordées (y compris le risque de mesures d'avantage, d'urgence et qualité de vie).

Chaired by: S. Reid, Hamilton

Speaker: R. George, St. Michael's Hospital, Toronto

1200-1330 (Exhibition Hall C, Upper Level, North Building, Calgary TELUS Convention Centre)

Lunch/Visit the exhibits / Déjeuner/Visitez l'exposition

Friday, September 14 / Le vendredi 14 septembre

1200-1330 (Exhibition Hall D, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS/CATS Poster Session

Learning objectives: The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will leave with an understanding of what others are doing across Canada; a preview of what is on the research horizon; an opportunity to have discussed posters with their authors.

Séance d'affichage de l'ACCG et de l'ACCT

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants seront en mesure de comprendre ce qui se fait partout au Canada. Ils auront un aperçu des recherches futures. Ils auront eu l'occasion d'en discuter avec les auteurs.

CAGS Judges: S. Bergman, Montréal, P. Chaudhury, Montréal; A.T. Meneghetti, Vancouver; J. Park, Winnipeg; S.Q. Widder, Edmonton; S. Minor, Halifax

CATS Judges: A. Graham, Calgary; L. Tan, Winnipeg

- 1200 0044** A tumour board in the office: Track those cancer patients! *C. Decker*. From the West Parry Sound Health Centre, Parry Sound.

Preston, C. Baker, D. Low*. From the Virginia Mason Medical Center, Seattle, W., the Royal Surrey County Hospital (RSC), Guildford, United Kingdom.
- 1225 0049** Predicting need for surgical management for massive gastrointestinal hemorrhage. *M. Alhaboubi, M. Sudarshan, S. Jessula, A. Alburakan, D. Deckelbaum, T. Razek, S. Iqbal, K. Khwaja*. From the Montréal General Hospital, Montréal.
- 0064** A comparison of laparoscopic versus open subtotal gastrectomy for antral gastric adenocarcinoma: A North American perspective. *J. Cools-Lartigue, S. Benlolo, V. Marcus, L. Ferri*. From the Departments of Surgery and Pathology, McGill University Health Centre, and the Steinberg-Bernstein Centre for Minimally Invasive Surgery, Montréal.
- 0079** Implementation of an acute care surgical on call program in a Canadian community hospital. *L. Farries, P. Hardy, R.M. Muirhead*. From the Red Deer Regional Hospital, Red Deer.
- 0104** A tissue mimicking phantom for applications in thoracic surgical simulation. *D.A. Bottoni, G. Campbell, R.A. Malthaner*. From the London Health Sciences Centre, University of Western Ontario, Divisions of Thoracic Surgery and Surgical Oncology, the National Research Council Canada, London.
- 1230 0050** International health care experience: Using CanMEDS to evaluate learning outcomes following a surgical mission in Mampong, Ghana. *E. Partridge, C. Aikins*. From the University of Toronto, Toronto and Cooper Health University, Camden, NJ.
- 0065** Minimally invasive excision of ectopic mediastinal parathyroid adenomas. *J. Ojah, R. Finley, D. Anderson*. From the Departments of General Surgery and Otolaryngology, and the Division of Thoracic Surgery, University of British Columbia, Vancouver.
- 0080** Short-term outcomes following paraesophageal hernia repair in the elderly patient. *I. Raïche, J. Masters, F. Haggar, H. Moloo, E.C. Poulin, G. Martel, J. Mamazza*. From the Minimally Invasive Research Group, University of Ottawa, Ottawa.
- 0105** Sublobar resection compared to lobectomy for early stage non-small cell lung cancer: A single institution study. *C. Knickle, D. Bethune, H. Henteleff, M. Johnston, G. Buduhan*. From the Dalhousie University Medical School, and the Faculty of Medicine, Dalhousie University, Halifax.
- 1235 0051** The open abdomen: Risk factors for mortality and rates of closure. *M. Alhaboubi, M. Sudarshan, D. Deckelbaum, S. Iqbal, K. Khwaja, T. Razek*. From the Montréal General Hospital, Montréal.
- 0066** Perioperative outcomes of laparoscopic hernia repair in a tertiary care centre: A single institution's experience. *F. Julien, J.-P. Gagné*. From the Centre de chirurgie minimalement invasive de Québec, Québec.
- 0081** First experience with single incision surgery: Feasibility in the pediatric population, and cost evaluation. *C. Botkin, C. Milbrandt, R. Keijzer*. From the University of Manitoba, the Children's Hospital, the Health Sciences Centre, and the Manitoba Institute of Child Health, Winnipeg.
- 0106** Not all reviews are equal: The quality of systematic reviews and meta-analyses in thoracic surgery. *S. Coughlin, H. Emmerton Coughlin, L. Roth, M. Bhandari, R. Malthaner*. From the University of Western Ontario, London, and McMaster University, Hamilton.
- 1240 0052** How surgeons think: An exploration of mental practice in surgical preparation. *M. Olszewski, N. Roberts, C.-A. Moulton, M.L. Murnaghan, T. Cil*. From the University of Toronto, Toronto, and the Southern Illinois University School of Medicine, Springfield, IL.
- 0067** Evaluation of a student-run, practical and didactic curriculum for preclerkship medical students. *D. Carter, S. Chan, S. Wong, J. Li, A. Michael, D. Choi, E. Liu, J. Hoogenes, D. Dath*. From the McMaster University, Hamilton.
- 0082** The impact of the establishment of an acute care surgery unit on the outcomes of appendectomies and cholecystectomies. *D. Morency, L. Sideris, P. Grenier-Vallée, J.-F. Latulippe, P. Dubé*. From the Maisonneuve-Rosemont Hospital, Université de Montréal, Montréal.
- 0107** Do postoperative complications affect health-related quality of life after video-assisted thoracoscopic lobectomy for patients with lung cancer? A cohort study. *S. Gazala, J. Johnson, J. Kutsogiannis, E. Bédard*. From the University of Alberta, Edmonton.
- 1245 0053** The surgery wiki: A novel method for delivery of undergraduate surgical education. *K. Fathimani, R. Chan, J. Marshall, K. Pederson, S. Erichsen, J. White*. From the University of Alberta, Edmonton.
- 0068** Joseph Lister: Father of Modern Surgery. *D. Pitt, J.-M. Aubin*. From the Division of General Surgery, The Ottawa Hospital, Ottawa.
- 0083** Description and preliminary evaluation of a low-cost simulator for training and evaluation of flexible endoscopic skills. *D. Berger-Richardson, Y. Kurashima, P. Kaneva, L.S. Feldman, G.M. Fried, M.C. Vassiliou*. From McGill University, Montréal.
- 0108** Thoracoscopic plication for palliation of dyspnea secondary to unilateral diaphragmatic paralysis: A worthwhile venture? *S. Gazala, K. Rammohan, K. Stewart, E. Bédard*. From the University of Alberta, Edmonton and the University Hospital South Manchester, Wythenshawe, Manchester, United Kingdom.
- 1250 0054** Understanding surgical residents' postoperative practices before implementing an enhanced recovery after surgery (ERAS) guideline at the University of Toronto. *A. Nadler, M.-A. Aarts, A. Okrainec, J.C. Victor, E. Pearsall, R.S. McLeod*. From the University of Toronto, Toronto.
- 0069** Comparisons of melanoma sentinel lymph node biopsy prediction nomograms in a cohort of Canadian patients. *B.A. Banks, D. Mew, Y. McConnell*. From the University of Calgary, Calgary.
- 0084** Tumour lysis syndrome in metastatic colon cancer: A case report. *A.D. Isa, A.H.-L. Kwan*. From the Memorial University of Newfoundland and the Eastern Health, Health Sciences Centre, St. John's.
- 0109** Thoracic surgery experience in Canadian general surgery residency programs. *L. Donahoe, G. Buduhan*. From Dalhousie University, Halifax.
- 1255 0055** From laparoscopic transabdominal to posterior retroperitoneal adrenalectomy: A paradigm shift in operative approach. *U. Hameed, T.D. Jackson, A. Okrainec, T.P. Penner, D.R. Urbach*. From the University of Toronto and the University Health Network, Toronto.
- 0070** Local experience with myocutaneous flaps after extensive pelvic surgery. *A. Rudovics, D. Classen, S. Kanthan*. From the University of Saskatchewan, Saskatoon.
- 0085** Acute care surgery service model implementation study at a single institution. *I. Dupuis, S.A. Fraser*. From McGill University, and the Jewish General Hospital, Montréal.
- 0110** Perioperative morbidity and pathologic response rates following neoadjuvant chemotherapy and chemoradiation for locally advanced esophageal carcinoma. *K. Walker, J. Gruchy, Z. Xu, G. Buduhan*. From Dalhousie University, Halifax.

Friday, September 14 / Le vendredi 14 septembre

Continued from page 24

- 1300 **0056** A retrospective audit of outcomes in patients over the age of 80 undergoing acute care abdominal surgery. *H. Brotherhood, A. Karimuddin, C. Hall, S. Bawan, S. Malik, A. Hayashi.* From the Department of Surgery and the Faculty of Medicine, University of British Columbia, Victoria.
- 0071** The treatment of noncirrhotic splanchnic vein thrombosis: Is anticoagulation enough?: *P. Ravichandran, K.P. Croome, M.J. Kovacs, A. Lazo-Langner, R. Hernandez-Alejandro.* From the University of Western Ontario, and the London Health Sciences Centre, London.
- 0086** Colonic disasters approached by emergent subtotal and total colectomy: Lessons learned from 120 consecutive cases. *M. Schweigert, N. Solymosi, N. Rauh, A. Dubecz, M. Renz, D. Ofner, H.J. Stein.* From the Department of General and Thoracic Surgery, Klinikum Nuremberg Nord, Nuremberg, Germany, the Szent István University, Budapest, Hungary and the Department of Surgery, Paracelsus Medical University, Salzburg, Austria
- 0111** An enhanced recovery pathway reduces length of stay after esophagectomy. *C. Li, L.E. Ferri, D.S. Mulder, A. Ncuti, A. Neville, P. Kanerva, D. Watson, M. Vassiliou, F. Carli, L.S. Feldman.* From McGill University, Montréal.
- 1305 0057** Canadian general surgery residents' perspectives on work-hour regulations. *A.S. Menezes, R.S. Gill, C. McAlister, N. Zhang, E. DesRosiers, A. Mills, M. Crozier, L. Lee, J. Maxwell, E. Partridge, S. Chadi, S. Steigerwald, D. Mapiour, D. Roberts, C. MacPherson, L. Donahoe.* From the University of Ottawa, Ottawa, the University of Alberta, Edmonton, the University of Toronto, Toronto, Ont., McMaster University, Hamilton, the Université Laval, Québec, Northern Ontario School of Medicine, Sudbury, the Memorial University of Newfoundland, St. John's, McGill University, Montréal, Queen's University, Kingston, the University of Western Ontario, London, the University of Manitoba, Winnipeg, the University of Saskatchewan, Saskatoon, the University of Calgary, Calgary, the University of British Columbia, Vancouver, and Dalhousie University, Halifax.
- 0072** Implementation of an acute care surgery service does not affect wait-times for elective cancer surgeries: An institutional experience. *R. Anantha, K. Vogt, S. Crawford, N. Parry, K. Leslie.* From the London Health Sciences Centre, London.
- 0087** Acellular collagen matrix stent to protect bowel anastomoses. *S. Koubi, M. Borgaonkar.* From the Memorial University of Newfoundland, St. John's.
- 0112** Predictors of dysplastic and neoplastic progression of Barrett's esophagus. *S. Alnasser, R. Av, S. Mayrand, E. Franco, L.E. Ferri.* From McGill University, Montréal.
- 1310 0058** Timing of surgical intervention and its outcomes in acute appendicitis. *B. MacDonald, D. Mercer, W. Hopman.* From Queen's University and the Kingston General Hospital, Kingston.
- 0073** Use of human collagen mesh for closure of a large abdominal wall defect, after colon cancer surgery, a case report. *I. Aad.* From the Centre de santé et de services sociaux de Rouyn-Noranda, Rouyn-Noranda.
- 0088** Lessons we learned from preoperative MRI-guided wire localization of breast lesions: The University Health Network (UHN) experience. *M. Ernjakovic, P. Crystal, A. Easson, J. Escallon, M. Reedijk, T. Cil, W.L. Leong, D.R. McCready.* From the University of Toronto, Toronto.
- 0113** Recurrent oesophageal cancer complicated by tracheoesophageal fistula: Management by means of palliative airway stenting. *M. Schweigert, A. Dubecz, M. Renz, R.J. Stadlhuber, D. Ofner, H.J. Stein.* From the Department of General and Thoracic Surgery, Klinikum Nuremberg Nord, Nuremberg, Germany, and the Department of Surgery, Paracelsus Medical University, Salzburg, Austria.
- 1315 0114** Pancreaticopleural fistula induced empyema thoracis: Principles and results of surgical management. *M. Schweigert, M. Renz, A. Dubecz, N. Solymosi, L. Thumfart, D. Ofner, H.J. Stein.* From the Department of General and Thoracic Surgery, Klinikum Nuremberg Nord, Nuremberg, Germany, the Szent István University, Budapest, Hungary, and the Department of Surgery, Paracelsus Medical University, Salzburg, Austria.

1330-1430 (Glen 206, Upper Level, South Building, Calgary TELUS Convention Centre)

CATS Presidential Address: Dressed for success

Learning objectives: The session is designed for thoracic surgeons and residents. At the end of the session, participants will have gain an insight from the outgoing president of the association.

Allocution de la présidente de l'ACCT : Habillé pour le succès

Objectifs d'apprentissage : La session s'adresse aux chirurgiens thoraciques et aux résidents. Au terme de la session, les participants auront acquis un aperçu de la présidente sortante de l'association.

Chaired by: A. Jugnauth, Kelowna

Speaker: D.E. Maziak, University of Ottawa, Ottawa

1330-1450 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

CAGS: Highlights from the Surgical Research Fund

Learning objectives: The session is designed for all general surgeons and residents. At the end of the session participants will have a better understanding of the latest advances in clinical and translational surgical research from CSRF Research Award recipients.

L'ACCG : Faits saillants de la recherche subventionnée par la FCRC

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens généraux et à tous les résidents. Au terme de la session, les participants seront en mesure de mieux comprendront les progrès récents réalisés en recherche chirurgicale clinique et translationnelle grâce aux travaux des chercheurs qui ont bénéficié d'une subvention de la FCRC.

Chaired by: L.E. Ferri, Montréal

1330 Opening remarks: L.E. Ferri, McGill University, Montréal

Continued on page 26

Friday, September 14/ Le vendredi 14 septembre

Continued from page 25

- 1335** Neutrophil extracellular traps sequester circulating tumour cells and promote the development of metastasis: J. Cools-Lartigue, McGill University, Montréal
- 1350** Incisional hernia after midline versus transverse extraction incision in laparoscopic colectomy – A randomised trial: L. Lee, McGill University, Montréal
- 1405** The metabolomic signature of pancreatic cancer in urine: V. Davis, University of Alberta, Edmonton
- 1420** Optimizing practice schedules for learning basic skills on a computer-based laparoscopic simulator: J. Park, University of Manitoba, Winnipeg
- 1435** Closing remarks: L.E. Ferri, McGill University, Montréal
-

1330-1450 (MacLeod Hall D, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Symposium: Service requirement of the late career surgeon – Who owes whom?

Learning objectives: The session is designed for all general surgeons and residents who are interested in exploring the opportunities of both being and working with late career surgeons and challenges faced when balancing the preretirement needs of the surgeon and the needs of his or her service. At the end of this session attendees will have a better understanding of the considerations faced by the late career surgeon in preretirement; the evidence surrounding the effects of ageing on the cognitive and technical performance of the preretirement surgeon; the challenges faced by chairmen and service chiefs in balancing the late career needs of their surgeons with recruitment resources and service requirements; the legal risks faced by late career surgeons in care delivery and his or her right to resources.

Symposium de l'ACCG : L'exigence de service pour le chirurgien en fin de carrière – Qui est redevable à qui?

Objectifs d'apprentissage : La session s'adressent à tous les chirurgiens généraux et les résidents qui sont intéressés à explorer les possibilités d'être et de travailler avec des chirurgiens en fin de carrière et les défis auxquels ils font face entre les besoins du chirurgien en préretraite et les besoins de leur service. Au terme de la session, les participants auront une meilleure compréhension des facteurs que le chirurgien en fin de carrière fait face; les éléments de preuve concernant les effets du vieillissement sur les performances cognitives et techniques du chirurgien en préretraite; les défis auxquels font face les présidents et chefs de service dans l'équilibre des besoins de leurs chirurgiens en fin de carrière avec les ressources de recrutement et les exigences de service; les risques juridiques auxquels font face les chirurgiens fin de carrière dans la prestation de soins et de son droit à des ressources.

Chaired by: C.M. Schlachta, London

- 1330** Introduction and objectives: C.M. Schlachta, University of Western Ontario, London
- 1335** Winding down your practice – Does it ever end?: W.J. Mackie, Edmonton
- 1350** Effects of ageing on cognition and technical ability: D.R. Urbach, University of Toronto, Toronto
- 1405** How I retired 17 surgeons and lived to tell about it: B. Taylor, London Health Sciences Centre, London
- 1420** Is the older surgeon a liability and what is owed?: *L. LeGrand Westfall, Canadian Medical Protective Association, Ottawa*
- 1435** Discussion and questions: C.M. Schlachta, University of Western Ontario, London
-

1330-1450 (MacLeod Hall B, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS International Surgery Symposium: Contributing in international surgery ... By whose yardstick?

Learning objectives: The session is designed for surgeons and general surgery residents interested in international surgery. At the end of the session participants will have a better understanding of the important issues to consider in assessing one's personal contribution and the potential positive or negative impact that one's work could have in host centers or communities. The session will also identify types of opportunities that CAGS members and residents can explore in international surgery as university faculty members, as members of an NGO, or as personal initiatives. Suggestions on how to assess your contribution in these opportunities will also be addressed.

Symposium de l'ACCG sur la chirurgie internationale : Contribuer à la chirurgie internationale – Selon le barème de qui?

Objectifs d'apprentissage : La session s'adresse aux chirurgiens et aux résidents en chirurgie générale intéressés à la chirurgie internationale. Au terme de la session, les participants auront une meilleure compréhension des enjeux importants à considérer dans l'évaluation de la contribution personnelle et le potentiel positif ou l'impact négatif que le travail pourrait avoir dans les centres d'accueil ou les communautés. La session identifiera également différentes opportunités que les membres et les résidents de l'ACCG peuvent explorer en chirurgie internationale en tant que membres d'un corps professoral, une ONG ou en tant d'initiatives personnelles. Des suggestions sur la façon d'évaluer votre contribution dans ces possibilités seront également abordées.

Chaired by: G. Hollaar, Calgary

- 1330** Assessing personal contribution and impact: R. Taylor, University of British Columbia, Vancouver
- Opportunities and 'contribution assessments'**
- 1350** Faculty: T. Razek, McGill University, Montréal
- 1405** NGO/personal initiative: J. Campbell, Orillia
- 1420** Resident: S. Kalechstein, University of Toronto, Toronto
- 1435** Discussion and questions

Friday, September 14 / Le vendredi 14 septembre

1330-1500 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Symposium: Evidence-based reviews in surgery – Let's do Journal Club – Did you say now we DO have to bowel prep?

Learning objectives: This session is designed for all general surgeons and residents who perform colorectal surgery. At the end of the session, participants will be able to understand whether mechanical bowel prep should be prescribed in patients having rectal surgery; discuss how EBRS can be incorporated into practice to ensure that patients receive care based on best evidence; understand how EBRS can be incorporated into training programs.

Symposium de l'ACCG : Examens fondés sur des preuves en chirurgie – Qu'en dit le club de lecture? – Maintenant il FAUT préparer l'intestin, vous dites?

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux et résidents qui effectuent la chirurgie colorectal. Au terme de la session, les participants seront en mesure de comprendre si une préparation mécanique de l'intestin doit être prescrite chez les patients ayant la chirurgie rectale; de discuter comment les examens fondés sur des preuves en chirurgie peuvent être incorporé dans la pratique pour s'assurer que les patients reçoivent des soins fondés sur les meilleures preuves; de comprendre comment les examens fondés sur des preuves en chirurgie peuvent être incorporé dans des programmes de formation.

Chaired by: P. Chaudhury, Montréal

1330 Introduction: P. Chaudhury, McGill University, Montréal

1340 What's new on the EBRS website?: M. McKenzie, University of Toronto, Toronto

1355 What is your current practice? Poll the audience: P. Chaudhury, McGill University, Montréal

1400 Let's look at the evidence: M. Hameed, University of British Columbia, Vancouver

1415 What do the experts do? Discussion with audience participation: R.P. Boushey, University of Ottawa, Ottawa; S. Feinberg, University of Toronto, Toronto; A. MacLean, University of Calgary, Calgary

1430 Summary of expert's remarks: M. Hameed, University of British Columbia, Vancouver

1440 Should we change practice? Poll the audience: P. Chaudhury, McGill University, Montréal

A computerized audience response system will be used during the symposium. / Un système automatisé de répondre à clavier sera utilisé durant le symposium.

1330-1500 (Glen 203-204, Upper Level, South Building, Calgary TELUS Convention Centre)

CABPS/CAGS Bariatric Working Group Symposium: New frontiers in bariatric surgery

Learning objectives: The session is designed for practising surgeons and residents. At the end of the session, participants will be able to facilitate understanding of the new technologic advances in bariatric surgery, specifically the expanding role of endoscopic/transluminal techniques, robotic technology, single incision laparoscopic surgery and the role of new surgical techniques.

Symposium de l'ACMCB et du groupe de travail bariatrique de l'ACCG : Nouvelles frontières en chirurgie bariatrique

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et aux résidents. Au terme de la session, les participants auront une meilleure compréhension des nouvelles avancées technologiques en chirurgie bariatrique, plus précisément le rôle croissant des techniques endoscopique/transluminale, technologie robotique, chirurgie laparoscopique par incision unique et le rôle de nouvelles techniques chirurgicales.

Co-chaired by: D.W. Birch, Edmonton; T. Jackson, Toronto

1330 Endoscopic advances in bariatric surgical management: *D.J. Mikami, Ohio State University, Columbus, OH*

1400 Single incision bariatric surgery – Is one hole enough?: S. Gmora, McMaster University, Hamilton

1415 I-Robot – The role of the robot in bariatric care: S. Karmali, University of Alberta, Edmonton

1430 The new surgical frontiers in Bariatric Surgery-Vertical Gastric Plication, mini-gastric bypass and more: A. Okrainec, University of Toronto, Toronto

1445 Panel discussion

1430-1630 (Glen 206, Upper Level, South Building, Calgary TELUS Convention Centre)

CATS Symposium: Controversies in thoracic surgery

Learning objectives: The session is designed for thoracic surgeons and residents. At the end of the session, participants will have knowledge and understanding of controversies with the specialty of thoracic surgery.

Symposium de l'ACCT : Controverses en chirurgie thoracique

Objectifs d'apprentissage : La session s'adresse aux chirurgiens thoraciques et aux résidents. Au terme de la session, les participants auront acquis des connaissances et une compréhension des controverses de la spécialité de chirurgie thoracique.

Chaired by: A. Jugnauth, Kelowna

CAGS Debates in Minimally Invasive Surgery: Controversies in endoscopy and robotics

Learning objectives: The session is designed for surgeons, surgical residents and other health professions interested in learning about controversies in endoscopy and robotics. At the end of the session, participants will have a better understanding of the current practice patterns around endoscopy and robotics in Canada; be able to identify the controversies related to general surgeons performing endoscopy; be able to compare the benefits of robotic surgery compared to traditional laparoscopy and the role of robotics in Canada.

Débats de l'AGGC sur la chirurgie à effraction minimale : Controverses en endoscopie et robotique

Objectifs d'apprentissage : La session s'adresse aux chirurgiens, aux résidents en chirurgie et aux autres professions de la santé intéressées à apprendre sur les controverses en endoscopie et en robotique. Au terme de la session, les participants auront une meilleure compréhension des tendances des pratiques actuelles autour de l'endoscopie et la robotique au Canada; seront capable d'identifier les controverses liées aux chirurgiens généraux effectuant l'endoscopie; seront en mesure de comparer les avantages de la chirurgie robotique par rapport à la laparoscopie traditionnelle et le rôle de la robotique au Canada.

Chair: A. Okrainec, Toronto

1500 Introduction: A. Okrainec, University of Toronto, Toronto

Debate 1: Should general surgeons still perform endoscopy?

1510 Yes: J. Ellsmere, Dalhousie University, Halifax

1520 No: C. de Gara, University of Alberta, Edmonton

1530 Rebuttal and questions

Debate 2: Does robotics have a place in the Canadian operating room?

1545 Yes: C.M. Schlachta, University of Western Ontario, London

1555 No: J. Kortbeek, University of Calgary, Calgary

1605 Rebuttal and questions

A computerized audience response system will be used during the debates. / Un système automatisé de répondre à clavier sera utilisé durant les débats.

1500-1620 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

CAGS Resident Education Symposium: Transition to community practice in general surgery – Is post-residency training required?

Learning objectives: The session is designed for all CAGS general surgeons and residents. At the end of the session, participants will have gained an appreciation of the challenges facing residents at the end of their training; considered the pros and cons of postgraduate training; heard the opinions of some surgeons in our field on the need for further training prior to starting practice.

Symposium de l'ACCG sur la formation des résidents : La transition à la pratique communautaire en chirurgie générale – Une formation après la résidence est-elle nécessaire?

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens généraux et aux résidents de l'ACCG. Au terme de la session, les participants auront acquis une appréciation des défis auxquels font face les résidents au terme de leur formation; considérés les avantages et désavantages de la formation après la résidence; entendus les opinions de certains chirurgiens dans notre domaine sur la nécessité de formation avant de commencer une pratique.

Co-chaired by: C. MacPherson, Vancouver; C. McAlister, Toronto

1500 Introduction: C. MacPherson, University of British Columbia, Vancouver; C. McAlister, University of Toronto, Toronto

1505 Residents' perception of their readiness for practice: M. Crozier, Memorial University of Newfoundland, St. John's

1515 Is the Royal College exam a reflection of resident readiness for community practice?: W.D. Buie, University of Calgary, Calgary

1525 Challenges in the first year of practice: P.S. Boora, University of Alberta, Edmonton

1540 The role of dedicated community surgery training prior to community practice?: A.J. Gomes, Chinook Regional Hospital, Lethbridge; D. Schiller, Royal Alexandra Hospital, Calgary

1550 Community general surgery in Canada today — The role of the generalist general surgeon: G.W.N. Fitzgerald, Charles S. Curtis Memorial Hospital, St. Anthony

1600 Panel discussion

Friday, September 14 / Le vendredi 14 septembre

1500-1620 (MacLeod Hall D, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Symposium: Professionalism and the surgeon – Some timely issues facing us as surgeons

Learning objectives: The session is designed for practising surgeons and other physicians, residents and medical students. The professionalism topics are relevant to virtually all settings where clinical care and surgical education are occurring. At the end of the session, the participants will be able to recognize the importance of careful utilization of electronic media in clinical practice and for hospital-based patient management and education; appreciate and discuss the impact of work-hour restriction on trainees and practising surgeons with respect to patient safety, physician safety and surgical education; understand the changes that surgeons are facing in their relationship with hospital administration, regional health authorities and government and identify measures to make these changes work for our patients.

Symposium de l'ACCG : Professionnalisme et le chirurgien – Certaines questions d'actualité auxquelles nous sommes confrontés en tant que chirurgiens

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et autres médecins, résidents et étudiants en médecine. Les sujets de professionnalisme sont pertinents à pratiquement tous les milieux où ce produisent des soins cliniques et de l'enseignement chirurgical. Au terme de la session, les participants seront en mesure de reconnaître l'importance d'une utilisation attentive des médias électroniques dans la pratique clinique et de la gestion des patients et de l'éducation en milieu hospitalier; comprendre et discuter des effets de restriction des heures de travail sur les stagiaires et les chirurgiens en pratique active en ce qui concerne la sécurité des patients, la sécurité des médecins et l'éducation chirurgicale; comprendre les changements auxquels font face les chirurgiens dans leurs relations avec l'administration de l'hôpital, les autorités régionales de la santé et du gouvernement et d'identifier des mesures pour rendre ces changements convenables pour nos patients.

Chaired by: C.S. Yaffe, Winnipeg

1500 Welcome and introductions: C.S. Yaffe, St. Boniface Hospital, Winnipeg

1505 Communicating in the electronic age – Dos and don'ts: L. Budd; S. Bugis, University of British Columbia, British Columbia Medical Association, Vancouver

1530 Work-hour restriction – The good, the bad and the ugly: P. Fata, McGill University, Montréal

1600 The changing surgeon – Hospital relationship – Is the marriage over? *L. LeGrand Westfall, Canadian Medical Protective Association, Ottawa*

1500-1630 (Glen 208-209, Upper Level, South Building, Calgary TELUS Convention Centre)

CAGS Paper Session

Learning objectives: The session is designed for general surgeons, colorectal surgeons and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future direction of colorectal diseases and their management in an evidence-based format.

Communications de l'ACCG

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, aux chirurgiens du côlon et du rectum, et aux résidents dans ces domaines. Au terme de la session, les participants seront en mesure de comprendre et de préciser les orientations actuelles et futures des maladies colorectales et de leur prise en charge fondée sur des données probantes.

Co-chaired by: D.W. Birch, Edmonton; G. Porter, Halifax

1500 0024 (CAGS Basic Science Award)

Exogenous glucagon-like peptide-2 improves clinical, morphological and histological outcomes of intestinal adaptation in a distal-intestinal resection piglet model of short bowel syndrome. *M. Suri, J.M. Turner, P.N. Nation, P. Wizzard, P.L. Brubaker, D.L. Sigalet, P.W. Wales*. CAGS H. Thomas G. Williams Lecture: Measure today, change tomorrow – An exciting new dimension for surgical practice

Learning objectives: The session is designed for all practising surgeons. At the end of the session, participants will be able to identify the functionalities of synoptic operative reporting; the value of real time outcomes generated at point of care; the Alberta and Pan Canadian experience and the implications for the future.

Continued on page 30

Conférence H. Thomas G. Williams de l'ACCG : Mesurer aujourd’hui, changer demain – Une nouvelle dimension passionnante pour la pratique chirurgicale

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active. Au terme de la session, les participants seront en mesure d'identifier les fonctionnalités de rapport opératoire synoptique; la valeur des résultats en temps réel générée au point de soins; l'expérience de l'Alberta et Pan canadien et les implications pour l'avenir.

Chaired by: R. George, Toronto

Speaker: *W.J. Temple, University of Calgary, Calgary*

1700-1830 (MacLeod Hall D, Lower Level, South Building, Calgary TELUS Convention Centre)

CHPBA: Great HPB debates

Learning objectives: The session is designed for all general surgeons, general surgery residents and Fellows, medical students and HPB Surgeons. At the end of the session, participants will be able to debate controversial subjects in HPB and general surgery; discuss novel strategies for managing debate topics.

CHPBA : Grands débats des problèmes chirurgicaux hépatobiliaires

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens généraux, aux résidents et Associés chirurgicaux, aux étudiants en médecine et aux chirurgiens hépatobiliaires. Au terme de la session, les participants seront en mesure de débattre des sujets controversés de problèmes chirurgicaux hépatobiliaires et de chirurgie générale; de discuter de nouvelles stratégies pour la gestion des sujets de débat.

Chaired by: J. Barkun, Montréal

Debate 1 – Emergency laparoscopic cholecystectomy for acute cholecystitis is good

1700 Pro: C. Ball, University of Calgary, Calgary

1710 Con: V. McAlister, University of Western Ontario, London

1720 Discussion

Debate 2 – Synchronous resection of primary colorectal cancer and liver metastases is good

1730 Pro: G. Porter, Dalhousie University, Halifax

1740 Con: S. Chung, University of British Columbia, Vancouver

1750 Discussion

Debate 3 – Regionalization of HPB surgery into larger centres is good

1800 Pro: M. Marcaccio, McMaster University, Hamilton

1810 Con: S. Jayaraman, University of Toronto, Ontario

1820 Discussion

1700-1830 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS/ACS Symposium: Acute care surgery – Clinical updates

Learning objectives: The session is designed for all general surgeons, trauma surgeons, acute care surgeons, intensivists. At the end of the session, the participants will be able to describe the current options in the management of patients with acute intra-abdominal problems requiring management with an open abdomen technique; explain the rationale for the management of acute cholecystitis with early versus late cholecystectomy; understand the unique features in the management of patients with infected mesh in the abdominal wall; describe the current management of patients with bowel obstruction, including the role of laparoscopy.

Symposium de l'ACCG et de l'ACS : La chirurgie en soins actifs – Mise à jour clinique

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, aux chirurgiens traumatologues, aux chirurgiens en soins de courte durée et aux intensivistes. Au terme de la session, les participants seront en mesure de décrire les options actuelles pour la prise en charge de patients souffrant de problèmes intraabdominaux aigus qui exigent une prise en charge au moyen d'une chirurgie ouverte de l'abdomen; d'expliquer le bien-fondé de la prise en charge d'une cholécystite aiguë au moyen d'une cholecystectomie précoce plutôt que tardive; de comprendre les caractéristiques uniques de la prise en charge des patients qui ont une maille infectée dans la paroi abdominale; de décrire la prise en charge actuelle de patients ayant une obstruction intestinale, y compris le rôle de la laparoscopie.

Chaired by:

1700 Open abdomen in acute care surgery: A. Buczkowski, University of British Columbia, Vancouver

1715 Early versus late cholecystectomy for cholecystitis: S. Gregg, Red Deer Regional Hospital, Red Deer

1730 Bowel obstruction – Current management: J. Pagliarello, University of Ottawa, Ottawa

1745 Infected mesh in the abdominal wall:

1800 Panel discussion and audience questions: A. Buczkowski, University of British Columbia, Vancouver; S. Gregg, Red Deer Regional Hospital, Red Deer; M. Hameed, University of British Columbia, Vancouver; J. Pagliarello, University of Ottawa, Ottawa.

Friday, September 14 / Le vendredi 14 septembre

Alberta Association of General Surgeons Symposium: Heal thyself – Promoting surgeon wellness

Learning objectives: The session is designed for all surgeons and residents. Physician wellness is an important aspect of surgical practice. An unwell surgeon may have a negative impact on self, family and the health systems in which he works. At the end of the session, the participants will be able to recognize the impact of a surgeon's well-being on the health system and identify it as a quality indicator; discuss what surgeons can do to take care of themselves; consider how to deal with system issues that impact on well-being; learn where to go when help is needed.

Symposium de l'Alberta Association of General Surgeons : Guérir soi-même – Promouvoir le bien-être du chirurgien

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens et aux résidents. Le mieux-être des médecins est un aspect important de la pratique chirurgicale. Un chirurgien souffrant peut avoir une incidence négative sur soi, la famille et les systèmes de santé dans lequel il travaille. Au terme de la session, les participants seront en mesure de reconnaître l'impact du bien-être d'un chirurgien sur le système de santé et de l'identifier comme un indicateur de la qualité; de discuter de ce que les chirurgiens peuvent faire pour prendre soin d'eux-mêmes; d'examiner la façon de traiter des questions de système qui ont une incidence sur le bien-être; de savoir où aller lorsque l'aide est nécessaire.

Chaired by: P. Hardy, Red Deer

1700 Physician wellness – A missing quality indicator: J. Lemaire, University of Calgary, Calgary

1730 Heal thyself: C. Nohr, Alberta Medical Association, Medicine Hat

1800 Panel discussion: J. Lemaire, University of Calgary, Calgary; C. Nohr, Alberta Medical Association, Medicine Hat

1700-1830 (MacLeod Hall B, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Instructional Video Session: Hernia repair – Open/lap, anterior/posterior, tissue/mesh ... Tips for all approaches

Description: The educational video session deconstructs basic as well as advanced inguinal and incisional hernia repair techniques into core steps. Experts will provide commentary and review the steps of the procedures through video examples.

Learning objectives: The session is designed for surgeons interested in increasing their repertoire of techniques used to address abdominal wall defects. At the end of the session, participants will be able to define the core steps of basic and advanced inguinal and incisional hernia repair techniques; describe several methods of addressing inguinal or incisional hernias; identify the technical components necessary to achieve successful operative outcomes.

Session éducative vidéo de l'ACCG : Réparation des hernies – Ouverte/lap, antérieure/postérieure, tissu/mèche ... Conseil pour toutes les approches

Description : La session éducative vidéo déconstruit les techniques de réparation de base et avancée des hernies inguinales et incisionnelles en étapes principales. Les experts fourniront des commentaires et vont revoir les étapes des procédures à l'aide d'exemples de vidéos.

Objectifs d'apprentissage : La session s'adresse aux chirurgiens intéressés à accroître leur répertoire des techniques utilisées pour traiter les anomalies de la paroi abdominale. Au terme de la session, les participants seront en mesure de définir les principales étapes des techniques de réparation de base et avancée des hernies inguinales et incisionnelles; de décrire plusieurs méthodes de traiter une hernie inguinale ou incisionnelle; d'identifier les éléments techniques nécessaires pour atteindre avec succès les résultats opératoires.

Chaired by: S. Bergman, Montréal

1700 Opening remarks: S. Bergman, McGill University, Montréal

1705 Open preperitoneal mesh repair: S. Fraser, McGill University, Montréal

1713 Open tissue repair (McVay): O.N.M. Panton, University of British Columbia, Vancouver

1721 Laparoscopic inguinal hernia repair in the middle of the night: J. Hagen, University of Toronto, Toronto

1729 Laparoscopic recurrent inguinal hernia repair: A. Vergis, University of Manitoba, Winnipeg

1737 The "sports hernia": D. Mulder, McGill University, Montréal

1745 Open component separation: D.W. Birch, University of Alberta, Edmonton

1753 Endoscopic component separation: *M. Rosen, Case Western Reserve University, Cleveland, OH*

1805 Panel discussion

1845-1930 (MacLeod Hall A, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Symposium: Surgical Jeopardy

Description: Surgical Jeopardy is a good-natured, informal competition in which contestants match wits about surgical disease, surgical history and a host of related and unrelated topics. The competition will be organized into teams of three and will be region based. We encourage all attendees to watch the game and root the participants on to victory! Trophies will be awarded to the top team. Suitable refreshments will be supplied free of charge in keeping with the *spirit* of the competition. So come on out, test yourself against the quiz master and competitors and enjoy the competition.

Learning objectives: The session is designed for all practising surgeons and surgical residents. At the end of the session, participants will be able to review common surgical disease, important events in surgical history and general knowledge of Canadian history, sports, geography and the arts.

Symposium de l'ACCG : Le péril chirurgical

Description : Le péril chirurgical est un concours bon enfant où les concurrents composent un mot d'esprit sur la chirurgie, maladie ou histoire, et une gamme de sujets connexes ou étrangers. Les équipes regrouperont trois personnes et l'affrontement sera régional. Tous sont invités à assister au jeu et à encourager les concurrents de leur choix. L'équipe victorieuse remportera un trophée. Des rafraîchissements seront gracieusement offerts, dans *l'esprit* du concours. Venez nombreux vous mesurer au présentateur de jeu et aux concurrents !

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et aux résidents en chirurgie. Au terme de la session, les participants seront en mesure d'énumérer les maladies chirurgicales courantes, de retracer les événements marquants de l'histoire de la chirurgie et d'acquérir des connaissances générales sur l'histoire, les sports, la géographie et les arts au Canada.

CSF Breakfast with the Professor (additional fee required)

Learning objectives: The session is designed for practising surgeons and surgical residents. At the end of the session, participants will be able to identify a practical approach to common surgical problems in the subject area of each assigned table. Case study method will be used for small group interactive sessions.

Petit-déjeuner du FCC avec le professeur (frais d'inscription supplémentaires)

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et aux résidents en chirurgie. Au terme de la session, les participants seront en mesure d'indiquer une solution pratique à des problèmes chirurgicaux courants dans le domaine attribué à chacun des groupes. La session interactive a recours à la méthode de l'étude de cas en groupes restreints.

- Abdominal wall reconstruction with component separation: *M. Rosen, Case Western Reserve University, Cleveland, OH*
- Approach to colorectal liver metastases: *W.R. Jarnagin, Memorial Sloan-Kettering Cancer Center, New York, NY*
- Assessment of soft tissue mass: A. McFadden, University of British Columbia, Vancouver
- Complicated diverticulitis: J. Heine, University of Calgary, Calgary
- Complications of bariatric surgery: *D.J. Mikami, Ohio State University, Columbus, OH*
- Management of rectal cancer: *R.D. Madoff, University of Minnesota, Minneapolis, MN*
- Management of the axilla in invasive breast cancer: *K.K. Hunt, The University of Texas MD Anderson Cancer Center, Houston, TX*
- Pediatric emergencies: D. Sigalet, University of Calgary, Calgary
- Preparing for the exam and time management strategies: S.W. Bloom, Staten Island University, New York, NY
- Rectal prolapse: M.J. Burnstein, University of Toronto, Toronto
- Rib fracture fixation: J.R. Bond, University of British Columbia, Vancouver
- Surgery and global health: How to get involved: R. Taylor, University of British Columbia, Vancouver
- Techniques in MIS colon resection: R.P. Boushey, The Ottawa Hospital, Ottawa
- Thoracic surgery: G. Gelfand, University of Calgary, Calgary
- Vascular trauma damage control: C. Ball, University of Calgary, Calgary

0800-0930 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Video Session: Laparoscopic colorectal surgery – Nuts and bolts

Description: The laparoscopic approach has been applied to increasingly complex situations, especially in the field of colorectal surgery. Transfer of experience of surgeons from high-volume advanced laparoscopic practices can assist in the training in the technical aspects of these complex cases. The session will highlight various laparoscopic dissection approaches and strategies to improve surgeons' understanding of laparoscopic colorectal procedures, using a combination of video demonstration and discussion.

Learning objectives: The session is designed for all practising surgeons and surgical trainees. At the end of the session, participants will have increased their understanding of various laparoscopic approaches to mobilization of the right and left colon, including hepatic and splenic flexure; be able to explain various and safe approaches of intra-corporeal ligation of major vascular pedicles involved in laparoscopic colorectal surgery; gained insight on how to safely transect the intraperitoneal or extra-peritoneal rectum; increased their understanding on how to improve the intraoperative outcome of laparoscopic colorectal procedures in the obese patient or in a previously operated abdomen with adhesions.

Session éducative vidéo de l'ACCG : Les rouages de la chirurgie colorectale par laparoscopie

Description : L'approche laparoscopique a été appliquée à des situations de plus en plus complexes, notamment dans le domaine de la chirurgie colorectale. Le transfert d'expérience de chirurgiens qui ont des pratiques de chirurgie laparoscopique avancée à volume élevé peut contribuer à la formation liée aux aspects techniques de ces cas complexes. La séance mettra en lumière diverses approches de dissection laparoscopique ainsi que des stratégies visant à rehausser la compréhension des interventions colorectales par laparoscopie, à l'aide d'une combinaison de démonstration vidéo et de discussion.

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et aux stagiaires en chirurgie. Au terme de la session, les participants auront une meilleure compréhension des diverses approches laparoscopiques à la mobilisation du côlon droit et gauche, y compris les angles droit et gauche du côlon; seront en mesure d'expliquer les différentes approches sécuritaires à la ligature intracorporelle des principaux pédicules vasculaires impliqués dans la chirurgie colorectale par laparoscopie; auront gagner une nouvelle perspective de la dissection transversale sécuritaire du rectum intrapéritonéal ou extrapéritonéal; auront rehausser leur compréhension des moyens d'améliorer le résultat peropératoire des interventions colorectales par laparoscopie chez le patient obèse ou de celles effectuées sur un abdomen avec adhérences ayant déjà fait l'objet d'une chirurgie.

CATS Paper Session

Learning objectives: The session is designed for all thoracic surgeons and residents. At the end of the session, participants will gain an understanding of the types of research being conducted in thoracic surgery and be able to identify potential areas of collaboration.

Communications de l'ACCT

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens thoraciques et aux résidents de la spécialité. Au terme de la session, les participants connaîtront les axes de recherche actuels en chirurgie thoracique et pourront préciser des domaines qui se prêteraient à la recherche en collaboration.

Chaired by: A. Seely, Ottawa

- 0800** **0089** Interim cost comparison for the use of platinum microcoils in the operative localization of small peripheral lung nodules. *K. Grant, J. Clifton, J. Mayo, R. Finley*. From the University of British Columbia, Vancouver.
0815 **0090** Routine barium esophagram has minimal impact on the postoperative management of patients undergoing esophagectomy for esophageal cancer. *J. Cools-Lartigue, M. Noreau-Nguyen, D.S. Mulder, L.E. Ferri*. From the McGill University, Montréal.
0830 **0091** Iron deficiency anemia is a common presenting issue with giant paraesophageal hernia and resolves following repair. *P. Carrott, S. Markar, J. Hong, D.E. Low*. From Virginia Mason Medical Center, Seattle, WA.
0845 **0092** A randomized comparison of different ventilation strategies during thoracotomy and lung resection. *T. Stafford, A. Maslow, K. Davignon, T. Ng*. From the Departments of Surgery and Anesthesiology, Alpert Medical School of Brown University, Providence, RI.

CHPBA Paper Session

Learning objectives: The session is designed for general surgeons, hepatobiliary-pancreatic surgeons and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future directions of HPB and their management in an evidence-based format.

Communications de la CHPBA

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, aux chirurgiens du système hépatobiliaire ou du pancréas et aux résidents dans ces disciplines. Au terme de la session, les participants seront en mesure de préciser les recommandations actuelles et futures sur les problèmes chirurgicaux hépatobiliaires et de leur prise en charge fondée sur des données probantes.

Chaired by: S. Jayaraman, Toronto

- 0800 0115** Prognostic factors of early postoperative mortality following right extended hepatectomy. *A. Zhuruk, K. Croome, R. Leeper, R. Hernandez.* From the University of Western Ontario, London.
- 0811 0116** Optimizing steatotic livers for transplantation using a cell-penetrating peptide CPP-fused heme oxygenase. *A. Hanouf, S. Livingstone, H. Sapp, D. Woodhall, I. Alwayn.* From the Dalhousie University, Halifax.
- 0822 0117** Video outlining the technical steps for a robot-assisted laparoscopic pancreaticoduodenectomy. *T. Vanounou, S. Bergman.* From the McGill University, Montréal.
- 0833 0118** Establishment of a collaborative group to conduct innovative clinical trials in Canada. *P. Karanicolas, J. Lam-McCulloch, F. Balaa, S. Jayaraman, D. Quan, A. Wei, G. Guyatt.* From the Sunnybrook Health Sciences Centre and the Sunnybrook Research Institute, Toronto, The Ottawa Hospital, Ottawa, St. Joseph's Health Centre, Toronto, the London Health Sciences Centre, London, the University Health Network, Toronto, McMaster University, Hamilton, and the Hepato-pancreatico-biliary Community of Surgical Oncologists Clinical, Evaluative, and Prospective Trials Team (HPB CONCEPT Team).
- 0844 0119** Hepatic resection for metastatic malignant melanoma: A systematic review and meta-analysis. *J.-M. Aubin, J.F. Rekman, R.J. Fairfull-Smith, R. Mimeaule, F.K. Balaa, G. Martel.* From the Division of General Surgery and the Liver and Pancreas Surgery Unit, The Ottawa Hospital, Ottawa.
- 0855 0120** Acellular normothermic ex vivo liver perfusion for donor liver preservation. *J.C. Yeung, M.U. Boehnert, F. Bazerbachi, J.M. Knaak, N. Selzner, I.D. McGilvray, O.D. Rotstein, O.A. Adeyi, G.A. Levy, S. Keshavjee, D.R. Grant, M. Selzner.* From the Multi Organ Transplant Program, Toronto General Hospital, Department of Surgery, Toronto.
- 0906 0121** Pancreatic cancer and predictors of survival: Comparing the CA 19–9/Bilirubin ratio with the McGill Brisbane Scoring System. *S. Dumitra, J. Abou Khalil, M. Jamal, P. Chaudhury, G. Zogopoulos, P. Metrakos, J. Tchervenkov, J. Barkun.* From the Department of Surgery, McGill University, Montréal.
- 0917 0196** A phase II study of aggressive metastasectomy for intra and extrahepatic metastases from colorectal cancer. *A.C. Wei, N. Coburn, C.-A. Moulton, S.P. Cleary, C.H. Law, P. Greig, G. Steven.* From the University Health Network and the Sunnybrook Health Sciences Centre, Toronto.

Trauma Association of Canada and Committee on Trauma/American College of Surgeons Resident Trauma Paper Competition

Description: Research papers in clinical and basic science in the fields of trauma, sepsis and critical care will be presented by trauma Fellows and residents from Trauma programs from throughout Canada. Two best clinical and basic science papers from Eastern Canada and Western Canada will be selected. The winners may be invited to present their work at an international trauma resident papers competition in the Spring of 2013 where if selected they will represent Canada at the Annual meeting of the American College of Surgeons, Committee on Trauma.

Learning objectives: The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will leave with an understanding and increased awareness of trauma related research by young investigators throughout Canada.

Concours de l'Association canadienne de traumatologie et le Comité sur la traumatologie/American College of Surgeons d'exposés sur la traumatologie de résidents canadiens

Description : Des Associés et des résidents en traumatologie des programmes de formation dans ce domaine de tout le Canada présenteront des exposés de recherche en science clinique ou en science fondamentale. Les deux meilleurs exposés de l'Est et de l'Ouest du Canada, l'un en science clinique, l'autre en science fondamentale seront choisis. Les gagnants peuvent être invités à présenter leur travail au printemps 2013 au concours international annuel d'exposés sur la traumatologie, où, s'ils sont sélectionnés, ils représenteront le Canada lors de la réunion annuelle de l'*American College of Surgeons*, le Comité sur les traumatismes.

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants seront en mesure de comprendre et auront eu une vue d'ensemble de la recherche dans le domaine de la traumatologie effectuée par des chercheurs en début de carrière de tout le Canada.

CAGS Allied Health Care Symposium: Surgical patient safety – A multidisciplinary team approach

Learning objectives: The session is designed for all health care professionals working with the surgical patient, with a focus on issues affecting surgical patient safety. At the end of the session, participants will have a comprehensive understanding of the patient journey from the preoperative, intraoperative, and postoperative phases, and the measures put in place by the multidisciplinary team to maintain patient safety.

Symposium de l'ACCG des professionnels de la santé paramédicaux : La sécurité d'un patient chirurgical – Une approche d'équipe multidisciplinaire

Objectifs d'apprentissage : La session s'adresse à tous les professionnels de soins de santé qui travaillent avec le patient chirurgical, en mettant l'accent sur les questions touchant la sécurité des patients chirurgicaux. Au terme de la session, les participants auront une compréhension globale du parcours du patient des phases préopératoires, peropératoires et postopératoires, et les mesures mises en place par l'équipe multidisciplinaire pour maintenir la sécurité des patients.

Chaired by: L. Mrkonjic, Calgary

- 0800** Introduction: L. Mrkonjic, Calgary
- 0805** Panel discussion – Care of the surgical patient from preop to postop: J. Bielesh, L. Duke, M. Hill, E Veenstra, Calgary
- 0850** Intraoperative positioning – Keeping the patient safe before we even begin: R. Morrison, Calgary
- 0910** DVT prevention – Preventing surgical related pulmonary embolism: S. Tuininga, Calgary
- 0940** Safe handling of specimens: B. Gorday, S. Soucy, L. Udoomoren, Calgary
- 1000** Refreshment break
- 1030** Panel – Implementation of the safe surgery checklist – What have we improved on?: G. Eshun, L. Mrkonjic, L. Pfeuti, S. Reader, Calgary
- 1115** QA safety reviews – What happens to the RLS when we click ‘submit’: L. Strosher, Calgary
- 1135** High functioning teams – How communication plays a vital role/effective debriefing/disclosure: S.C. Grondin, University of Calgary, Calgary

Learning objectives: The session is designed for all thoracic surgeons and residents. At the end of the session, participants will gain an understanding of the types of research being conducted in thoracic surgery and be able to identify potential areas of collaboration.

Communications de l'ACCT

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens thoraciques et aux résidents de la spécialité. Au terme de la session, les participants connaîtront les axes de recherche actuels en chirurgie thoracique et pourront préciser des domaines qui se prêteraient à la recherche en collaboration.

Chaired by: A. Seely, Ottawa

- 1000 0094** A comparison of minimally invasive versus open Ivor-Lewis esophagectomy. *M. Sudarshan, L.E. Ferri*. From the McGill University, Montréal.
- 1015 0096** Predictors of lymph node metastasis in early esophageal adenocarcinoma: Is endoscopic resection worth the risk? *L. Lee, G. Darling, C. Pedneault, V. Marcus, D.S. Mulder, L.E. Ferri*. From the McGill University Health Centre, Montréal, and the University Health Network, Toronto.
- 1030 0097** How well can thoracic surgery residents operate? Comparing resident and program directors opinions. *A. Schofield, J. Edwards, E. Oddone Paolucci, C. Schieman, E. Kelly, R. Servatyari, S.C. Grondin*. From the University of Calgary, Calgary.
- 1045 0098** The impact of extremes of age on short- and long-term outcomes following surgical resection of esophageal malignancy. *S. Markar, D. Low*. From the Virginia Mason Medical Center, Seattle, WA.

1000-1130 (MacLeod Hall B, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Symposium: Competency-based curricula in surgery – Are we ready to implement research knowledge into clinical practice?

Learning objectives: The session is designed for program directors, surgical educators and surgical residents. At the end of the session, participants will have discussed the principles of curriculum design, and validation; reviewed the current evidence on the effectiveness of training curricula in surgery; discussed the role of non-technical skills in surgery and their impact on team performance and patient safety; reviewed the experience accumulated during the implementation of a competency-based training curriculum in surgery and provide recommendations for future initiatives.

Symposium de l'ACCG : Les programmes d'études axés sur les compétences en chirurgie – Sommes-nous prêts à intégrer le savoir issu de la recherche à la pratique clinique?

Objectifs d'apprentissage : La session s'adresse aux directeurs de programme, aux éducateurs en chirurgie et aux résidents en chirurgie. Au terme de la session, les participants auront abordés les principes de la conception du curriculum et la validation; examinés les données actuelles sur l'efficacité des programmes de formation en chirurgie; examinés le rôle des compétences non techniques en chirurgie et leur impact sur la performance de l'équipe et de la sécurité des patients; examinés l'expérience acquise au cours de la mise en œuvre d'un programme de formation de base de compétences en chirurgie et formuler des recommandations pour les futures initiatives.

Chaired by: T. Grantcharov, Toronto

- 1000** Principles of competency-based curriculum design and validation in surgery: V. Palter, University of Toronto, Toronto
- 1015** The role of structured and objective assessment in the process of skills acquisition and certification: S. DeMontbrun, University of Toronto, Toronto
- 1030** Teaching and testing non-technical skills in surgery: N. Dedy, University of Toronto, Toronto
- 1045** Competency-based curriculum in general surgery – Lessons learned from the implementation: S. Ashamalla, University of Toronto, Toronto
- 1100** Panel discussion: How do we move from local initiatives to national implementation?

1000-1130 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Symposium: Endoscopy – Innovation and intervention

Learning objectives: The session is designed for all practising general surgeons and surgery residents. Endoscopy and endoluminal procedures are integral to managing a variety of surgical and medical conditions. At the end of the session, participants will have reviewed the current state of therapeutic endoscopy for both upper and lower gastrointestinal pathology available today; be able to highlight the future direction of endoscopy and endoscopic therapeutics which will change the way patients are managed in the not-so-distant future.

Symposium de l'ACCG : Endoscopie – Innovation et intervention

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et aux résidents en chirurgie. Les procédures endoscopiques et endoluminales font partie intégrante de la gestion de divers problèmes médicaux et chirurgicaux. Au terme de la session, les participants auront revue l'état actuel de l'endoscopie thérapeutique disponible à ce jour pour la pathologie gastro-intestinale haute et basse; seront en mesure de mettre en évidence l'orientation future de l'endoscopie et l'endoscopie thérapeutiques qui changera la façon dont les patients sont gérés dans un avenir pas si lointain.

Chaired by: D. Hochman, Winnipeg

- 1000** Endoscopy – Innovation and intervention: *P. Kortan, St. Michael's Hospital, Toronto*
- 1100** Question and answers

- 1000 0173 Laparoscopic right hemicolectomy with complete mesocolic excision provides acceptable perioperative outcomes but is complex and time consuming: Analysis of learning curves for a novice minimally invasive surgeon. *G. Melich, D. Hyoun Jeong, H. Hur, S. Hyuk Baik, N. Kyu Kim, J. Faria, B. Soh Min.* From the Jewish General Hospital, McGill University, Montréal and the Department of Surgery, Yonsei University College of Medicine, Seoul, South Korea.
- 1015 0174 Intraoperative quality assessment following double stapled circular colorectal anastomosis. *S. Knowles, K. Lumb, P. Colquhoun.* From the Division of General Surgery, Schulich School of Medicine, University of Western Ontario, London.
- 1030 0175 Improving patient outcomes through quality assessment of rectal cancer care. *D. Richardson, G. Porter, P. Johnson.* From Dalhousie University, Halifax.
- 1045 0176 Are physicians willing to accept a decrease in treatment effectiveness for improved functional outcomes for low rectal cancer? *A.M. Borowiec, N.N. Baxter, S. Schmocker, H. Huang, J.C. Victor, M.K. Krzyzanowska, J. Brierley, R.S. McLeod, E.D. Kennedy.* From the University of Toronto, Toronto.
- 1100 0177 Turnbull-Cutait delayed coloanal anastomosis for the treatment of distal rectal cancer: A prospective cohort study. *J. Hallet, H. Milot, E. Desrosiers, A. Lebrun, S. Drôlet, A. Bouchard, R.C. Grégoire.* From the Department of Surgery, Université Laval, and the Department of Surgery, Centre hospitalier universitaire de Québec, Québec.
- 1115 0178 Preoperative high-dose rate brachytherapy in preparation for sphincter preservation surgery for patients with advanced cancer of the lower rectum. *R. Boissonneault, T. Vuong, R. Loungnarath, E. DeBroux, A.S. Liberman, P. Charlebois, B. Stein, C. Richard.* From the University of Montréal and McGill University, Montréal.

1000-1130 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

CSSO Symposium: Current management of the axilla in breast cancer

Learning objectives: The session is designed for all general surgeons and residents involved in the management of patients with breast cancer. At the end of the session the participants will be able to identify breast cancer patients who are best suited for axillary nodal staging by sentinel node biopsy and who should be considered for a completion axillary node dissection. Participants will also be able to demonstrate an understanding of the implications of axillary nodal staging strategies to the provision of adjuvant chemotherapy and radiation therapy. Attendees will be invited to debate current controversies and participate in the development of a Canadian consensus statement addressing current management of the axilla in breast cancer.

Symposium de la SCOC : Prise en charge actuelle de l'aisselle pour un cancer du sein

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens généraux et résidents impliqués dans la gestion des patients atteints de cancer du sein. Au terme de la session, les participants seront en mesure d'identifier les patientes atteintes d'un cancer du sein pour qui la classification de l'envahissement ganglionnaire axillaire par biopsie du ganglion lymphatique sentinel convient le mieux, et lesquelles devraient être évaluées en vue d'un évidement axillaire complet. Les participants pourront également démontrer leur compréhension des répercussions des stratégies de classification de l'envahissement ganglionnaire axillaire sur la provision de chimiothérapie adjuvante et de radiothérapie. Les participants seront invités à débattre des controverses actuelles et de participer à l'élaboration d'une déclaration de consensus canadien sur la gestion actuelle de l'aisselle dans le cancer du sein.

Chaired by: R. Cheifetz, Vancouver

- 1000 The surgical oncology perspective: *K.K. Hunt, The University of Texas MD Anderson Cancer Center, Houston, TX*
- 1015 The radiation oncology perspective: *T. Phan, Tom Baker Cancer Centre, Calgary*
- 1030 The medical oncology perspective: *M. Webster, Tom Baker Cancer Centre, Calgary*
- 1045 Proposed consensus statement: Panel discussion and questions
- 1120 Closing remarks: R. Cheifetz, Gordon & Leslie Diamond Health Care Centre, Vancouver

1100-1200 (Glen 206, Upper Level, South Building, Calgary TELUS Convention Centre)

CATS F.G. Pearson Lecture: The evolution of MIS esophagectomy

Learning objectives: The session is designed for all thoracic surgeons and residents. At the end of the session, participants will understand how MIS has evolved in the surgical field, including training, mentorship, adaptation and expectations in the public sector; understand how the skills for performing the surgery has progressed with the changes in technology; have discussed the advantages and pitfalls of MIS esophagectomy; have discussed the future with the advances of robotics.

Conférence F.G. Pearson de l'ACCT : L'évolution de l'oesophagectomie à effraction minimale

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens thoraciques et aux résidents. Au terme de la session, les participants seront en mesure de mieux comprendre comment la chirurgie à effraction minimale a évolué dans le domaine chirurgical, y compris la formation, mentorat, adaptation et attentes dans le secteur public; de comprendre comment les compétences pour effectuer la chirurgie à effraction minimale ont évolué avec les changements technologiques; de discuter les avantages et les inconvénients d'oesophagectomie de la chirurgie à effraction minimale; de discuter de l'avenir avec les progrès de la robotique.

Chaired by: A. Seely, Ottawa

Introduced by: D.E. Maziak, University of Ottawa, Ottawa

Speaker: *J. Luketich, University of Pittsburgh School of Medicine, Pittsburgh, PA*

1130-1215 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CSCRS Philip H. Gordon Lecture: Seeking truth in the surgical literature – The education of a medical editor

Learning objectives: The session is designed for general surgeons, colorectal surgeons and trainees in both specialties. At the end of the session, participants will understand the editorial process from the view of a medical editor; understand the peer review process.

Conférence Philip H. Gordon de la SCCCR : À la recherche de la vérité dans la littérature chirurgicale – La formation du rédacteur médical

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, aux chirurgiens du côlon et du rectum et aux résidents dans ces domaines. Au terme de la session, les participants seront en mesure de comprendre le processus de rédaction de l'avis d'un rédacteur médical; de comprendre le processus d'examen par les pairs.

Chaired by: W.D. Buie, Calgary

Speaker: *R.D. Madoff, University of Minnesota, Minneapolis, MN*

1130-1215 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

CSSO Henry Shibata Lecture: Prognostic and predictive markers in breast cancer treatment

Learning objectives: The session is designed for general surgeons, surgical oncologists, surgical residents and allied health professionals with an interest in breast cancer care. At the end of the session, participants will be able to discuss the prognostic and predictive markers used in breast cancer treatment decision-making.

Conférence Henry Shibata de la SCOC : Pronostic et marqueurs prédictifs dans le traitement du cancer du sein

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, oncologues chirurgicaux, résidents en chirurgie et professionnels de la santé ayant un intérêt dans les soins de cancer du sein. Au terme de la session, les participants seront en mesure de discuter les marqueurs pronostiques et prédictifs utilisés dans la prise de décision du traitement pour le cancer du sein.

Chaired by: O.F. Bathe, Calgary

Speaker: *K.K. Hunt, The University of Texas MD Anderson Cancer Centre, Houston, TX*

CABPS/CSCRS/CSSO/CHPBA Poster Session

Learning objectives: The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will leave with an understanding of what others are doing across Canada; a preview of what is on the research horizon; an opportunity to have discussed posters with their authors.

Séance d'affichage de l'ACMBC, la SCCCR, la SCOC, la CHPBA

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants seront en mesure de comprendre ce qui se fait partout au Canada. Ils auront un aperçu des recherches futures. Ils auront eu l'occasion d'en discuter avec les auteurs.

CABPS Judges: C. Menezes, Red Deer; A. Vergis, Winnipeg

CSCRS Judges: D.J. Hochman, Winnipeg; W. Rosen, Calgary

CSSO Judges: L. Helyer, Halifax; S. Latosinsky, London; L. Mack, Calgary; A. Meguerditchian, Montréal

CHPBA Judges: F. Balaa, Ottawa; K. Leslie, London

- 0140** Comparison of breast cancer treatment wait-times in the Southern Interior of British Columbia in 2006 and 2010. *C. Baliski, C. Liberto.* From the BC Cancer Agency, Kelowna.
- 0154** Implementing results from ACOSOG Z0011: Practice-changing or practice-affirming? *B. Wells, R. Saskin, M.-L. Quan.* From the Division of General Surgery, University of Toronto, Toronto, the Institute of Clinical and Evaluative Sciences, University of Toronto, Toronto, and the Department of Surgery, University of Calgary, Calgary.
- 0122** Staged liver resections for bilobar hepatic colorectal metastases: A single centre experience. *E. Simoneau, M.H. Jamal, M. Hassanein, P. Chaudhury, S. Wong, A. Salman, T. Tran, P. Metrakos.* From McGill University, Montréal, and the King Saud University, Riyadh, Saudi Arabia.
- 1220 0009** Sleeve gastrectomy in the super super morbidly obese ($BMI > 60 \text{ kg/m}^2$): A Canadian experience. *R. Favez, M. Roy, S. Villeneuve, A. AlMuntashery, S. Demyttenaere, N. Christou, O. Court.* From the Department of Surgery, McGill University, Montréal.
- 0017** Identification and assessment of technical errors in laparoscopic Roux-en-Y gastric bypass. *E. Bonrath, B. Zevin, N. Dedy, T.P. Grantcharov.* From the St. Michael's Hospital, Toronto.
- 0180** The clinical results of the Turnbull-Cutait delayed coloanal anastomosis: A systematic review. *J. Hallet, H. Milot, S. Drôlet, A. Bouchard, R.C. Grégoire.* From the Québec Centre for Minimally Invasive Surgery – CHUQ, Department of Surgery, Québec.
- 0188** Laparoscopic colorectal surgery in the emergency setting: Trends in the Province of Ontario from 2002 to 2009. *R.P. Musselman, T. Gomes, B.P. Chan, R.C. Auer, H. Moloo, M. Mamdani, M. Al-Omran, O. Al-Obaid, R.P. Boushey.* From the University of Ottawa, Ottawa, the Institute of Clinical Evaluative Sciences, Toronto and the King Saud University, Riyadh, Saudi Arabia.
- 0141** Factors affecting lymph nodes harvest in colorectal carcinoma. *S. Gazala, S. Ghosh, R. McLean, D. Schiller.* From the University of Alberta, and the Cross Cancer Institute, Edmonton.
- 0158** Radiation therapy after breast conserving surgery: When are we missing the mark? *M. Nassif, K. Reidel, N. Trabulsi, S. Meterissian, R. Tamblyn, N. Mayo, A.N. Meguerditchian.* From McGill University, Montréal.
- 0123** Economic model of observation versus immediate resection of hepatic adenomas. *T.T. Vanounou, R.T. Groeschl, D.A. Geller, J.W. Marsh, T.C. Gamblin.* From the Department of Surgery, McGill University, the Jewish General Hospital, Montreal, the Division of Surgical Oncology, Department of Surgery, Medical College of Wisconsin, Milwaukee, WI, the Division of Transplantation, Department of Surgery, University of Pittsburgh School of Medicine, Pittsburgh, PA.
- 1225 0010** Laparoscopic gastric bypass for the treatment of refractory idiopathic Gastroparesis: A report of 2 cases. *A. AlMuntashery, R. Favez, S. Demyttenaere, O. Court, N. Christou.* From the Department of Surgery, McGill University, Montréal.
- 0018** A valid and reliable tool for assessment of surgical skill in laparoscopic Roux-en-Y gastric bypass. *B. Zevin, E.M. Bonrath, R. Aggarwal, T. Grantcharov.* From the University of Toronto, Toronto, the Division of General Surgery, St. Michael's Hospital, Toronto and the Department of Surgery & Cancer, Imperial College London, London, United Kingdom.
- 0181** Is a vertical rectus abdominus flap (VRAM) necessary? An analysis of perineal wound complications. *P. Tuttle, R. Powell, A. Fowler, A. Mathieson.* From the Memorial University of Newfoundland, St. John's.
- 0189** Prevention of perineal hernia after laparoscopic and robotic abdominoperineal resection: Review with case series of internal hernia through pelvic mesh which was placed in attempt to prevent perineal hernia. *G. Melich, D. Ro Lim, B. Soh Min, S. Hyuk Baik, P.H. Gordon, N. Kyu Kim,* From the Jewish General Hospital, McGill University, Montréal and the Department of Surgery, Yonsei University College of Medicine, Seoul, South Korea.
- 0142** Laparoscopic adrenalectomy for metastases. *U. Hameed, T.D. Jackson, A. Okrainec, T.P. Penner, D.R. Urbach.* From the University Health Network and University of Toronto, Toronto.
- 0156** Long-term outcomes following resection of retroperitoneal recurrence of colorectal cancer. *F. Si Wai Zih, R. Razik, E. Haase, A. Mathieson, A.J. Smith, C.J. Swallow.* From the Mount Sinai Hospital, the University of Toronto, and the Sunnybrook Health Sciences Centre, Toronto.
- 0124** Resection of colorectal liver metastasis in the elderly. *B. Howe, K. Croome.* From the University of Western Ontario, London.

Continued from page 41

- 1230 0011** Duodeno-ileal switch as a primary bariatric and metabolic surgical option for the severely obese patient with comorbidities: Review of a single-institution case series of duodeno-ileal intestinal bypass. *F. Moustarah, L. Biertho, F.-S. Hould, S. Lebel, O. Lescelleur, S. Marceau, P. Marceau, S. Biron.* From the Department of Surgery, Institut universitaire de cardiologie et de pneumologie de Québec, Université Laval, Québec.
- 0019** Psychiatric predictors of presurgery drop-out following suitability assessment for bariatric surgery. *S. Sockalingam, S. Cassin, S. Crawford, K. Pitzul, A. Khan, R. Hawa, T. Jackson, A. Okrainec.* From the University Health Network, the Ryerson University, the University of Toronto, and the Toronto Western Hospital, Toronto.
- 0182** Fistula plug versus endorectal anal advancement flap for the treatment of high transsphincteric cryptoglandular anal fistulas: A systematic review and meta-analysis. *L. VanHouwelingen, K. Martin, K. Vogt, M.C. Ott.* From the University of Western Ontario, London.
- 0190** Effect of rectal cancer treatments on quality of life. *P.T. Phang, A. Lo, I. Pinsk, C. Brown, M. Raval.* From the St. Paul's Hospital, Vancouver.
- 0143** You have a message! Social networking as a motivator for fundamentals of laparoscopic surgery (FLS) training. *M. Sudarshan, S. Dumitru, J. Duplisea, S. Wexler.* From the McGill University Health Centre, Montréal.
- 0157** Clinical research in surgical oncology: An analysis of clinicaltrials.gov. *A.S. Menezes, A. Barnes, A.S. Scheer, H. Moloo, R.P. Boushey, E. Sabri, R.A.C. Auer.* From the Division of General Surgery, Department of Surgery, Division of General Surgery, University of Ottawa, and The Ottawa Hospital Research Institute, Ottawa.
- 0125** Acceptable long-term survival in patients undergoing liver resection for metastases from noncolorectal, nonneuroendocrine, nonsarcoma malignancies. *J. Hawel, K. Croome, D. Quan, R. Hernandez.* From the London Health Sciences Centre, London.
- 1235 0012** Management of large paraesophageal hernias in morbidly obese patients with laparoscopic sleeve gastrectomy: A case series. *M. Khokhotva, T. Grantcharov.* From the Queen's University, Kingston and the University of Toronto, Toronto.
- 0020** Predictors of outcomes following Roux-en-Y gastric bypass surgery at The Ottawa Hospital. *C. Smith, B. Brar, J. Mamazza, I. Raîche, J.-D. Yelle, F. Haggard, H. Moloo.* From the Department of Surgery, University of Ottawa, Ottawa.
- 0183** Maternal and neonatal outcomes following colorectal cancer surgery. *F. Haggard, G. Pereira, K. Einarsdottir, H. Moloo, R. Boushey, J. Mamazza.* From the Division of General Surgery, The Ottawa Hospital, University of Ottawa, Ottawa and The Institute of Child Health Research, The University of Western Australia, Perth, Australia.
- 0191** The use of antibacterial sutures as an adjunctive preventative strategy for surgical site infection in Canada: an economic analysis. *L.J. Goldstein, H. Cheng.* From the Johnson & Johnson Medical Companies, Markham.
- 0155** Should lymph node retrieval be a surgical quality indicator in colon cancer? *R.P. Musselman, M. Xie, K. McLaughlin, C. Marginean, T.N. Moyana, H. Moloo, R.P. Boushey, R.C. Auer.* From the University of Ottawa, Ottawa.
- 0126** Patient and clinicopathological features and prognosis of CK19+ hepatocellular carcinomas: A case-control study. *J.-H. Jang, P.T.W. Kim, P. D. Greig, S. Gallinger, C.-A. Moulton, A.C. Wei, S.E. Fischer, S.P. Cleary.* From the University Health Network, the University of Toronto, Toronto.
- 1240 0013** Early results of the Ontario Bariatric Surgical Program: Using the bariatric registry. *M. Anvari, A. Sharma, S. Yusuf.* From the McMaster University, Hamilton and the University of Alberta, Edmonton.
- 0021** Prophylactic management of cholelithiasis in bariatric patients: Is routine cholecystectomy warranted? *C. Smith, B. Brar, F. Haggard, R. Dent, J. Mamazza, I. Raîche, H. Moloo.* From the Department of Surgery, University of Ottawa, Ottawa.
- 0184** Transanal drainage to treat anastomotic leaks after low anterior resection for rectal cancer: A valuable option. *É. Sirois-Giguère, C. Boulanger-Gobeil, A. Bouchard, J.P. Gagné, R.C. Grégoire, C. Thibault, P. Bouchard.* From the Université Laval and the Centre de chirurgie minimalement invasive de Québec, Québec.
- 0192** Impact of socioeconomic status on colorectal cancer screening and stage at presentation: Preliminary results of a population-based study from an urban Canadian centre. *C. Wen, C. Wong, N. Johnston, F. Farrokhyar, W. Stephen, S. Kelly, L. Lindsay, S. Forbes.* From the McMaster University, Hamilton.
- 0159** The accuracy of endorectal ultrasound in staging rectal lesions in patients undergoing transanal endoscopic microsurgery. *M. Leon-Carlyle, J.A. Brown, J. Hamm, P.T. Phang, M.J. Raval, C.J. Brown.* From the Departments of General Surgery and Radiology, St. Paul's Hospital, and the Surgical Oncology Network, British Columbia Cancer Agency, Vancouver.
- 0127** The management of blunt hepatic trauma in the age of angioembolization: A single centre experience. *K. Bertens, K.N. Vogt, R. Hernandez-Alejandro, D.K. Gray.* From the University of Western Ontario, London.
- 1245 0014** Improving access to bariatric surgical care: Is universal healthcare the answer? *J. Kwong, A. Okrainec, K.B. Pitzul, D.R. Urbach, T. Jackson.* From the University of Toronto, University Health Network, Toronto.

- 0022** Early outcomes of Roux-en-Y gastric bypass in a publicly funded obesity program. *K.A. Whitlock, R.S. Gill, T. Ali, X. Shi, D.W. Birch, S. Karmali.* From the Faculty of Medicine and Dentistry and the Department of Surgery, University of Alberta, and the Centre for the Advancement of Minimally Invasive Surgery (CAMIS), Royal Alexandria Hospital, Edmonton.
- 0185** Trends in colon cancer in Ontario – 2002–2009. *B.P. Chan, T. Gomes, R.P. Musselman, R.C. Auer, H. Moloo, M. Mamdani, M. Al-Omran, R.P. Boushey, O. AlObeed.* From the University of Ottawa, Ottawa, the Institute of Clinical Evaluative Sciences, Toronto, and the King Saud University, Riyadh, Saudi Arabia.
- 0193** Initial perioperative results of the first transanal endoscopic microsurgery (TEM) program in the province of Quebec. *A. Lebrun, A. Bouchard.* From the Saint-François d'Assise Hospital (CHUQ), Québec.
- 0146** A Qualitative Study on Rectal Cancer Patients' Preferences for Location of Surgical Care. *M. Nostedt, D. Hochman, D. Wirtzfeld, A. McKay, B. Yip, C.S. Yaffe, R. Silverman, J. Park.* From the University of Manitoba, Winnipeg.
- 0160** Quality improvement in gastrointestinal cancer surgery: Expert panel recommendations for priority research areas. *A.C. Wei, K.S. Devitt, M. Wiebe, O.F. Bathe, R.S. McLeod, B. Taylor, D.R. Urbach.* From the University Health Network, Toronto, the University of Calgary, Calgary, Mount Sinai Hospital, and the University Health Network, Toronto.
- 0128** Liver resections for non-colorectal and non-neuroendocrine metastases: An evaluation of oncologic outcomes. *J.F. Rekman, J.M. Aubin, J.J. Fairfull-Smith, R. Mimeaule, F.K. Balaa, G. Martel.* From the Liver and Pancreas Surgery Unit and the Division of General Surgery, The Ottawa Hospital, University of Ottawa, Ottawa.
- 1250 0015** Early and liberal postoperative exploration can reduce morbidity and mortality in patients undergoing bariatric surgery. *S. Elkasseem, D. Lindsay, P. Sullivan, L. Smith.* From the University of Toronto, Toronto.
- 0023** Similar incidence of gastrojejunal anastomotic stricture formation with hand-sewn and 21mm circular stapler techniques during Roux-en-Y gastric bypass. *R.S. Gill, K.A. Whitlock, X. Shi, K. Sarkhosh, D.W. Birch, S. Karmali.* From the Department of Surgery and the Faculty of Medicine & Dentistry, University of Alberta, and the Centre for the Advancement of Minimally Invasive Surgery (CAMIS), Royal Alexandria Hospital, Edmonton.
- 0186** Validation of electronically derived short-term outcomes in colorectal surgery. *B.P. Chan, J.B.P. Armstrong, D.A. Fergusson, A.J. Forster, R.P. Boushey.* From the University of Ottawa and The Ottawa Hospital, Ottawa.
- 0194** Use of negative pressure wound therapy decreases perineal wound infections following abdominal perineal resection. *S.A. Chadi, N.G. Parry, K. Leslie, M.C. Ott.* From the University of Western Ontario, London.
- 0147** The effect of surgery on local recurrence in young women with breast cancer. *P. Hebbard, N. Baxter, L. Yun, E. Rakovitch, F. Wright, E. Warner, D. McCready, N. Hodgson, M.L. Quan.* From the Foothills Medical Centre, University of Calgary, Calgary, Alta., St. Michael's Hospital, the Institute for Clinical Evaluative Sciences, the Sunnybrook Health Sciences Centre, the University Health Network, University of Toronto, Toronto, and the Juravinski Cancer Centre, McMaster University, Hamilton.
- 0161** Factors influencing the quality of local management of ductal carcinoma in situ: A cohort study. *S. Krotneva, K. Reidel, N. Mayo, R. Tamblyn, A. Meguerditchian.* From the McGill University Health Centre (MUHC) and the McGill University, Montréal.
- 0129** Developing an evidence-based clinical pathway for patients undergoing pancreaticoduodenectomy. *A.C. Wei, K.S. Devitt, A. Ramjaun and S. Gallinger.* From the University Health Network, Toronto.
- 1255 0148** Elevated IL-6 and IL-8 levels in tumor microenvironment are not associated with increased serum levels in humans with Pseudomyxoma peritonei and peritoneal mesothelioma. *S.J. Shetty, B. Natarajan, V. Govindarajan, P. Thomas, B.W. Loggie.* From the Creighton University Medical Center, Omaha, NE.
- 0162** Papillary thyroid microcarcinoma: Does size matter? *N.L. Bradley, J.D. Hamm, S.M. Wiseman.* From the Department of General Surgery, St. Paul's Hospital, University of British Columbia, and the BC Cancer Agency, Vancouver.
- 0130** Hepatitis C infection and hepatocellular carcinoma in liver transplant: A 20-year experience. *S. Dumitri, S. Alabbad, D. Constantinos, M. Hassanein, J. Barkun, P. Metrakos, S. Paraskevas P. Chaudhury, J. Tchervenkov.* From the Department of Surgery, McGill University, Montréal.
- 1300 0149** Conversion from laparoscopic to open approach during gastrectomy: A population-based analysis. *M. Dixon, S. Brar, A. Mahar, C. Law, N. Coburn.* From the Sunnybrook Research Institute, Toronto, the Department of Surgery, Maimonides Medical Center, Brooklyn, NY, the Department of Surgery, University of Toronto, and the Department of Community Health and Epidemiology, Queen's University, Kingston.
- 0163** Hyperthermic isolated limb perfusion for extremity soft tissue sarcomas: Systematic review of clinical efficacy and quality assessment of reported trials. *N. Trabulsi, L. Patakfalvi, M. Nassif, R. Turcotte, A. Nichols, A. Meguerditchian.* From the Departments of Surgery and Orthopedic Surgery, McGill University, Montréal, and the Urban Institute, Washington, DC.
- 0131** The effect of medication on the risk of post-ERCP pancreatitis. *S. Kouibi, M. Borgaonkar.* From the Memorial University of Newfoundland, St. John's.

- 1305 0150** A scoping review of surgical process improvement tools (SPITs) in cancer surgery. *A.C. Wei, K.S. Devitt, M. Wiebe, O.F. Bathe, R.S. McLeod, N.N. Baxter, A.R. Gagliardi, E.D. Kennedy, D.R. Urbach.* From the University Health Network, Toronto, the University of Calgary, Calgary, Mount Sinai Hospital, Toronto, St. Michael's Hospital, Toronto.
- 0164** Adherence to antiestrogen therapy in seniors with breast cancer: How well are we doing? *N. Trabulsi, K.E. Riedel, N.E. Winslade, J.-P. Grégoire, S. Meterissian, M. Abrahamovicz, A. Meguerditchian.* From the Departments of Surgery and of Clinical Epidemiology and Biostatistics, McGill University, the Department of Medicine, School of Physical and Occupational Therapy, McGill University, the Clinical and Health Informatics Research Group, McGill University, Montréal, and the Faculty of Pharmacy, Laval Université Laval, Québec.
- 0132** Temporal trends in the use of diagnostic imaging for patients with hepato-pancreato-biliary (HPB) conditions: How much ionizing radiation are we really using? *J.-F. Ouellet, D. Tanyingoh, E. Dixon, G.G. Kaplan, R.P. Myers, T.J. Howard, F.R. Sutherland, N.J. Zyromski, C.G. Ball.* From the Departments of Surgery and Medicine, University of Calgary, Calgary, and the Department of Surgery, Indiana University, Indianapolis, IN.
- 1310 0151** Splenectomy during gastric cancer surgery: A population-based study. *M. Dixon, S. Brar, A. Mahar, C. Law, N. Coburn.* From the Sunnybrook Research Institute, Toronto, the Department of Surgery, Maimonides Medical Center, Brooklyn, NY, the Department of Surgery, University of Toronto, the Department of Community Health and Epidemiology, Queen's University, Kingston.
- 0165** Parathyroid carcinoma: Challenging the surgical dogma? *L. Chin-Lenn, J. Pasieka.* From the University of Calgary, Calgary.
- 1315 0152** Defining the polo-like kinase 4 (Plk4) Interactome in cancer cell protrusions. *K. Kazazian, F. Zih, C. Rosario, J. Dennis, A.-C. Gingras, C. Swallow.* From the Samuel Lunenfeld Research Institute, Mount Sinai Hospital, Division of General Surgery, University of Toronto, Toronto.
- 0166** A qualitative assessment of the journey to delayed breast reconstruction. *H. Cheng, C. McMillan, J. Lipa, L. Snell.* From the Division of Plastic and Reconstructive Surgery, University of Toronto and the Sunnybrook Health Sciences Centre, Toronto.
- 1320 0153** Neoadjuvant imatinib mesylate for locally advanced gastrointestinal stromal tumours. *M. Lemke, Y.-J. Ko, C. Rowsell, C.H.L. Law.* From the Sunnybrook Health Sciences, Toronto.
- 0195** The role of yoga therapy in breast cancer patients. *A. M. Petrucci, M. Sudarshan, S. Dumitru, J. Duplisea, S. Wexler, S. Meterissian.* From the McGill University Health Centre, Royal Victoria Hospital, Montréal.

1330-1530 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Instructional Video Session: Gastric surgery and paraesophageal hernia surgery

Learning objectives: The session is designed for practising surgeons, residents and other health care professionals who have an interest in gastric surgery or hiatus hernia repair. The session will demonstrate through the use of videos solicited from expert laparoscopic surgeons the approach to the management of gastric tumours and the management of paraesophageal hernias. The format for the session includes video presentations followed by discussion periods to analyze the presented videos. At the end of the session, participants will have reviewed current laparoscopic techniques for management of gastric cancer and gastrointestinal stromal tumours; paraesophageal hernia repair; redo surgery for hiatus hernias.

Session éducative vidéo de l'ACCG : Chirurgie des hernies gastriques et paraoesophagiennes

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active, aux résidents et aux autres professionnels de la santé qui ont un intérêt en chirurgie gastrique ou en réparation d'une hernie hiatale. La session fera la démonstration, par l'utilisation de vidéos sollicitées d'experts chirurgiens laparoscopiques, l'approche de la gestion des tumeurs gastriques et la gestion des hernies paraoesophagiennes. Le format pour cette session comprend des présentations vidéo, suivies de périodes de discussion pour analyser les vidéos présentées. Au terme de la session, les participants auront examinés les techniques laparoscopiques actuelles pour la gestion du cancer de l'estomac et des tumeurs stromales gastro-intestinales; la réparation des hernies paraoesophagiennes; refaire une chirurgie pour les hernies hiatales.

- Chaired by: A.T. Meneghetti, Vancouver
- 1330** Welcoming remarks and introduction: A.T. Meneghetti, University of British Columbia, Vancouver
- 1335** Tips and tricks for the laparoscopic management of gastric GIST: T. Jackson, University Health Network, Toronto
- 1345** Discussion
- 1355** Robotic-assisted laparoscopic gastrectomy: S. Bergman, McGill University, Montréal
- 1405** Discussion
- 1415** Takedown of wrap following lap PEH repair with biologic mesh: D.W. Birch, University of Alberta, Edmonton
- 1425** Discussion
- 1435** Laparoscopic treatment of paraesophageal hernias — Is there a need for an anti-reflux procedure?: T. Grantcharov, St. Michael's Hospital, Toronto
- 1445** Discussion
- 1455** Laparoscopic en-block splenic, gastric and diaphragmatic resection for splenic neoplasm: J. Ellsmere, Dalhousie University, Halifax
- 1505** Discussion
- 1515** Closing remarks and evaluation: A.T. Meneghetti, University of British Columbia, Vancouver

Saturday, September 15 / Le samedi 15 septembre

1330-1530 (Glen 208-209, Upper Level, South Building, Calgary TELUS Convention Centre)

CAGS Paper Session

Learning objectives: The session is designed for general surgeons, colorectal surgeons and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future direction of colorectal diseases and their management in an evidence-based format.

Communications de l'ACCG

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, aux chirurgiens du côlon et du rectum, et aux résidents dans ces domaines. Au terme de la session, les participants seront en mesure de comprendre et de préciser les orientations actuelles et futures des maladies colorectales et de leur prise en charge fondée sur des données probantes.

Co-chaired by: S. Bergman, Montréal; A. Vergis, Winnipeg (TBC)

- 1330 0036** The relationship between treatment factors and postoperative complications after radical surgery for rectal cancer. *D. Richardson, G. Porter, P. Johnson*. From the Dalhousie University, Halifax.
- 1345 0037** Risk of ventral hernia after laparoscopic colon surgery. *F. Haggard, R. Boushey, H. Moloo, I. Raiche, J. Mamazza*. From the Division of General Surgery, The Ottawa Hospital, University of Ottawa, Ottawa, Ont.
- 1400 0038** Urinary metabolomics as a tool for early detection of Barrett's and esophageal cancer. *V.W. Davis, D.E. Schiller, D. Eurich, M.B. Sawyer*. From the University of Alberta, Edmonton.
- 1415 0039** Construct validity of individual and summary performance metrics associated with a computer-based laparoscopic simulator. *J. Rivard, A. Vergis, B. Unger, K. Hardy, C. Andrew, L. Gillman, J. Park*. From the University of Manitoba, Winnipeg.
- 1430 0040** Impact of a city-wide health system reorganization on emergency department visits in hospitals in surrounding communities. *J. Agzarian, J. Prodger, W. Kelly, S. Kelly, D. Prodger*. From McMaster University and Hillfield Strathallan College, Hamilton, and the Joseph Brant Memorial Hospital, Burlington.
- 1445 0041** Transcatheter aortic valve implantation for the nonoperative management of aortic stenosis: A cost-effectiveness analysis. *J. Racz, E. Ewara, J. Martin, S. Sarma, M. Chu, C. Schlachta, G. Zaric*. From the University of Western Ontario Schulich School of Medicine and Dentistry, the University of Western Ontario, and the London Health Sciences Centre, London.
- 1500 0042** Breast cancer: Racial differences in age of onset. A potential confounder in Canadian screening recommendations. *J. Winocour, K. Al-Ali, K. Briggs, R. George*. From the St. Michael's Hospital, Toronto.
- 1515 0043** Risk taking in surgery: in and out of the comfort zone. *N.R. Zilbert, M.L. Murnaghan, A. Leung, G. Regehr, C.-A. Moulton*. From The Wilson Centre and the Department of Surgery, University of Toronto, Toronto, and the Centre for Health Education Scholarship, University of British Columbia, Vancouver.

1330-1530 (MacLeod Hall B, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS/TAC Symposium: Should I change the way I resuscitate trauma patients?

Learning objectives: The session is designed for practising general surgeons that has to resuscitate trauma patients. At the end of the session, the participants will understand the most recent evidence on blood transfusion, end-points of resuscitation, damage control and vascular access; form opinion on the best strategies for blood transfusion, oxygen delivery, damage control and vascular access for the resuscitation of trauma patients.

Symposium de l'ACCG et de l'ACT : Dois-je changer la façon dont je réanime des patients en traumatologie?

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux en pratique active qui doivent réanimer des patients en traumatologie. Au terme de la session, les participants seront en mesure de comprendre les données les plus récentes sur la transfusion sanguine, les critères d'évaluation de réanimation, le contrôle des dommages et des accès vasculaires; faire une opinion sur les meilleures stratégies pour la transfusion sanguine, oxygénation, contrôle des dommages et des accès vasculaires pour la réanimation des patients en traumatologie.

Chaired by: J. Kortbeek, Calgary

- 1330** Everything a general surgeon needs to know on blood transfusion: *B. Nascimento*, University of Toronto, Toronto
- 1350** Questions and answers: *B. Nascimento*, University of Toronto, Toronto
- 1400** Oxygen delivery – Past, present and future: *M. Hameed*, University of British Columbia, Vancouver
- 1415** Questions and answers: *M. Hameed*, University of British Columbia, Vancouver
- 1425** What does damage control resuscitation mean for penetrating trauma?: *J. Kortbeek*, University of Calgary, Calgary
- 1440** Vascular access in trauma: *P. Engels*, University of Alberta, Edmonton
- 1500** Questions and answers: *P. Engels*, University of Alberta, Edmonton; *J. Kortbeek*, University of Calgary, Calgary

1330-1530 (MacLeod Hall C, Lower Level, South Building, Calgary TELUS Convention Centre)

CSCRS Symposium: Controversies in colon cancer

Learning objectives: The session is designed for general surgeons, colorectal surgeons and trainees who manage patients with colon cancer. The treatment of colon cancer is changing based on the adoption of principles initially applied to rectal cancer. The session will examine the evidence behind these principles and the expected improvement in outcomes. At the end of the session, participants will understand and be able to apply the principles of extended mesenteric resection, options for obstructed tumours, neoadjuvant therapy for T4 colon cancer, and palliative surgery.

Continued from page 45

Symposium de la SCCR : Controverses dans le cancer du côlon

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, chirurgiens colorectaux et stagiaires qui gèrent les patients atteints de cancer du côlon. Le traitement du cancer du côlon évolue sur l'adoption de principes initialement appliqués au cancer du rectum. La session examinera la preuve derrière ces principes et à l'amélioration des résultats attendus. Au terme de la session, les participants comprendront et seront en mesure d'appliquer les principes de la résection mésentérique étendue, les options pour les tumeurs obstruées, le traitement néoadjuvant T4 du cancer du côlon et la chirurgie palliative.

Chaired by: W.D. Buie, University of Calgary, Calgary

- 1330** Lymph nodes how many, how high, extra mesenteric: N. Baxter, St. Michael's Hospital, Toronto
- 1350** Obstructing tumours – Ostomies and stents: J. Heine, University of Calgary, Calgary
- 1410** Operative management of stage IV asymptomatic primary: S. Kelly, McMaster University, Hamilton
- 1430** T4 tumours and neoadjuvant chemotherapy: *R.D. Madoff, University of Minnesota, Minneapolis, MN*
- 1450** Palliative surgery if, when and what to do: S. Feinberg, University of Toronto, Toronto
- 1510** Case presentations with panel and audience participation: N. Baxter, St. Michael's Hospital, Toronto; S. Feinberg, University of Toronto, Toronto; J. Heine, University of Calgary, Calgary; S. Kelly, McMaster University, Hamilton; *R.D. Madoff, University of Minnesota, Minneapolis, MN*
-

1330-1530 (Glen 201-202, Upper Level, South Building, Calgary TELUS Convention Centre)

CSSO Paper Session

Learning objectives: The session is designed for general surgeons, surgical oncologists, and trainees in these specialties. At the end of the session, participants will be able to understand and appreciate the current and future directions of surgical oncology problems and their management in an evidence-based format.

Communications de la SCOC

Objectifs d'apprentissage : La session s'adresse aux chirurgiens généraux, aux chirurgiens oncologues et aux résidents dans ces disciplines. Au terme de la session, les participants seront en mesure de préciser les recommandations actuelles et futures sur les problèmes chirurgicaux oncologiques et de leur prise en charge fondée sur des données probantes.

Chaired by: A.N. Meguerditchian, Montréal

- 1330** **0133** Why do women choose mastectomy for breast cancer treatment? A conceptual framework for understanding surgical decision-making in early-stage breast cancer. *A. Covelli, N. Baxter, M. Fitch, F. Wright*. From the Institute of Health Policy Management and Evaluation, the Keenan Research Centre of the Li Ka Shing Knowledge Institute of St. Michael's Hospital, the Odette Cancer Centre at Sunnybrook Health Sciences Centre, the University of Toronto, Toronto.
- 1345** **0134** Synoptic operative reporting: documentation of quality of care data for rectal cancer surgery. *R. Maniar, D.J. Hochman, D.A. Wirtzfeld, A. McKay, C.S. Yaffe, B. Yip, R. Silverman, J. Park*. From the University of Manitoba, Winnipeg.

1545 Molecular markers and esophageal cancer: A. Casson, University of Saskatchewan, Saskatoon

1445-1630 (Glen 203-204, Upper Level, South Building, Calgary TELUS Convention Centre)

CABPS Paper Session

Learning objectives: The session is designed for practising surgeons, surgical residents and surgical researchers. At the end of the session, participants will leave with an understanding of bariatric surgical management and care across Canada; a preview of what is on the research horizon; an opportunity to have discussed papers with their authors.

Communications de l'ACMBC

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active, résidents en chirurgie et chercheurs en chirurgie. Au terme de la session, les participants seront en mesure de comprendre la prise en charge et les soins liés à la chirurgie au baryum au Canada. Ils auront un aperçu des recherches futures. Ils auront eu l'occasion d'en discuter avec les auteurs.

Co-chaired by: T. Grantcharov, Toronto; P. Mitchell, Calgary

- 1445 **0001** Is laparoscopic sleeve gastrectomy a reasonable standalone procedure for super morbidly obese patients? *R. Favez, M. Roy, S. Villeneuve, A. AlMuntashery, S. Demyttenaere, N. Christou, O. Court*. From the Department of Surgery, McGill University, Montréal.
1500 **0002** Postoperative monitoring requirements of patients with obstructive sleep apnea undergoing bariatric surgery. *A. AlMuntashery, R. Favez, S. Demyttenaere, N. Christou, O. Court*. From the Department of Surgery, McGill University, Montréal.
1515 **0003** Role of relaparoscopy in the diagnosis and treatment of bariatric complications in the early postoperative period. *G. Bodie, E. Bonrath, J. Hagen, A. Okrainec, P. Sullivan, T. Grantcharov*. From the University of Toronto.
1530 **0004** Changes of active and total ghrelin, GLP-1 and PYY following restrictive bariatric surgery and their impact on satiety: Comparison of sleeve gastrectomy and adjustable gastric banding. *A. Almamar, A. Sharma, S. Karmali, D.W. Birch*. From the University of Alberta, Edmonton.
1545 **0005** Prioritization and willingness to pay for bariatric surgery: The patient perspective. *R.S. Gill, S.R. Majumdar, X. Wang, R. Tuepah, S.W. Klarenbach, D.W. Birch, S. Karmali, A.M. Sharma, R.J. Padwal*. From the Departments of Surgery and of Medicine, the Centre for the Advancement of Minimally Invasive Surgery (CAMIS), the University of Alberta, the Royal Alexandra Hospital, Edmonton.
1600 **0006** Ventral Hernia at the time of laparoscopic gastric bypass surgery: Should it be repaired? *I. Raïche, C. Smith, F. Haggard, H. Moloo, E.C. Poulin, G. Martel, J.-D. Yelle, J. Mamazza*. From The Ottawa Hospital, Ottawa.
1615 **0007** Linear stapled gastrojejunostomy with transverse hand-sewn enterotomy closure significantly reduces strictures for laparoscopic Roux-en-Y bypass. *C.L. Mueller, T.D. Jackson, T. Penner, K. Pitzul, D.R. Urbach, A. Okrainec*. From the University of Toronto, Toronto.

1530-1630 (Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

CAGS Symposium: Managing common problems in general surgery

Learning objectives: The session is designed for all general surgeons and residents. Through an interactive case based format, experts will discuss and present evidence to support the management of patients presenting with common problems seen by general surgeons. At the end of the session participants will be able to ensure that the care of patients who present with intra-abdominal infection is based on best evidence; understand how the outcome of patients undergoing elective abdominal surgery can be optimized; apply the best evidence to patients treated for biliary tract disease.

Symposium de l'ACCG : Gestion des problèmes courants en chirurgie générale

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens généraux et les résidents. Grâce à un format interactif fondé sur des cas probants, les experts discuteront et présenteront des preuves à l'appui de la gestion des patients présentant des problèmes communs, vus par les chirurgiens généraux. Au terme de la session, les participants seront en mesure de s'assurer que les soins des patients qui présentent une infection intra-abdominale sont basés sur les meilleures preuves; de comprendre comment les résultats des patients subissant une intervention chirurgicale élective abdominale peuvent être optimisés; d'appliquer la meilleure preuve pour les patients traités pour une maladie des voies biliaires.

Chaired by: R.S. McLeod, Toronto

- 1530 Introduction: R.S. McLeod, University of Toronto, Toronto
1535 What is your current practice? Poll the audience: R.S. McLeod, University of Toronto, Toronto
1540 Panel discussion of cases with presentation of supporting evidence: C.J. Brown, University of British Columbia, Vancouver; E. Dixon, University of Calgary, Calgary; S. Forbes, McMaster University, Hamilton; A.J. Gomes, Lethbridge
“Cases” for discussion
 - Patient presenting with acute diverticulitis
 - Patient with choledocholithiasis
 - Patient having elective colon surgery

1629 Concluding remarks: R.S. McLeod, University of Toronto, Toronto

A computerized audience response system will be used during the symposium. / Un système automatisé de répondre à clavier sera utilisé durant le symposium.

Saturday, September 15 / Le samedi 15 septembre

1530-1630 (MacLeod Hall B, Lower Level, South Building, Calgary TELUS Convention Centre)

CAGS Symposium: Women in surgery – Are they changing the landscape?

Learning objectives: The session is designed for all practising surgeons and surgical trainees. At the end of the session, participants will be able to describe the traditional roles, stereotypes, evolution of change, current challenges of women in surgery; explain deciding factors to choose surgery in the first place and challenges during residency that may be unique to female surgical residents; understand the life challenges female surgeons are facing in today's era when starting a practice; describe practice issues particular to the female surgeon, including stressors, burnout, and strategies to address these.

Symposium de l'ACCG : Les femmes dans le domaine chirurgical : Modifient-elles le paysage?

Objectifs d'apprentissage : La session s'adresse aux chirurgiens en pratique active et stagiaires en chirurgie. Au terme de session, les participants seront en mesure de décrire les rôles traditionnels, les stéréotypes, l'évolution du changement, les défis actuels de la femme dans le domaine chirurgical; d'expliquer les facteurs décisifs de choisir en premier lieu la chirurgie et les défis au cours de la résidence qui peuvent être unique aux résidentes dans le domaine chirurgical; de comprendre les défis de vie que font face les femmes chirurgiennes dans l'ère d'aujourd'hui lors du démarrage d'une pratique; de décrire certaines questions pertinentes aux femmes chirurgiennes, tel que les facteurs de stress, l'épuisement professionnel et les stratégies pour traiter ces questions notamment.

Chaired by: C. Decker, Parry Sound

1530 Historical perspective on women in surgery: D.A. Wirtzfeld, Cancer Care Manitoba, Winnipeg

1540 Girls just wanna have fun too!: A. Maciver, University of Alberta, Calgary

1550 Starting a practice – Decisions, decisions, decisions: R. Warburton, Red Deer

1600 Life challenges in mid to later years practice: R. Menon, Cornwall

1610 Panel discussion

1530-1630 (MacLeod Hall D, Lower Level, South Building, Calgary TELUS Convention Centre)

CHPBA Symposium: HPB surgery – Past, present and future

Learning objectives: The session is designed for all general surgeons, general surgery residents and Fellows, medical students and HPB Surgeons. At the end of the session, participants will be able to review the history and future directions of the field of HPB surgery.

Symposium de la CHPBA : Chirurgie hépatobiliaire – Le passé, le présent et le futur

Objectifs d'apprentissage : La session s'adresse à tous les chirurgiens généraux, aux résidents et Associé chirurgicaux, aux étudiants en médecine et aux chirurgiens hépatobiliaires. Au terme de la session, les participants seront en mesure de revoir l'histoire et les orientations futures du domaine de la chirurgie hépatobiliare.

Examen d'auto-évaluation de l'ACCG (écrit) (frais d'inscription supplémentaires)

CAGS Induction of 2012 Honorary Members

(held in conjunction with the CAGS Annual Business Meeting)

Présentation des membres honoraires 2012 de l'ACCG

(en parallèle avec la réunion d'affaires annuelle de l'ACCG)

Saturday, September 15, 2012 at 1630

(Exhibition Hall E, Upper Level, North Building, Calgary TELUS Convention Centre)

Peter Roy, van, M.CI.Sc. (Surgery), FRCSC

Dr. Peter Roy was born in 1947. He grew up in Halifax and went to Dalhousie University where he received a BSc in physics, 1967, followed by an MD, 1974. He did his residency in General Surgery, 1979-83 and worked as an ER physician in Halifax 1974-79. He then did an MSc in clinical epidemiology at McMaster finishing 1985 - one of the first surgeons in Canada to do so. His major duties (apart from clinical) were in undergraduate education, development and running of clinical trials, and General Surgery Program Director at Dalhousie. He was recognized as an outstanding teacher and won the "Silver Shovel" 1992, and was undergrad professor of the year, (voted by the students). He always had an interest in the role of the community surgeon and as Program Director, he made it mandatory for all residents to do at least one three-month rotation in Community Surgery in a non-academic centre. In 1996 he resigned from academia and moved to Saudi Arabia, later taking up jobs in Saint John NB (1999-2003) and Red Deer (2003 - present). He has done several locums, some in Antigonish, Edmonston, Miramichi, and Campbellton and for the last ten years he has also been a regular locum in Moose Factory ON, serving a largely First Nations area of western James Bay. He is married to Jean Kennedy-Roy, a nurse in Red Deer, AB, whom he shares one son Michael, an engineer in Halifax, NS.

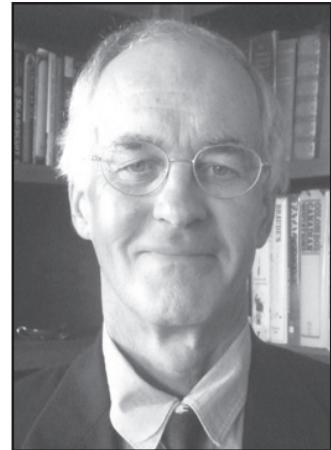

Continued on page 53

CAGS Induction of 2012 Honorary Members (cont'd) Présentation des membres honoraires 2012 de l'ACCG (suite)

Jim Nixon

Dr. Jim Nixon was born and raised in Calgary. He completed his general surgery training from 1976 to 1981 in Calgary. He has been an integral member of the general surgery residency training program as both the program director and as one of the most dedicated surgical educators as evidenced by his teaching awards. He was instrumental in building the trauma program at the Calgary General Hospital, and was one of the core trauma team leaders at the Foothills Medical Centre over the 1990's up and through to 2010. He has maintained a broad based general surgery practice at the Peter Lougheed Hospital. He has had numerous leadership positions within Calgary including the Head of the Division of General Surgery and the Site Chief of Surgery at the PLC. Dr. Nixon has been instrumental in setting up the acute care surgery service at the PLC.

William J. Buie

Dr. William Buie was born in the small Saskatchewan town of Eatonia. After moving to Calgary in 1946 with his mother, he graduated from Crescent Heights High School in 1948 followed by post-secondary studies at the University of Alberta. He earned an M.D. in 1954 and then from 1956-60 his years were spent under the direction of Dr. Walter MacKenzie, whose influence he enjoyed very much as a resident in the General Surgical Training Program at the University Hospital in Edmonton. Dr. Buie's General Surgery practice began in Calgary in the fall of 1960. He initially practiced at the Calgary General Hospital and then transferred his practice to the Foothills Hospital when it opened in 1966, staying there until 2000 when he closed my practice. With the University of Calgary establishing a Faculty of Medicine, Department of Surgery in 1970, he accepted a teaching appointment as an Assistant Professor Clinical. He served on a number of committees both locally, provincially and nationally during his career, including President of the Foothills Hospital Medical Staff in 1976-77 and being a member of the General Surgery Examination Committee RCPSC from 1982-1987. Currently he holds active (non-admitting) staff appointments at the Foothills Hospital and the Tom Baker Cancer Clinic and a post -surgery follow-up clinic at the Cancer Clinic. His wife Mary and he will celebrate their 55th anniversary on September 14, 2012. They have the good fortune to have four children, Don, Anne, Susan and Alison and now have five grandchildren. Dr. Buie's main hobby is woodworking, enjoying golf in the summer and curling in the winter.

NOTES
Canadian Surgery FORUM canadien de chirurgie 2012

2013
Canadian Surgery Forum

Plan to participate in next year's Canadian Surgery Forum (CSF), September 19 to 22, 2013 at the Ottawa Convention Centre and Westin Ottawa hotel. Check the CAGS Web site regularly for updated information (<http://www.cags-accg.ca>).

***Forum canadien de
chirurgie 2013***

Prévoyez être présent au Forum canadien de chirurgie (FCC) l'an prochain, du 19 au 22 septembre, 2013 à la Centre des congrès d'Ottawa et l'hôtel Westin Ottawa. Visitez le site Web de l'ACCG régulièrement afin d'obtenir plus de détails (<http://www.cags-accg.ca>).

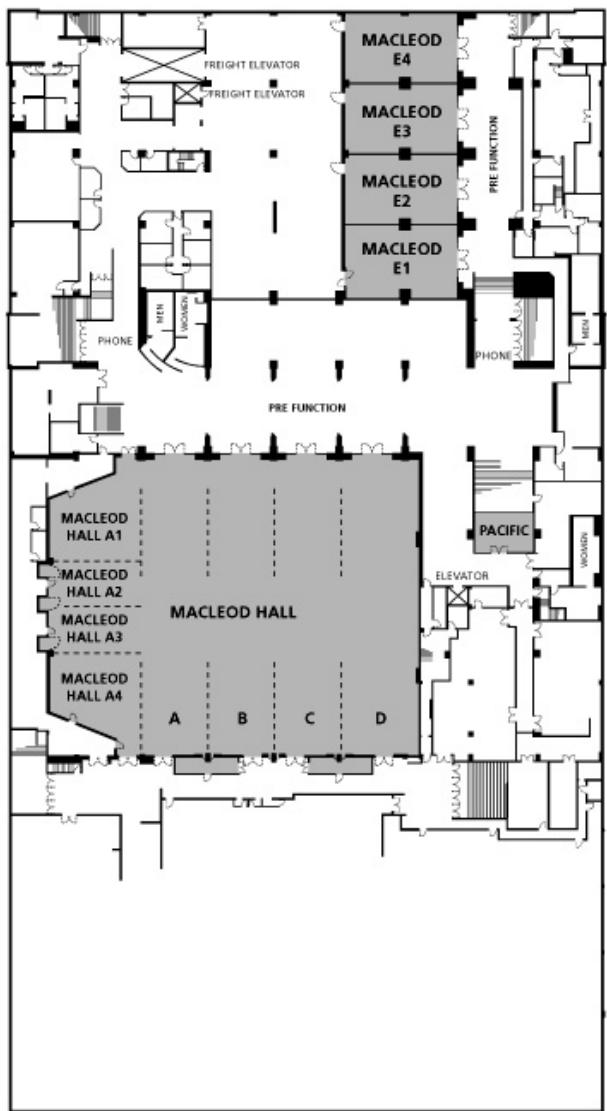

Forum Schedule Planner

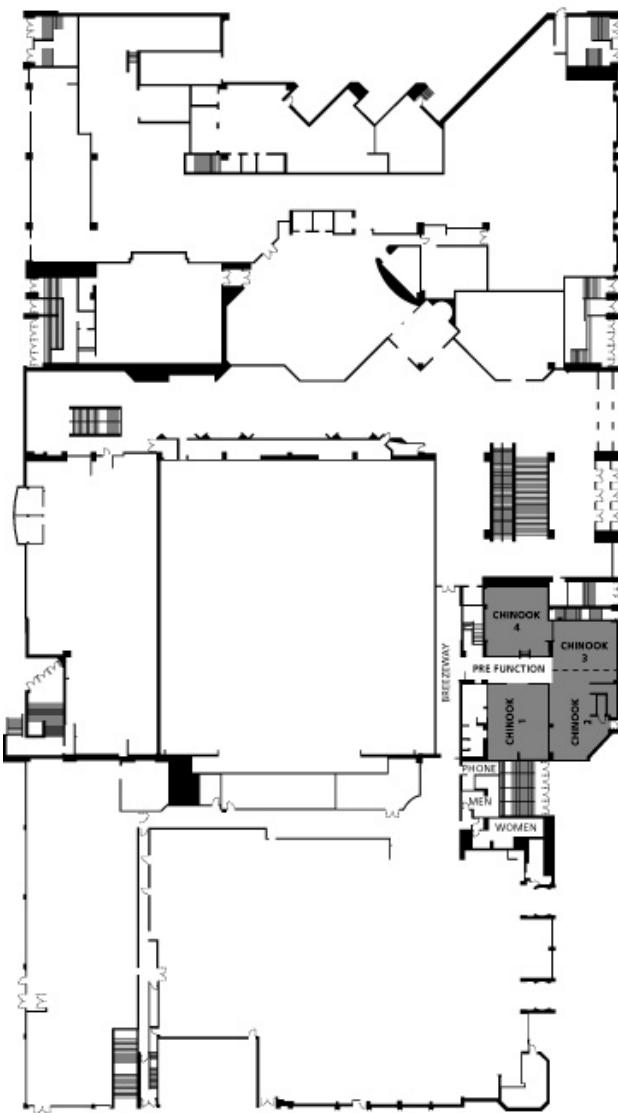

For auditing purposes for the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada: track sessions attended, retain this program and registration confirmation.

Pour les besoins de vérification dans le cadre du programme de Maintien du certificat du Collège royal des médecins et chirurgiens du Canada, consignez les sessions auxquelles vous avez participé, et conservez le présent programme et votre confirmation d'inscription.

2012 Partners

The Canadian Surgery Forum Steering Committee acknowledges and thanks the following organizations for their support of the 2012 Forum:

Diamond Partner

*ETHICON and Ethicon Endo-Surgery,
units of Johnson & Johnson Medical Companies,
a division of Johnson & Johnson Inc.*

Platinum Partner

Covidien

Gold Partner

Olympus Canada Inc.

Silver Partners

*Merck
Stryker Canada Inc.*

Supporters

*BK Medical Systems, Inc.
CAE Healthcare
Hitachi-Aloka Medical, Ltd.*

Steinberg-Bernstein Centre for Minimally Invasive Surgery and Innovation, McGill University

2012 Exhibitors

Please refer to the Passport to the Exhibits for exhibitor listings. Passports are available at Registration and in the Exhibit Hall.

Partenaires en 2012

Le Comité de direction du Forum canadien de chirurgie remercie les organisations ci-dessous de leur appui au Forum 2012 :

Partenaire du groupe diamant

*ETHICON et Ethicon Endo-Surgery,
unités de Johnson & Johnson Medical Companies,
division de Johnson & Johnson Inc.*

Partenaire du groupe platine

Covidien

Partenaire du groupe or

Olympus Canada Inc.

Partenaires du groupe argent

*Merck
Stryker Canada Inc.*

Parrains

*Bk Medical Systems, Inc.
CAE Healthcare
Hitachi-Aloka Medical, Ltd.*

Le Centre de chirurgie peu effractive et d'innovation Steinberg-Bernstein, Université McGill

Exposants en 2012

La liste des exposants figure dans le passeport de l'exposition. Vous pouvez vous procurer le passeport au comptoir d'inscription et à la salle des exposants.
