

**KEYS:**

1. True (... *while highly effective at getting scuff marks out of clothing, is also a known health and environmental hazard*)
2. True (... *meaning that prolonged exposure to the chemical has been linked to an increased risk of cancer*)
3. False (... *The rule includes a phase-out of perc use at dry cleaners located in residential buildings, along with requirements that will reduce perc emissions at other dry cleaners*)
4. False (*The main health risk with perc is not through wearing clothes that have been cleaned with it, but rather, exposure through air or soil*)
5. Not given
6. Not given
