Master Del Pe and his team will spiritually culture the participants with state-of-the-art esoteric tools, guided by a curriculum that molds the personality and character of the participants to meet a fast-track requirement toward enlightenment. This will also include special self-defense techniques for day-to-day safety and survival. The curriculum will help to reverse ageing, boost the immune system, release body toxins and build stamina.

The modern spiritual path does not only adhere to the loving kindness of a Saint but also the persistence, endurance and self-discipline of a good soldier. This courageous attitude is one of the most important qualities that good-hearted people don't usually have, which stops them from creating breakthroughs in world service. Master Del Pe believes that will-power, heart and mind are to be harmonized to attain real self-mastery. The Martial Arts-Yoga provides that missing link.

❖ Life Mentoring Services

Master Del Pe and his team will perform group and individual healings and mentoring sessions that engage participants to resolve their life's issues and blockages of their spiritual development. Charting their energy anatomy and Soul's age to identify their level of development is included in this package.

The mentors will help participants to clarify their higher purpose and their type of temperament amongst the 8 types of human design, in order to discover their greatest strengths, weaknesses, seeds of failure in life and their maximum potential. This part of the program is the key stroke for understanding who they are and who they are not. For Level 3 and 4 practitioners, enlightened life coaching will also include profiling your complete energy anatomy and discovering ways to sustainably overcome your life's blockages.

❖ Entertainment and Recreation

Body works with massage, natural hot spring baths, nature strolls and a few outdoor sports are also a part of the Enlightened-Life Retreat. The magnificent view and ecosystem of the retreat location can be called the Philippine Himalayas – a featured combination of Tibet, Nepal and the Indian mountainous region. Thus, there is more to the splendid 360-degree view of the retreat venue than the eyes and mind can absorb.

Body, energetic, emotional, mental and spiritual pampering to incubate the unfolding divinity in everyone is a necessary ingredient to bring the spiritual spice while pursuing an enlightened life. A disciple of the new modern path requires

culturing the ego for it to become a powerful and effective Soul instrument to serve life. The problem is that most other spiritual teachings want to kick the ego rather than nurture it. This program develops the partnership of the ego and Soul.

❖ Enlightened-Life Kit

All participants will be offered a kit that has all the books, CDs, DVDs and guiding materials... so don't worry about the knowledge retention issues. You are expected to be in an immersion program and not in a memory work-out. You can bring home the experience in your body and Soul's memory. The Enlightened-Life Kit will serve as a reminder and guideline to deepen your practice. The kit provides you study material for many years, if not a lifetime.

❖ Follow-up Sessions

Post-retreat group mentoring sessions for 3 months (2 hours sessions, 2 times per month) will be included in the program. These sessions carried over a total of 12 hours will make sure that the participants are confident in their next-step strategy.

As a special bonus to participants for their continuing education, a series of special lectures of over 5 hours will be shared with them for online viewing in the comfort of their homes, which will include QnA with Master Del Pe and advanced meditations suited for the practitioner's level (*TeleDarshan* or Esoteric Time with MDP).

Praises for Master Del Pe's Enlightened-Life Program...

"I have gone around the world looking for a spiritual teacher even in Tibet, India, China and the Andes mountains but I did not find what I was looking for. You may say I am a seeker who has 'been there, done that'. When I attended Master Del Pe's retreat, I knew I had arrived! He is an encyclopedia of knowledge about esoteric and healing sciences. You pay \$10,000 dollars to attend and bring home more than a billion dollars' worth of spiritual goodies."

- M.J., Life Coach, (Houston, Texas)

"My spiritual search had been difficult because I had to go through health challenges, income and financial crises to wake up. Through Master Del Pe's retreats and spiritual mentoring, I was able to bring back my fragmented self into one whole piece, extremely brighter and more enlightened than before. In the modern times,

you need a guru who is not just wise but also an advanced healer because the karma of awakening brings not only bliss but also karma-acceleration resulting to suffering and big tests. You need a mentor like Master Del Pe who is an example of a balanced-life, both materially and spiritually."

- H.L., Serial Entrepreneur (New Delhi, India)

"I thought I was already a very advanced Soul and well-equipped to become a spiritual teacher. In fact students in yoga think that I am their guru. When I attended Master Del Pe's retreats I felt that I have become a student again. He is more than a guru. He is a modern enlightened Master who can do alchemy, magic, healing miracles but he is still grounded in the day-to-day affairs. He is one of those whom I've seen to have one foot on Earth and one foot in Heaven."

- R.A., Spiritual and Yoga Teacher
(Rio de Janeiro, Brazil)

"Service is an expression of inner growth and development. It is the muscle-building for virtues. It is the barometer of inner development and spirituality. "

About Master Del Pe

Master Del Pe

Master Del Pe designed the Enlightened-Life Retreat to be a faster, straight forward approach to spiritual awakening by bringing a highly packed curriculum. He believes that inspiration alone does not bring direct results in the long run, because people on the path need real techniques, spiritual tools and systematic strategies to move forward in a more calibrated and serious process until enlightenment happens.

Master Del Pe, personally trained by 4 advanced Masters, had gone through the whole process of enlightenment from a student, apprentice, and disciple until he became a Master himself. Thus, he knows the loopholes of the spiritual path. He created the Enlightened-Life Program to take into account all the requirements for successfully finishing what you start in the path of higher evolution.

He synthesized his teachings from his expertise as a Modern Sage, world philosopher, Esoteric Psychologist and Scientist, a Divine Alchemist, Spiritual Technologist and a Third Eye Initiation guru. He also brings to his retreats his mastery of martial arts-yoga, healing science, his engineer's mind and his entrepreneurial spirit as the founder of 2-USA based institutions: *BElife Institute for Higher Consciousness (BIHC)* and *American Institute for Leadership Advancement (AILA)*.

Author of 9 books, he has travelled to over 100 countries teaching and at the same time studying world philosophies, world religions and world cultures.
