

# Live Your Greatest Life

## JANUARY 2018

Dear Spiritual Friends on the Path,

I wish you all a very exciting New Year!

May you all receive the blessings of the Great Ones with an open heart and mind, and embrace 2018 with delight.

May all be blessed with another year of a meaningful and productive life.

I have been anticipating that the year 2018 will be a year of great opportunities; yet these will also bring our greatest challenges and test of maturity. Thus, we need to brace our energy with the guidance of the holy beings and our divine selves. There is a need to anchor your trust not only in your family and career, but also in your spiritual work and service collaboration with your group mates. You need new tools not only to cope up with but also to thrive and survive during any crisis.

Continue learning and growing towards the Light.

My blessings and best wishes,

- **Master Del Pe**

## Bring 'Heaven on Earth' with Divine Alchemy

The notion that meditation is only for spiritual purposes is not totally correct. A balanced and successful material and spiritual life is a great thing!

### What is Divine Alchemy?

Divine Alchemy is a series of advanced meditations that awaken and develop your maximum potential, so that you can perform effectively in both your material and spiritual life.

These meditations awaken your inner powers to unfold a balanced life “with one foot in Heaven and one foot on Earth” – meaning material success with spiritual fulfillment. Why not?

### How can Divine Alchemy Help You?

With Divine Alchemy, you can experience inner calmness that allows you to channel the power of your Soul.

The meditation practice also helps you to ascend to different levels of initiations by awakening your sacred *kundalini* fire and activating the different levels of your chakras to puncture the veils where the Soul and the Spirit are found.

You can even develop the different levels of your intelligence - instinctive, emotional, mental, intuitional and wisdom intelligence.

### The Power of *Om Mane Padme Hum* (I Am That I Am)

Chanting the mantra '*Om Mane Padme Hum, Mane Padme Hum, Mane Padme Hum*' a few times while breathing deeply and focusing on your chakras (singly, in pairs or in triangles), activates, balances and empowers them. You can balance your Will-Power, Love and Creative Intelligence - powers associated with

the Trinity of Godliness. You can also awaken your latent faculties and virtues in order to live your greatest life.

### **What makes Divine Alchemy Unique?**

Who would not like to live a legendary life of service and at the same time successfully balance the 5 key areas of life – career, home, health, social contribution and spiritual enlightenment?

Who would not like to harness the power of their chakras, *kundalini*, Soul and Spirit to develop their maximum potential?

With Divine Alchemy, you can:

1. Love yourself; Love your Life
2. Boost your Vitality and Will-Power, sharpen your Mind and awaken the power of your Soul with greater Intuition and Wisdom
3. Achieve more enlightenment and purpose in this life
4. Bring Heaven on Earth

Wouldn't you like to accelerate your inner development, ascend to higher levels of initiation and have the power to serve globally?
