GREETINGS FROM HUNTINGTON PARK

Ron Golden

all those who participate in our academy to improve their skills and do it in a fun-filled, yet competitive environment.

Our Record Speaks For Itself! - Ron Golden

KEEPING EVERYTHING IN PERSPECTIVE

Baseball is a game of Failure! The sooner one understands this concept, the quicker he can advance his game. The game is considered more emotional than either physical or mental by many. Our coaches do a great job in working with all players to overcome the emotional highs and lows that develop. And, the key to all of this is to be sure that the players have a fun experience. FUN is the key! Our goal is to be sure that we keep the fun in fundamentals...which ties in with our Basic Baseball approach. Experience this for yourself or for "your player" by registering NOW for programs that will help to elevate your game.

BECOME A "RECRUITED" PROSPECT PROGRAM

This program prepares the high school prospect for participation in an actual showcase event or a college's "select" camp that is so popular today! It is a "dress rehearsal" complete with tips, suggestions and strategies that the aspiring prospect will find helpful for showcasing his skills and talent. Players will even experience a mini-showcase testing their skills. A great learning tool without any pressure associated.

SUMMER PLAYER DEVELOPMENT ACADEMY

An upscale, upbeat instructional & developmental academy for truly the aspiring player. It blends college players (who are home for the summer – not working during the morning) with "selected" high school prospects who are looking to play in college after they graduate. We only take a limited number of players because we provide such an intense and high level of workout and want them to have the opportunity to max out on the instruction. Position players hit daily and work on drills to improve their defense along with their foot speed, agility and quickness. Pitchers work on their mechanics, defense and pitching specific strength and conditioning techniques to improve velocity, accuracy and composure. NO: Games, Weekends or Evenings. This is Player Development in its purest form!
