

OVERVIEW

Blue Wolf's Gooseneck Map light has a 14" flexible gooseneck for easy positioning and full 0 to 100% dimming control. Made of durable 6061-T6 aluminum this map light is designed for illuminating instrumentation, knee boards, small working areas, or small cargo bay areas such as those found in aircraft, tanks, boating vessels, or other heavy duty use applications. With a small profile illumination head, light is provided through 10 LED's providing a 125° beam angle spread for light output. In addition to full 0 to 100% dimming control with full tactile feedback on the dimming knob, this light is easy to mount with power wires coming out the back side of the base.

Being mechanically robust and LED efficient, this light is a great addition to any cockpit, boating, ground vehicle, cargo bay area, military land vehicle, or tank that requires unique LED lighting.

DESCRIPTION

Technical Data

- Voltage: 28 Vdc
- Current: 50 mA@28Vdc
- Mass: 6.08 oz.
- Material: Anodized black 6061-T6 Aluminum
- DOD-160 section 8 tested
- MIL-STD-3009 compliant if NVIS White/NVG color option is chosen

Operating Features

- Flexible positioning
- Tactile feedback adjustment
- Low heat output - (LED light)
- Designed and Manufactured in the USA

QUICK SPECS

- 40K Hour Life Span
- 28 Volt DC low power
- Quick Install
- Hidden Wires
- Many Color Options
- Black Anodized Aluminum
- Customization available upon request

NVIS White color option allows for easy viewing without "greening out" important indication colors such as "reds" and "yellows"

APPLICATIONS

PART NUMBER:

- BW-A120-NVIS WHITE
- BW-A120-NVG Green
- BW-A120-White
- BW-A120-Red
- BW-A120-IR
