

TERRITORY NATURAL RESOURCE MANAGEMENT PROJECT MANAGEMENT WORKSHOP

20th September - Alice Springs

This workshop will provide participants with practical skills to successfully deliver projects.

- Project planning
- Identify key tasks
- Milestones and deliverables
- Develop a clear communication plan
- Monitor project progress
- Manage risks
- Measure success

There will be plenty of opportunities throughout the day for participants to share their experiences with projects and discuss their workplace needs.

Professional facilitators will use case studies and scenarios for participants to get comfortable using project management tools and methodologies.

About the facilitator

Kathryn Freeman is trained in Prince2 project management methodology and has also completed studies in change management. Combining her training with 15 years of experience in project delivery, Kathryn delivers workshops that are practical and flexible to meet the needs of participants.
