

# STRAWS ON REQUEST IN YOUR RESTAURANT?

**Dear Restaurant Manager,**

Will you consider switching to a “Straws On Request” policy and offer alternative (biodegradable) straws instead? You’d be SURPRISED that 50% of people don’t even ask for a straw, which means a cost savings of 50% annually! Did you know **plastic straws are not recyclable** and are one of the top ocean pollutants! We ask that you consider helping our environment and please share with us your commitment to SKIP THE PLASTIC STRAW!
