

Individual Student Report

The intent of the Individual Student Report is to provide detailed performance information about an individual student to teachers and other school personnel. A sample individual student report is presented on the following page. High schools will find the information reflecting student strengths and weaknesses, ACT results, and level of the National Career Readiness Certificate (NCRC) eligibility useful when discussing MME performance levels with a student before filing the report in the student's record file.

Section A identifies the title of the report, the grade level, the assessment cycle, the district name and code, and the school name and code.

Section B contains the student demographic information provided by the school: student name, local district student ID number, date of birth, the student's state unique identification code (UIC), as well as subgroup classifications for gender, ethnicity, English learner, Formerly Limited English Proficient (FLEP) and special education.

Section C contains MME subjects, the scale score received, and the performance level the student attained in each area.

Section D provides individual student data for each MME subject area, an indicator of whether the student tested with accommodations in that subject, and subscores within the subject. It includes the possible points and points earned, scale score, and performance level.

Section E displays the student's scores on the ACT as provided by ACT. If a student took the ACT with state-allowed accommodations, the ACT scores are not college reportable and will be flagged as not college reportable with a footnote on the report.

Section F displays the student's scores on the WorkKeys as provided by ACT. If a student achieves a score of 5 or higher on all three WorkKeys tests, the student is eligible for a Gold National Career Readiness Certificate (NCRC). A student achieving a score of 4 or higher on all three tests, is eligible for a Silver NCRC, and a score of 3 or higher on all tests, is eligible for a Bronze NCRC. Starting in 2011, ACT introduced the Platinum Level of the Certificate, which requires a score of 6 or higher on each of the three WorkKeys tests.

The parent report contains a statement on the students' NCRC eligibility and explains that students who used a translated version (video or reader script accommodation) on one or more of the WorkKeys tests, are not eligible for the NCRC.
