A Message From Our HOA President

Happy New Year! Is it possible that 2018 has closed its door and we now move forward into a brand new year? So many things can and do take place over a twelve month period. Seaglass Village is no exception, as I reflect on all the things the new board has accomplished since leaving in the fall and the regular daily activities and special events scheduled for us to enjoy during our season there. Thank you to all the individuals who through their leadership make these things happen.

I strive to represent all our home owners in maintaining and improving our community's value, safety, and design. My focus is on improving

communication of HOA matters to home owners and making HOA issues and decisions easily accessible for review.

We have accomplished many things in the off season. Attached you will see that we have completed an organizational chart, job descriptions and updated policies and procedures. We have also sent a survey to our homeowners. The information gathered will help us as we move forward. We are still reviewing the responses. Overall, people are happy to be owners at Seaglass.

We will continue to meet monthly during the off season. Our next meeting, we will be concentrating on the review of Great North and the hiring of staff for our next season. We are happy to announce that Donnie Sanborn will be our Operations Manager.

Happy, healthy New Year to everyone. Counting the days down until May!

Judy Moseley
