Warming your world

THE PEVEX COLLECTION OF FREESTANDING AND INSET STOVES – WARMING YOUR WORLD

The Pevex Stove Collection brings you an impressive range of freestanding and inset stoves designed to be aesthetically pleasing as well as providing a wonderful source of heat to warm your hearth and home. This British designed collection offers a choice of models whether for a traditional setting or a stylish contemporary fireplace, there is sure to be a model that will fit your requirements..

This wonderful collection has been designed not only as attractive appliances for the home but also as high performance stoves able to meet the environmental requirements of today and tomorrow with many of them approved for use in smoke control areas throughout the UK and some tested and approved to exceed Ecodesign requirements.

The Pevex Collection of stoves are fitted with separate primary air and secondary air wash controls to keep the glass window clean and tertiary air to ensure a clean-burn high-efficiency performance whether burning wood or recommended smokeless fuels.

There is nothing quite like a living flame fire to make a room warm and cosy, where you can appreciate and enjoy the mesmerising dancing flames and wonderful heat that these stoves can produce. Pevex stoves are designed to give you superb performance but are also supported by a 5 year manufacturer's guarantee*, so you know that when you choose a stove from Pevex you will always have peace of mind.

FREESTANDING STOVES

X30 CUBE ECODESIGN 2-4.9kW

Small but perfectly formed the British designed X30 Cube offers contemporary styling and a very useful 4.2kW of heat from its high efficient multifuel firebox.

Its diminutive size allows for installation into a 16" x 22" height fireplace opening and is ideal for smaller homes, country cottages, town houses, even house boats or log cabins. With its modular design you can customise it by adding legs, logstore or convection side panels which allows positioning closer to combustible surfaces giving you complete peace of mind and a cosy, radiant convection heat.

An impressive 83.9% efficiency for wood burning and approved for us in smoke control area and tested and exceeding Ecodesign requirements, this stove is small but offers modular flexibility with its range of bolt-on options.

Options

- Available with 80mm and 110mm leg frames
- 200mm and 400mm logstores
- Convection side panels
- Cool touch stainless steel, black handles and knobs or wooden handle

Features

- 2-4.9kW
- NOMINAL OUTPUT: 4.2KW
- 83.9% EFFICIENCY
- SMALL MODERN DESIGN
- LARGE VIEWING WINDOW FOR MAXIMUM VIEW OF FIRE
