

Our Magic Journey on Earth. A Book of Kindness, Friendship and Respect

Daniela Clara MORARU

Daniela Clara Moraru has been working with children since 2004, when she created the language school called Languages.lu in Luxembourg City. The initial idea was that her nephew, Alex, would learn languages whilst having fun and making new friends. Since then, more than 2500 children aged 6 to 18 have attended the individual or small group language programmes in French, English, German or Luxembourgish.

Passionate about languages and education, she started from 2015 onwards to create and publish a series of learning materials for children and adults. "My first 100 words" learning cards in French, Luxembourgish and English are now successfully used in kindergartens, as well as at home by children and parents. Other resources include "365 days to learn Luxembourgish", "100 expressions in Luxembourgish" and "Sticky notes Luxembourgish".

Her first book of short stories for children "Our Magic Journey on Earth. A Book of Kindness, Friendship and Respect" is a reminder for children (and adults alike) that we are just a tiny part of our planet and should therefore treat it with utmost respect and care.
