

Our **Press Operator 4** is the subject matter expert (SME) on Press Brake Operations. You will be responsible for setting up, operating and maintaining Press Brakes to ensure the interminable and efficient running of production. You will also have basic knowledge and ability to set up and operate a variety of other metal fabrication machines. You will be relied on to get the job or project done safely, in specification, meet efficiency expectations, and be on time.

This person is relied on to operate independently with attention to detail and safety standards. As the SME, you will train co-workers and advise management on Press Brake safety, operating procedures, and maintenance. Being a team player is essential since all tasks will require close collaboration with co-workers.

The goal will be to ensure that production procedures will be carried on safely to maximize efficiency and profits and meet all part specifications.

Responsibilities

- Demonstrate the Metal Fab Engineering Pillars (Values) in all behaviors and actions
