

Your donation amount for the quarter was

\$0

Where your donation went

Greater Good
Financial

Donations for the quarter are being held until next quarter. We have three donation partners. The third partner requires a \$2,500 minimum donation level. Since our 20% donation strategy is not 100% implemented for all current clients as of yet, we do not have the \$2,500 minimum needed from the donations this quarter. We will add this quarter's donation with next quarter's donation.

A peek behind the curtain at our donation strategy

Our goal is to create the **most impact possible** with everything we do. We accomplish this by 1) choosing strategic non profit partners and 2) choosing non profits that **leverage donated dollars** as much as possible.

PROJECT FOR
PRIDE IN
LIVING

The Venn Foundation provides Program Related Investments (PRI's) to social entrepreneurs. These are **below market rate** loans to help a social entrepreneur start a business that **makes an impact**.

The social entrepreneur **GIVES** as a part of their business. When this loan is repaid, The Venn Foundation then **RE-LENDS** money out to another social entrepreneur.

Elevate-Haiti is a Haitian run microloan organization. Haitians provide microloans to other Haitians to start businesses and become more financially self sufficient.

Loan recipients are also taught job and family skills. When the loans are repaid, Elevate Haiti then **RE-LENDS** money out to another Haitian.

Project For Pride in Living builds & manages safe, quality, affordable housing across the Twin Cities in Minnesota with support services to **create stability and pride**.

They also offer career readiness programs that provide participants with the skills necessary to get and keep a job with proven income growth and job placements.

Instead of writing a donation check and forgetting about it, your donation dollars could be recycled & re-used MANY TIMES.

Your Impact Snowball

Your impact starts after your first quarter working with us but it doesn't end there. Two of our three non profit partners loan money to people in need who put those donations to good work. Once these loans are repaid, the funds are then **RE-LOANED** again, and again and again... This is how your impact snowball grows.

We believe this strategy makes the most impact with your donation dollars.

Truly, deeply and sincerely, I can't thank you enough for being a part of this journey. I really hope you understand this. There is so much joy in giving and I hope you can share the joy through this update and future quarterly updates.

Please  SHARE us with your friends!

Personal Update

Kylie and I were supposed to head to Haiti on March 2nd but this trip has been delayed to August due to political unrest.

The Murphy Girls begin their entrepreneurial journey with custom made wood turned products! As an entrepreneur myself, I have been beyond excited to teach them business skills. Not to mention, how often does a dad get to spend hours at a time doing woodworking projects with his daughters??

Life is good...

Dan
