mondiale de la Santé

Journée mondiale contre le cancer

4 février 2012

Le cancer constitue la première cause de mortalité dans le monde. L'OMS estime que le cancer aura fait 84 millions de morts entre 2005 et 2015 si aucune mesure n'est prise.

Chaque année, l'OMS, aux côtés de l'Union internationale contre le cancer, met en avant des moyens susceptibles de faire reculer la charge de cette maladie partout dans le monde.

Mr. Romel Mangruban 40 years old of Butuan City, Philippines suffered stroke last March 20, 2011 and was rushed to one of Davao City's hospital.

Doctors said it is mandatory for Open Head Surgery to remove the Blood Clot in his head. By then, he was feed only with liquid food through the hose on his nose.

April 6, 2011, his family took him out from the hospital without undergoing the risky Open Head Surgery, instead he started to take C24/7 Natura-Ceuticals as recommended by a family friend Doctor. After a week of continuous consumption of C24/7 he recovered & able to move parts of his body. He continued taking C24/7 & now he is back to his normal life
