

The Sierra Club is asking for your help to stop liquefied natural gas (LNG) export terminals in the Port of Brownsville. We are hiring a respected Houston environmental law firm to help us keep the Corps of Engineers from issuing dredge and fill permits, and to help us analyze, respond to and fight the Environmental Impact Statements when they come out, which may be in the next few months.

**We want to fight the LNG companies not only in the streets, on the beaches, and in the press but in the courtroom as well. Our first goal is to raise \$5000. Will you stand with us and help fight LNG in the RGV?**

-----  
Yes, I would like to make a tax-deductible contribution to: "South Texas Liquefied Natural Gas Campaign"

Name \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

Phone/Cell \_\_\_\_\_ E-mail \_\_\_\_\_
