

VISION

As a team we will leave a legacy that will be remembered, revered and aspired-to at the Sturt Sabres for future generations. Together we will provide an environment for each other that helps develop a platform for our success as a team, and as individuals, beyond this year, into the future; on and off the floor.

GUNNNNG HO!

MISSION

We are tough men mentally and physically, embracing our competitive spirit and standards set mutually for, and by all, team members. All this is achieved whilst building stronger, everlasting relationships built on trust in each other and having great fun, sharing a positive experience.

VALUES

When your teammate looks you in the eye and holds you accountable, that's the greatest kind of leadership there is - Doug Collins

These values are sacred to our team. Our team shares these values in common and we will evaluate, celebrate and reward each other on the basis of living up to these values.

WINNING MENTALITY

Our winning mentality is ruthless and relentless, permeates everything we do, not just basketball. We are constantly planning how we can get an edge in sport and life, building positive relationships with those that understand and complement this mindset, visualising our success and earnestly believing we will achieve it, no matter what other's think or believe. Our game plans and style centre on NEVER losing no matter who competes against us.

STRONGEST WORK ETHIC

We know we collectively work harder than any other team in the nation and because of this it builds trust amongst all team members. We will capitalise on each and every opportunity to develop our personal physical traits and skillsets, putting in the time and work rate to be successful. Hard work through extra sessions, weight training, plyometric programs, conditioning will be give us superiority. Our work rate at trainings is 2nd to none and this carries through into games - we pride ourselves and our team mates on our collective work ethic.

PLAY HARD EVERY SECOND OF THE GAME

We are incredibly deep and as a team we have the ability to play hard every second of every game. Playing hard is ruthless and aggressive defense, diving on loose balls, rebounds and just our "look in our eyes".

EMBRACE OUR ROLES

We know, understand, enjoy and embrace our roles. We have buy in and agreement on our roles and from all team members as to what our roles are. Our roles as good team mates and what we bring from that perspective are important too. We review and visualise us achieving in our roles regularly. Like the beaver, we know that we have some independence in how we work on the court as long as we a embracing what our role is.

KPIS

Our KPIs are measurable, process oriented goals that we measure ourselves on each and every game.

- 1) Win rebounds at a 60% rate
- 2) 2:1 Assist to turnover ratio
- 3) 15 assists per game as a team
- 4) 60% shooting from field
 - a) Shooting mix (25% transition/fastbreak, 40% paint, 25% trees, 10% mid)
