ADDED VALUE

Work with INTTN, Government and Partners to achieve added value by achieving Indigenous and Social Procurement targets and our partners reap the economic and social rewards and everyone enjoys mutual benefits. Promote principles of Reconciliation Australia.

WHO IS INTTN?

INTTN is 100% Indigenous owned leading telecommunication and information communication technology infrastructure service provider. We offer a comprehensive range of design, construction, maintenance, operations and supply services across industries.

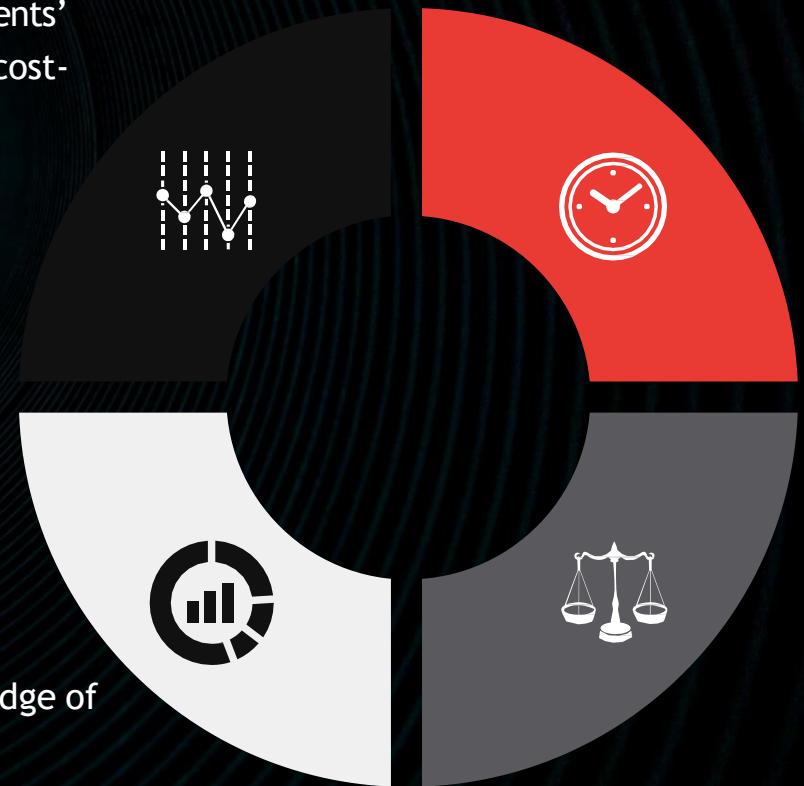

We provide complete integrated solutions, or parts thereof, depending on our clients' needs. We self-perform all core functions, so we can deliver certainty, quality and cost-effective outcomes.

We deliver our work, manage our projects and fulfill our contracts using the skill and commitment of our employees, nationwide. Strong safety culture and compliance discipline.

Access to an established network of industry-accredited suppliers, delivery partners and subcontractors.

We have extensive experience in managing complex projects, an intimate knowledge of the industry and deliver fully integrated solutions that are safe, reliable and cost effective. Furthermore, get access to exclusive cost saving incentives and rewards through government initiatives for partnering with INTTN as an Indigenous owned business.

OUR VALUES

CULTURE & RESPECT

We respect all customers, staff and partners by engaging with them ethically and with integrity including promoting principles of Reconciliation Australia.

INNOVATION

We encourage innovation and skill development in our workplace, across all technologies.

UNDERSTANDING

We understand our customers' businesses to ensure that solutions meet needs.

SAFETY

INTTN is committed to the safety of our staff, customers and all others involved.

VIABILITY: We want INTTN to grow and be a viable long-term business for the benefit of customers, partners and staff.

OUR PEOPLE

INTTN has a team of employees located in our 14 locations across Australia. Our highly trained and equipped team bring their years of experience, passion and professionalism to every project.

OUR EXPERIENCE

INTTN is currently building its experience profile and portfolio. We have successfully passed contract pre-approval for Water Corporation WA, Municipalities Association of Victoria and GROW Gippsland. In addition, INTTN are currently submitting for pre-approval with Downer Group, BMD, CPB Contractors and others for industry projects. In addition, presently in Australia, INTTN is the only Indigenous owned ICT and Telecom company with this level of national and industry capability to partner-with-and-enrich Australia's existing top contractors. Please refer to our clients page in this capability statement.

and Training

Our Difference

Quality Assurance Systems

To ensure our customers are receiving the very best quality from design, procurement, installation, commissioning and ongoing maintenance, we operate under a robust Quality Management System. This system ensures all works performed by this organisation are achieved in a legal and efficient manner.

Environment Management

We are committed to minimising the impact of any environment risks related to our activities and our compliant systems according to ISO 14001 compliant systems are in place to ensure all stakeholders are protected. INTTN commits to a continual review of all operational activities to ensure industry best practice is met.

Indigenous Business Certification

INTTN is registered with Supply Nation, respective State/Territories Aboriginal Chambers of Commerce bodies. Promotes principles of Reconciliation Australia, Indigenous and Social Procurement Policy Frameworks in Australia.

Workplace Health & Safety

We have implemented our internal Workplace Health and Safety policy, procedures and plans including the NECA safe management system according to AS/NZS 4801 to ensure all personnel within the organisation are actively engaged in this most important element of our operations.

Thank You for Supporting Indigenous & Social Procurement!
