

Active4.me Scanning Program

Sign Me Up!

If you would like your student to participate in this program, please:

1. Register each student on the korematsu.active4.me site and print out the the final form/page.
2. Sign the form (one per child is required).
3. Bring your form to the bike scanning table any weekday morning to get your tag.
4. Attach the barcode tag to something that comes to school every day (eg, a backpack).

Do NOT attach tags to a bike, scooter, etc or helmet.

About The Program

The Korematsu PTO is participating in the active4.me program, which encourages kids to bike, walk, and scooter to get to school. Children that choose to participate will be issued a small plastic card with a barcode on it. When students get to school by means other than a car, they can go to the active4.me table at the bike racks to get checked-in. Once checked in, the child's traveled distance will be added to their records and their total-to-date will be read to them. This gives them a wonderful sense of accomplishment as their distance adds up!

Once children have checked in, a text message or email can be sent automatically, letting parents know their child's tag was scanned into the system. However, these messages are not a guaranteed check-in system and must not be used to ensure a child has reached school. If the system or network is ever down (or your child is late or forgets to check in), calls to the office to check on a child's safe arrival will result in cancellation of our ability to run the service, as the school staff cannot accommodate any "Did my child reach school?" phone calls.

To encourage kids to bike/walk/scooter to school, the program rewards students with "Coyote Cash" (fake money) that can be used to purchase prizes once a month.

This service is being offered for free at this time through a grant from the City of Davis, and we thank them greatly for their support in helping us and the world Go Green!

Scanning Volunteers Needed!

This program is only possible if we get enough volunteers to help us scan tags every day. All of the equipment is provided and is easy to use. Volunteers need to commit to being at a table once a week, or even every-other-week, from 8:00 to 8:35AM. If you are willing to be on our super scanning staff, please email active-coordinator@korematsupto.org. (It's actually a whole lot of fun!)

Need Help?

Please email active-coordinator@korematsupto.org or talk to a scanner at the scanning table.
