ENROLL TODAY!

Classes begin in August

High School Programs

Construction Academy

Students will learn carpentry, electricity, plumbing, and air conditioning skills.

Mechatronics Academy

Students will build a foundation of knowledge and gain technical skills in automation technology and how those skills apply to manufacturing, engineering and robotics.

Adult Programs

GED®

Upon successful completion of the GED® test, you are awarded a State of Florida high school diploma and are considered a high school graduate.

ESOL

English for Speakers of Other Languages (ESOL) is an educational program to help adult students learn English.

Workforce Development

Prepare for employment and gain advanced training as a carpenter, electrician, HVAC technician, or welder.

West Technical Education Center
