A vast land with a population of roughly 1.3 billion people, China is home to one of the world's oldest civilisations, with human habitation dating back over 1.2 million years. The testaments to the ingenuity and greatness of the achievements of the Chinese can be found in all corners of their world, from the vast undertaking that is the Great Wall, stretching almost fifteen thousand miles, to the incredible funerary display that is the Terracotta Warriors, thousands of individually carved soldiers to guard the Emperor Qin Shi Huang in the after realm.

In partnership with this rich and compelling history, we invite our group to explore some of the most impressive landscapes and national parks China has to offer. Standing in the midst of colossal sandstone giants in Zhangjiajie Forest Park is a simply unforgettable experience, as is the chance to watch the gorges go by and the stars at night on a Yangtze River cruise.
