

Collaborative Support Programs of New Jersey, Inc. (CSPNJ)

Peer Recovery Outcome Utilization Database (PROUD)

Community Wellness Center Member Form

Peer Recovery Outcome Utilization Database (PROUD) is designed to gather information about Community Wellness Center members to assist with planning to best meet their needs and to prepare reports necessary for ongoing program sustainability

The information collected about you is kept private. Only certain staff at CSPNJ are authorized to read or enter information into the PROUD database. All of the authorized staff have signed agreements to protect your information—keeping it private and confidential.

Agreement to Enter Information in the PROUD Database

My signature below shows I understand that:

- Participating in the PROUD database is necessary for me to be a Community Wellness Center Member
- The following information about me will go into the PROUD database:
 - Descriptive information like my age, gender, education level, and work status
 - What Community Wellness Center services I am using
 - Diagnosis, including mental and physical (medical) conditions
- CSPNJ does not share my personal identifying information with any outside entities
- CSPNJ funding contracts and state laws require reporting certain information in aggregate form (summarized for all Wellness Center members, not individuals)
- CSPNJ uses de-identified information (anonymous data) about people using our services to learn about their needs and improve the services we offer
