

Dear colleagues, friends!

On behalf of the Ministry of Energy Infrastructures and Natural Resources of Armenia and from me personally I welcome you on the ancient hospitable Armenian land.

Let me kindly thank you for organization of this event idea of which appeared from your genuine interest to our sole, small but so important for us Armenian NPP. This interest, as we understand, is historically caused by immediate active participation of the Russian and of the world atomic society in formation, development and successful functioning of atomic energy in Armenia.

The International Seminar organized by you demonstrates except expected information and consulting support in professional questions that even in this difficult period of intergovernmental relationship after a range of political collisions amicable, respectful mutual understanding of the members of the “Club of nuclear experts” remains permanent.

Our Seminar is held almost before the very beginning of the most challenging period of realization of the Program of prolongation of exploitation term of unit № 2 of NPP and it is very symbolic, because it adds to this event practical character.

Let me wish success to this event, execution of all previewed actions and achievement of the planned goals and to participants of the Seminar and to each of us good health, inexhaustible energy and personal happiness.

DEPUTY MINISTER

AIK ARZUMANOVICH
ARUTYUNYAN
