

# SHERP PORTABLE WINCH SET

Our Company developed the new brand product — portable winch set. Being always ready for use, the winch set needs no special installation or a specific fixing system. With the 2041 kg. of towing capacity, all-metal frame and powerful electric motor you can easily drag a heavy load or secure your Sherp in any situation.

**Compactly assembled into a special bag the set of equipment includes:**

- Powerful, technological WARN winch with the three stage planetary gearbox, patented disc brake and 15,5 meters synthetic rope.
- Protective winch frame with the attachment system, which may be installed in both front and rear.
- A set of the on-board power supply system with the output connector, installed by our specialists.
- Power extension cable that may be used anywhere, if in needed.
