

CardioWall® FREESTYLE DUO

rugged. interactive

Engaging, competitive and fun!

Interactive gameplay that will add a new dimension to your trampoline centre.

“Since we installed the CardioWall FreeStyle Duo’s our customers keep telling us how much they love them!

MAX BROADFIELD

Director at Trampolines Europe Limited

Product Highlights.

Competitive & Motivational.

The CardioWall FreeStyle Duo tests reaction speed, visual alertness, peripheral vision, hand-eye coordination and jumping accuracy. Players score points with every correct hit, competing individually to build a huge score or directly against another player.

Enhanced Customer Engagement.

CardioWall FreeStyle is guaranteed to create a buzz and make your centre stand out. The gameplay challenge of beating your own score or getting to the top of a leaderboard ensures more excited customers, encourages positive interaction with staff, and stimulates repeat visits to the centre. Additionally, players love to see their successes posted on social media – perfect for reposting and retweeting on Instagram, Facebook, Twitter, etc.

Durability.

Each CardioWall FreeStyle is designed to be robust and offer trouble-free operation. Bullet-proof LED pods, indestructible bodyshell, 12-month warranty on all electronics and easy swap-out lightpods. Extended warranty options also available.

CardioWall® FREESTYLE DUO

Product Details.

CardioWall FreeStyle Duo comprises two separate 5-sensor CardioWalls along with a Multiplayer Launch console (MPL), enabling operators to maximise their active play area. Four interactive game options are included as standard - players hit the lights to score points both as a single user or during 1-on-1 duels and can be started straight from the pods, or using the MPL.

- #1 Pairs with second CardioWall to enable Multiplayer mode
- #2 5 multi-colour bulletproof LED pods on each CardioWall
- #3 Dual scoreboard / timer display
- #4 4 interactive game options*: 2 single player and 2 multiplayer
- #5 Built-in sound effects and voice commands
- #6 Tough moulded body
- #7 Fully customisable graphics panels

**Subject to continuous improvement*

Manufactured in Cornwall, UK

Multiplayer Launch.

Our Multiplayer Launch console enables players or centre supervisors to choose a game program with a simple one-touch operation.

Synchronise the start of a ClearOut or Chaser program for a head-to-head battle between two players. The victorious player is rewarded with a clear attention grabbing display for maximum player excitement.

Why choose the CardioWall FreeStyle?

Indoor trampoline parks continue to be one of the fastest growing indoor entertainment attractions worldwide.

CardioWall FreeStyle Duo are fully interactive installations that will add a new dimension to your trampoline centre, giving your customers an exciting new challenge and a strong incentive to come back again.

Trampolining is an effective and efficient alternative exercise. With CardioWall FreeStyle, encourage competition and the motivation to jump higher for longer.

2 Programs.

1. SPEED: ClearOut.

Hit as many light pods as possible within 1 minute. The perfect challenge for testing stamina. Will you win?

2. REACTION: Chaser.

A pure speed and reaction challenge. Hit as many red pods with in the given time limit as possible.
