Sparfell & Partners project for HEAD OF STATE AIRBUS A380-800

SPARFELL & PARTNERS has a project to sell Airbus A380-800 aircraft for Head of State configuration. During EBACE 2017, the company will present its cooperation with specialist aircraft interior designer **WINCH DESIGN**. The collaboration will show a model and renderings of the first ACJ380 in Head of State design.

WINCH DESIGN

Founded by the renowned Andrew Winch in 1986, Winch Design is an award-winning international design studio specialising in the exterior and interior design of aircraft, yachts and architectural projects. Winch Design has designed some of the most iconic aircraft over the last 15 years and is continuing to push both design and technical boundaries in the pursuit of excellence.

At the heart of the Winch Design studio in London is a design philosophy centered on the importance of creating dynamic spaces that are balanced, beautiful and uplifting. Each project embraces bespoke design and craftsmanship at the highest level to surpass client expectations and make dreams come true.

Sparfell & Partners becomes a Global Leader with over 40 AIRLINERS for sale

In May 2017, **SPARFELL & PARTNERS** reached an impressive portfolio of over **40 COMMERCIAL AIRCRAFT, 17 BUSINESS JETS, AND 7 HELICOPTERS**, for sale. The number 1 trading company in Switzerland is becoming a global leader in aircraft sales & acquisition for commercial aircraft, business jets and helicopters. This achievement was possible with the support of the company's **16 Associates spread around the world**, all as aviation experts with extensive experience, competence and knowledge to bring local expertise.

Sparfell Aviation Technologies presenting BBJ AND CHALLENGER 350 AT EBACE 2017

Visitors will be invited to view a Bombardier Challenger 350 and a Boeing BBJ 737-700 located to the right of the Static display, The group's communication team remains available for a visit and provide more information between May 22-24 2017 at the event.

About Sparfell Aviation Technologies

SPARFELL AVIATION TECHNOLOGIES SA is a holding company based in Geneva, Switzerland and was founded by Philip G. Queffelec. The holding company is the mother company of Sparfell & Partners and SILC (Sparfell International Lease Company).

About Sparfell & Partners

SPARFELL & PARTNERS is based in Geneva, Switzerland. The idea is to have a high-class partnership of CEO and board members on all aviation sectors in a way like a lawyer's practice, where partners bring to the company their extensive experience, competence and knowledge in aviation and their network of clients and contacts worldwide. Sparfell & Partners is a global organisation with local expertise.

About Sparfell International Lease Corporation (SILC)

SILC is the alternative solution to aircraft ownership in business aviation. For the first time, the ACMI leasing is designed and developed for the business jet industry. This solution offers the advantages of the aircraft ownership without the harms of it: discretion, full-cost control, full availability of the aircraft and a dedicated crew.
