

National Inventors Hall of Fame®

Camp Invention is returning to Grace Christian Academy!

Families across the country have faced a challenging school year, and now summer learning and hands-on fun will be more important than ever before. In partnership with the National Inventors Hall of Fame® (NIHF), **Grace Christian Academy** is pleased to offer the nationally acclaimed Camp Invention® program to children entering kindergarten through sixth grade. This exciting, weeklong summer adventure provides lessons that explore connections between science, technology, engineering and innovation. Children rotate through several hands-on activities each day while using teamwork, creative thinking and problem-solving skills to invent unique solutions to real-world challenges. The week begins July 13, 2020, with Miss Windy Hewett serving as Director of the **all-new 2020 program, Elevate!**

During this program, young innovators will:

- Build a cityscape out of upcycled materials, navigate planes through a storm and take apart a robot they'll bring home at the end of the program.
- Learn the value of their creativity as they sketch and build prototypes, design logos, market their invention and protect their intellectual property.
- Collaborate and discover solutions to protect the Earth's ecosystems as they compete in zipline races, explore energy conservation and help wildlife habitats.
- Discover the great inventors behind their favorite sports, play high-energy games and design the ultimate sports complex.

Camp Invention's activities give participants the opportunity to explore, create and build confidence as they bring their biggest ideas to life.

Local educators facilitate the program and enthusiastic high school students serve as Leadership Interns, ensuring that one staff member is in place for every eight children.
